## LAMAR UNIVERSITY

 2000-2002 Catalog • Volume 46 Number 1
## Forty-sixth catalog issue with announcements for 2000-2002.

Founded in 1923, and established as a four-year coeducational state-supported college on September 1, 1951.
The provisions of this catalog do not constitute a contract, expressed or implied, between any applicant, student and faculty member in Lamar University. Lamar University reserves the right to withdraw courses at any time, change fees, calendars, curricula, graduation procedures and any other requirement affecting students. Changes become effective when the proper authorities so determine the application to both prospective students and to the students already enrolled.

Lamar University is an equal opportunity/affirmative action educational institution and employer. Students, faculty and staff members are selected without regard to their race, color, creed, sex, age, handicap or national origin, consistent with the Assurance of Compliance with Title VI of the Civil Rights Act of 1964; Executive Order 11246 as issued and amended; Title IX of the Education Amendments of 1972, as amended; Section 504 of the Rehabilitation Act of 1973. Inquiries concerning application of these regulations may be referred to the Office of the Vice President for Finance and Operations.

Catalog of Lamar University (USPS 074-420).

## General Information

## Location

The Lamar University campus is located in Beaumont, Texas. With a population of more than 114,000 , Beaumont is a diversified city, home not only to the University but also to businesses and industries stemming from a strong petrochemical and agricultural base. World-renowned companies are located in Beaumont to take advantage of the area's resources and its educated work-force.

A host of cultural attractions offer a variety of leisure options from world-class museums and symphony presentations to shopping districts and many spring and fall festivals. A civic center, convention center and coliseum draw professional entertainers and a wide variety of business, social and professional groups to the city. Beaumont is convenient to lake, river and ocean recreation, located only a few miles from the balmy Gulf Coast and little more than an hour from the Big Thicket National Preserve, large lakes and piney woods.

The campus is home to the stately Mary and John Gray Library, the Montagne Center coliseum, the Setzer Student Center, Gladys City Boomtown, several residence halls and state-of-the-art computing and engineering facilities, including a leading-edge interactive video laboratory. Lamar University welcomes visitors. Information regarding tours may be obtained from the Office of Admission Services, P.O. Box 10009, Beaumont, Texas 77710, phone (409) 880-8888.

## History

Lamar University originated on March 8, 1923, when the South Park School District in Beaumont authorized its superintendent to proceed with plans to open " $a$ "Junior College of the first class." On September 17, South Park Junior College opened with 125 students and a faculty of fourteen. Located on the third floor of the South Park High School building, the College shared the library and athletic facilities with the high school. In 1932, separate facilities were provided and the name of the institution was changed to Lamar College, to honor Mirabeau B. Lamar, second president of the Republic of Texas and the "Father of Education". in Texas.

On.June 8, 1942, as a result of a public campaign, a new campus was purchased and classes were held for the first time on the present-day campus in Beaumont. After World War II, the College grew to 1,079, and the Honórable Jack Brooks introduced a bill in the Texas House of Representatives to make Lamar University a state-supported senior college. The Legislature approved House Bill-52 June 4, 1949, creating Lamar State College of Technology effective September 1, 1951. Lamar was the first junior college in Texas to become a four-year, state-supported college. Lamar continued to grow, building strong programs in engineering, sciences, business, education and the arts.

In 1962, a graduate school was established offering master's degrees in several fièlds. The Doctorate in Engineering was established in 1971. In the same year, House Bill-590 became law, changing the institution's status from college to university. Lamar State College of Technology, with an enrollment of 10,874 , officially became Lamar University on August 23, 1971.

In 1969, an extension center was opened in Orange, and in 1975, the long-standing, private two-year Port Arthur College became Lamar University at Port Arthur. The Lamar University System, of which Lamar University-Beaumont was the primary com-
ponent, was established in the 68th Session of the Texas Legislature with the passage of SB-620, which took effect in August 1983.

In 1990, the Texas Higher Education Coordinating Board recommended that, all twoyear programs at Lamar University be combined into the Lamar University Institute of Technology. The programs in the former College of Technical Arts, along with Allied Health, Office Technology and Restaurant/Institutional Food Management were placed in the new Institute. The Doctorate of Education in Deaf Education was established at Lamar University in 1993.

Lamar's commitment to quality higher education has been steady and progressive, anticipating the evolving needs of its students. To facilitate this commitment, the Texas Legislature approved House Bill-2313 to merge the Lamar University System with The Texas State University System (TSUS). Effective September 1, 1995, Lamar University, along with the two-year components, joined sister institutions Angelo State University, Sam Houston State University, Southwest Texas State University and Sul Ross State University. On June 19, 1999, the Texas Legislature approved House Bill-1297 to rename Lamar University at Port Arthur, Lamar University at Orange and the Lamar University Institute of Technology. Today, these TSUS institutions are known as Lamar State College at Port Arthur, Lamar State College at Orange and the Lamar Institute of Technology.

As a comprehensive university granting bachelor's; master's and doctoral degrees, Lamar University continues to enhance its instructional, service and research missions. Lamar's growth has produced an economic impact that exceeds $\$ 164$ million annually, but even more influential is the impact realized by Lamar graduates, who are more than 65,000 strong.

## Government

A board of nine regents, appointed by the Governor and approved by the State Senate for termis of six years, governs The Texas State University System. The Board of Regents delegates the direction of university affairs to the presidents, campus administrative officers and faculty.

## Mission Statement

Lamar University is a comprehensive senior public university dedicated to providing a learning environment of the highest quality. The University is an educational, scientific, engineering, business and cultural resource center committed to the threefold mission of teaching, research and service. The University is committed to providing students with a liberal education in the context of a global and multicultural environment and seeks partnerships with business, governmental, industrial and other educational organizations to more efficiently accomplish its goals.

## Instructional Mission

Lamar University emphasizes quality teaching, student access to faculty and careful student counseling. The University creates a liberating educational experience for each student that expands knowledge, awakens new intellectual interests, examines values, develops talents; provides new skills and prepares each student to assume an effective role as a citizen in a democracy.

The University's mission in graduate education is broad-based at the master's level, and includes doctorates in engineering and deaf education. Other doctoral-level educa-
tional opportunities for the region are enhanced through cooperative arrangements between Lamar University and other institutions of higher education. The University's mission in graduate education is characterized by an emphasis on professional fields of study.

With historical commitments to quality educational programs in engineering, business, the arts and sciences, health sciences, education, and the visual and performing arts, the University focuses its unique strengths on significant problems of contemporary interest as evidenced by its recent initiatives in environmental science, engineering, gifted education, and deaf education. Lamar University is strongly committed to the continual enhancement of teaching/learning methodologies and their systematic assessment.

## Research Mission

As a comprehensive, regional university with extensive educational programs, Lamar University's academic efforts are directed to both applied and basic research, scholarship and creative activities. Through its emphasis on the "teacher-scholar model," the University encourages faculty members to be active in their respective disciplines, to involve both undergraduate and graduate students in research and creative pursuits, and to support the principle that research is inseparable from teaching.

## Service Mission

The University's educational mission extends to all residents of the Southeast Texas area and, in special cases, beyond the region. In recognition of that mission, the University provides a diverse outreach program including: credit and noncredit continuing education offerings responsive to the personal, career, and professional development needs of individuals in our region; specialized skills training and human resource development for business and industry on the Gulf Coast; and public service activities that respond to unique regional educational needs and cultural interests.

The University contributes to the cultural life of the region through artistic presentations and events utilizing the talents of faculty, students and visiting lecturers, artists and performers.

Students, faculty and staff are encouraged to be involved in civic, cultural, service and professional activities. By such voluntary and consultative activities, members of the University demonstrate their citizenship within the larger community.

## The Philosophy of Knowledge Core Curriculưm

## Rationale

A program of General Education Requirements for undergraduates is based on the premise that certain common, essential qualities, independent of one's academic discipline, are necessary for intellectual growth and professional advancement. These fundamental, "liberating" qualities, which have guided human progress through history, enable one to communicate effectively, think critically and examine values and principles. They provide a working acquaintance with the scientific method, an appreciation of cultural achievements and an understanding of the relationships among people, their cultures and their natural environment. By providing a stronger historical conscious.ness, they sharpen a citizen's sense of responsibility to family and society.

A general education provides the base on which a student can build a strong specialization while having the flexibility, which a changing society demands. Specialized skills are needed in a complex environment, but the rapidity of technological change often requires the acquisition of new specialties. A sound general education provides the skills and knowledge which individuals will always need to develop their potential and meet the challenges and opportunities of the future.

## Objectives

Lamar University's "Ways of Knowing" core curriculum satisfies the criteria for compliance with the mandates of Senate Bill 148 (75th Legislature) and for consistency with the statement, recommendations and rules of the Texas Higher Education Coordinating Board regarding core curriculum. Lamar's core curriculum includes the basic competencies, which have long been seen by society as the minimal requirement. of an educated person. Further by synthesizing the core curriculum into a "Ways of Knowing" or methods of inquiry focus and by emphasizing the application of methods of inquiry in the humanities or the scientific method, this core addresses the goals of coherence and distinctiveness.

The core is designed to further develop in students the abilities to think critically, to communicate effectively and to understand the major social and personal issues of the times. Core courses include emphases on research, writing and speaking. Core courses encourage participation in university and community organizations and activities.

## Components of the Philosophy of Knowledge Core

I. Philosophy 1370-three semester hours

A freshman-level survey of major knowledge systems, presuppositions and methodologies.
Transfer Students: See Note \#3 below,
II. Methods of Inquiry in the Humanities

Freshman English Composition-six semester hours. English 1301 (or English 1360 -Honors) and either 1302 or 1374. A passing score on TASP writing test or satisfactory completion of the developmental English course (Developmental Writing 0371) is a prerequisite to admission to English 1301.
Literature-three semester hours. Three-hour sophomore-level literature course.
Communication-three semester hours. Communication 1315, 1360, 2335, 2373, 3310 or 3340 ; or an introductory modern language course (including CMDS 2305).
American History-six semester hours. Texas law requires six hours in American History. This shall be satisfied by completing two courses from History $1301,1302,2373,2374,1361,1362$ or 2377 . Three semester hours may be satisfied by an advanced standing examination or by History 2301.
Fine Arts-three semester hours in a visual or performing art. Art 1301, Dance 1370 , Humanities 1315, Music 1306 or Theatre 1310.
III. Applications of the Scientific Method of Inquiry

## Accreditation

Lamar University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools, 1866 Southern Lane, Decatur, Georgia 300334097; telephone number (404) 679-4501, to award degrees at the Associate, Baccalaureate, Master's and Doctoral levels. In addition, Lamar is approved by the Texas Education Agency.

Several departments and programs are accredited by professional agencies. In the College of Engineering, the programs in Chemical, Civil, Electrical, Industrial and Mechanical Engineering are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology. The undergraduate and graduate programs of the College of Business are accredited by the International Association for Managément Education.

Other accreditations include Nursing by the National League for Nursing Accrediting Commission, the Department of Chemistry by the American Chemical Society; the Department of Geology by the American Institute of Professional Geologists; Department of Music by the National Association of Schools of Music; Dietetics program by the American Dietetic Association; the program in Social Work by the Council on Social Work Education and programs in Speech-Language Pathology by the American Speech-Language-Hearing Association and in Deaf Education by the Council for Education of the Deaf. The University also is a member of a number of academic councils, societies, associations and other such organizations.

## Policy Regarding Review of Institutional Accreditation Documentation

Persons wishing to review documentation regarding the institution's accreditation, approval or licensing may do so by contacting the Office of the Executive Vice President for Academic Affairs; Room 101 in the Plummer Building (409-880-8398).

## Teacher Certification

All teacher education programs of the University are approved by the Texas Education Agency. Students seeking teacher certification should consult the Director of Professional Services, College of Education and Human Development, regarding requirements.

## Organization

Lamar University, is organized into six colleges. These are Arts and Sciences, Business, Education and Human Development, Engineering, Fine Arts and Communication and Graduate Studies. Within each college are academic departments and programs. Each college is headed by a dean, and each department is headed by a department chair.

## Entering Dates and Enrollment Opportunities

Courses and schedules have been arranged so students may enter Lamar four times each year. The current University Calendar contains information regarding registration periods and exact entering dates.

## Evening Classes

Classes offered after 5 p.m. are considered Evening Classes, sometimes called Extended Day Classés. Evening classes, with few exceptions, are taught by the regular faculty. Persons employed during the day may attend classes in the evening and study to obtain a degree or to expand their knowledge in a special field of interest as an adult non-degree student. Admissions and Registration Services are available in the Wimberly Student Services Building.

## Mini-Sessions

Demand and resources permitting, Lamar University offers mini-sessions between the end of the fall semester and the beginning of the spring semester (December MiniSession), and between the end of the spring semester and the beginning of the first summer session (May Mini-Session). Students are limited to one course per mini-session. For additional mini-session policies, students should consult their academic advisor.

## Distance Learning

Lamar Üniversity offers courses using several distance delivery methods - including web-based courses, interactive video and telecourses - to help students complete their degree. Courses delivered via the World Wide Web, or eCollege courses, provide students with greater access options. Interactive video broadcasts an on-campus class to a distant site through video teleconferencing equipment. Distant students can hear and see, in real time, the instructor and students in the Beaumont campus classroom.

Telecourses are broadcast on cable television. Students watch televised lectures; class assignments are handled by mail, e-mail or fax; the instructor is available by telephone, e-mail or individual appointment; and students come to campus for exams. Additional information about distance delivery courses is available through the Division of Continuing Education, (409) 880-8431, or www.lamar.edu.

## Alumni Association

The Lamar University Alumni Association, which includes graduates and ex-students, is active on a year-round basis. The Executive Director of the Association maintains an office in the Alumni House located on Redbird Lane. This office coordinates all events and activities for alumni ranging from fund-raising to social events. Some of these include chapter activities, reunions, homecoming and Distinguished Alumni Awards. It also administers 31 Presidential Scholarships donated by alumni and friends. These scholarships are awarded to eligible incoming freshmen and are some of the most coveted scholarships offered at Lamar University.

## Bookstore

The Lamar University Bookstore is located in the Setzer Student Center. The leaseoperated bookstore features new and used textbooks for the fiscal school year, trade books, course materials, school supplies and officially licensed Lamar University Cardinal and Lamar Institute of Technology merchandise:

## Continuing Education

Continuing Education is a multi-division of programs and services designed to meet the changing needs of Southeast Texas. Within this division are the Center for Adult Studies, Non-Credit Programs, Center for Industrial Fire and Hazardous Materials Training, Spindletop/Gladys City Boomtown Museum, Lamar Language Institute and a variety of other special programs. which provide unique educational opportunities.

The Center for Adult Studies coordinates distance learning credit courses and provides point-of-entry advising for all adults who are considering returning to college or beginning college. The Center is also the advising office for the Bachelor of Applied Arts and Sciences degree program. Distance learning classes allow students to earn credits toward degrees using locations and technology that are convenient and accessible. The Center also coordinates travel study programs.

The Non-Credit Programs Division serves as a link between Lamar University and the community to meet educational, cultural and training needs. Non-credit certification programs and courses help students to build professional skills or provide entrance into new career fields. Programs cater to a wide segment of the population ranging from summer youth programs to college experiences for those aged 65 or over. Customized contract training for business and industry, along with seminar and conference organizational services are also provided.

The Center for Industrial Fire and Hazardous Materials Training provides training to business, industry and government personnel. The Lamar University fire-fighters training program is one of four in the nation that has been recognized by the United States Occupational Safety and Health Administration to train personnel in fighting chemical and hydrocarbon fires. The Center hosts industrial fire brigade training, rescue courses, marine fire training, hazardous materials workshops, and an annual school each May.

The Lamar Language Institute offers a comprehensive program to increase English language proficiency for those whose first language is not English. Courses in foreign languages and multi-cultural diversity are also offered.

Other programs administered by the Division of Continuing Education include the Spindletop-Gladys City Boomtown Museum (see page 19); Institute for Young Professionals, a summer program to encourage and motivate high-achieving high school students; and the "I Have A Dream," program which pairs mentors from the community with middle and high school students to encourage them to complete their education and continue to college on scholarships provided by the program.

Continuing Education administrative offices are located in the Montagne Center. To learn more about these programs, call (409) 880-8209.

## Early Childhood Development Center

'Lamar University's Early Childhood Development Center is located at 950 East Florida. The Center provides high quality extended day-care services and preschool, pre-kindergarten and kindergarten programs designed for children between the ages of 18 months and six years. The Center is home to a special program called "Super Kids." The science-based, interactive program for first- through third-graders is taught in oneweek sessions.

The Center is staffed with degreed teachers who create a stimulating environment and provide unlimited opportunities for learning. In addition to providing care for young children, the Center, under the direction of the College of Education and Human Development, provides a site for college students from a number of different disciplines to work with children as part of their course work and training.

The Early Childhood Development Center accepts children on a part-time or fulltime basis with fees based on the number of hours children are in attendance in the day-care program. A set monthly rate for the preschool, pre-kindergarten and kindergarten programs is available. The Center is open to the public with priority given to faculty, staff and Lamar students' children. To learn more about these programs, call (409) 880-8212.

## Information Systems (Computing Facilities)

The University Information Systems Division is responsible for providing the computing services required by the academic, administrative and research communities of Lamar University.

The Computer Center, a department of the Information Systems Division, provides for administrative computing with a DEC 7620 computer system. This system is capable of processing 270 million instructions per second (MIPS), has 1.5 billion bytes of working memory and 61 billion bytes of disk storage. The operating system is Open VMS and is capable of handling in excess of 600 simultaneous users. The system supports two 1200 line per minute impact printers, one 600 line per minute impact printer, two laser printers, one reel-to-reel tape unit, and four cartridge tape units.

The Computer Center supports the academic mainframe computer needs with a DEC 2100 Alpha computer running Open VMS and a DEC 2100 Alpha computer running UNIX. Both DEC 2100 Alpha computers are capable of processing 70 million instructions per second (MIPS), have 256 million bytes of working memory, 14 billion bytes of disk storage, and a 4 mm cartridge tape unit.

The Computer Center operates a DEC 2100 Alpha computer for the John Gray Library. This computer uses Open VMS as an operating system to run the third party library software package DRA. The library DEC 2100 is capable of processing 100 mil lion instructions per second (MIPS), has 256 million bytes of working memory, and 20 billion bytes of disk storage, and one cartridge tape unit.

General use computer labs for students are located at various strategic locations on the campus. These labs utilize personal computers that can be used as terminals or workstations. The campus computer systems are connected using a fiber optic backbone that allows high speed data transmissions and connection to the Internet.

## Lamar Language Institute

The Lamar Language Institute (LLI) is a non-academic English training program, offering full-time study of English as a Second Language during fall, spring and summer sessions. LLI intensive courses provide English training for international, college-bound students as well as non-native speakers of English living and working in the community.

Permanent residents may study part-time in our program, which includes intensive work in all language skill areas: writing, grammar, reading, vocaioulary, listening comprehension, conversation and pronunciation.

Our full-time course provides over 20 hours of ESL instruction per week for 70 class days within the fall and spring semesters. Our summer sessions provide more than 20 hours of ESL instruction per week during 25 class days.

As an integral part of training and study, the LLI and Lamar University offer our students a variety of social activities, both on and off campus. Many of these activities are free of cost and do much to enhance the learning of English while also providing enjoyable opportunities to have meaningful contact and communication with Americans.

Beyond these regular courses, the LLI also provides developmental writing and reading courses for non-native speakers of English who have yet to satisfy TASP requirements. The LLI also offers customized corporate training plans, which include on-site instruction of foreign languages, English as a Second Language and English for Special Purposes. Additional information is available by calling (409) 880-8683, e-mailing language@hal.lamar.edu or writing Lamar Language Institute, P.O. Box 10008, Beaumont, Texas 77710.

## Library

The eight-story Mary and John Gray Library building dominates the campus from its central location. The Library occupies seven floors with on-line public access catalog to more than $1,000,000$ volumes and 3,000 periodicals. Seating accommodates 1,200 students and faculty.

The first floor service areas include circulation, reference and inter-library loans. The second floor houses reserve reading, current periodicals and government documents. Four floors provide stacks for books and periodicals shelved in Library of Congress classification sequence from class " A " on the third floor through class " Z " on the sixth floor.

The seventh floor houses the library administrative offices, the Media Services Department, computer lab and Special Collections.

The eighth floor offers expansion space for the future, but is presently shared with other University services. This spacious and elegant floor, furnished by community donors, serves as a University Reception Center for meetings and conferences.

Expanding library collections support continuously evolving academic programs. In addition to a strong collection of books, electronic information and periodicals, the Library provides access to state and federal government documents and participates in the library networks that extend access to information resources. The Library coordinates multimedia programs on campus and has a basic collection of equipment and materials for central distribution.

## Environmental Library

Also located on the second floor of the Mary and John Gray Library, is the Gulf Coast Environmental library, the focus of which is the industrial treatment of hazardous waste.

## Montagne Center

The 10,000 -seat Montagne Center, home of the Lamar University basketball and volleyball teams, is a multipurpose facility that provides opportunities for educational and extracurricular programs. The center houses the athletic offices, ticket office and continuing education programs.

## Postal Services

The University Post Office is United States Postal Service Contract Station and is officially designated as Lamar University Station 77710. Full postal services are offered, including stamp sales for both domestic/international mail, United Parcel Service, mail forwarding, express courier deliveries and bulk mail processing as well as folding, tabbing and inserting services.

Each student may make application for a box at the Post Office by completing necessary forms. There is a charge for each box. Three students are allowed to share the same box. Hours of operation are 8 a.m. -5 p.m. Monday-Friday.

## Research Office

The Research Office is administered by the Associate Vice President for Research, who chairs the Research Council. This office promotes and funds internal research; oversees sponsored programs and technology transfer as well as patent, copyright and intellectual property policies; establishes liaison between the university and state and national funding sources; and assures that proposed projects comply with institutional and governmental regulations. This office also provides assistance to faculty in the development and submission of grant/project proposals by locating funding sources and providing editorial assistance in proposal preparation.

## Services for Students with Disabilities

The Office of Services for Students with Disabilities (SFSWD) offers a variety of services designed to assist students with disabilities in becoming fully participating members of the university community. Some of the services provided include academic accommodations, assistive equipment, interpreters, note-takers, physical access and priority registration. Documentation of a disability from a professional in the field is required to receive services.

Students with disabilities should notify the coordinator of SFSWD prior to registration in any university program. The coordinator will arrange a meeting with the stu: dent to determine an individualized educational plan.

The Office of Services for Students with Disabilities is located in 101A Wimberly Building: Students may write to P.O. Box 10087, Beaumont, Texas 77710, call (409) $880-8026$ or fax (409) 880-2225.

## Spindletop-Gladys City Boomtown Museum

The Spindletop-Gladys City Boomtown Museum, is located at University and Cardinal Drives (Highway 69). It has artifacts, exhibits and 15 buildings that re-create the early days of the oil industry in Texas, which began on January 10, 1901, when oil was discovered and the Lucas Gusher blew in at Spindletop Hill not far from the present Lamar campus. Gladys City is a re-creation of a boomtown that sprang up at Spindletop after the Lucas discovery.

Gladys City is open from 1 to 5 p.m. Sunday through Friday, and from 9 a.m. to 5 p.m. Saturday (closed Monday). Admission is $\$ 2.50$ for adults, $\$ 1.25$ for children age 6 to 12 and for senior citizens. Lamar students with current identification cards and children under 6 are admitted free. Private groups may rent the facilities. Telephone (409) 835-0823 or write to P.O. Box 10070, Beaumont, Texas 77710 for further information.

## Smoking Policy

Lamar University is a non-smoking facility unless otherwise noted. There shall be posted at the entrance of every building on the university campus a sign stating "This is a nonsmoking facility except in designated areas." Each building coordinator, with the approval of the Vice President for Finance and Operations, shall, if an appropriate area exists, designate a smoking area. Smoking is prohibited in all academic class-
rooms, laboratories, meeting rooms, restrooms,, locker rooms, coffee areas, supply storage areas, lobbies, corridors, reception areas, private offices, and university vehicles. The cafeteria, dining halls, or other eating areas are nonsmoking areas, unless they are large enough to provide space for smoking that does not intrude on nonsmokers. This nonsmoking policy applies to university facilities used by off-campus groups as well as university groups.

## University Advancement

The Division for University Advancement encompasses development, publications and institutional marketing. It operates the University News. Bureau and University Reception Centers and serves as liaison to the Lamar University Foundation, Inc., and the Lamar University Alumni Association.

Advancement works closely with the President in raising external funds for student scholarships and other advancement programs. The Division coordinates fund-raising by the five academic colleges, the Lamar University Foundation, and other campus constituencies.

## Veterans' Affairs Office

A Veterans' Affairs Office is maintained in the Wimberly Student Services Building to aid veterans in obtaining their educational benefits. It also provides academic assistance and counseling. Veterans are encouraged to complete admissions and testing requirements 90 to 120 days prior to the period for which they wish to enroll. Additional information about veterans' programs may be found in the Fees and Expenses section of this catalog.

## The Writing Center

The Writing Center provides professional assistance to Lamar University students, with their writing projects. The center's goal is to help students grow and mature as writers by providing help with difficulties they may have in academic writing. A student may work one-on-one with a writing consultant during individual tutorials. Consultants may be peers, professionals, graduate students, part-time instructors or full-time teachers who meet individually with student-writers for specific help or general instruction. Some writers seek help on their own, others appear at the recommendation of teachers, and in some cases, writers may work in the center as a required part of their coursework.

Writing consultants facilitate the process of writers finding their own answers. Consultants may engage writers in discussions of their topics so writers can develop their own ideas and practice the phrasing and vocabulary of the kinds of discourses they will be writing. Consultants may also offer reader feedback on developing drafts of papers by suggesting writing strategies, by reviewing misunderstood or missing information and by helping students gain perspective on their writing.

Located in Maes 208, The Writing Center features twenty-five personal computers with a variety of software programs, including Microsoft Word, Access, Excel; Powérpoint, Front Page, Publisher and Internet Explorer, as well as e-mail access. Lamar Univerșity students can use the computer facilities during normal hours of operation for the center, provided the center is not reserved as a computer classroom. For more information or to make'an appointment for a consultation, contact The Writing Center at (409) 880-8571.

## Admissions

Applicants for admission to the University are required to meet the academic requirements outlined in this bulletin or other applicable publications of the University. Both the College of Graduate Studies and the Lamar Institute of Technology publish their own catalogs and require special application forms. The Office of Admission Services, located in the Wimberly Student Services Building, provides complete admissions counseling for entering students. Professionally trained personnel assist prospective students in assembling all admission credentials so transition into a college environment can be made as smooth and problem-free as possible. All initial inquiries to the University should be made to this office by writing P.O. Box 10007, Lamar University Station, Beaumont, Texas 77710 or by calling 409-880-8888.

## Requirements for Students Entering from High Schools

An applicant is required to have graduated from an accredited high school and to have submitted SAT or ACT entrance examination scores. Minimum score requirements are specified in paragraph I.B. below. Applicants who have attended another college or university cannot disregard that enrollment and seek admission only on the basis of their high school records. Equivalency diplomas granted on the basis of GED scores will not fulfill entrance requirements.

The admissions requirements are:
I. Unconditional Ádmission
A. Granted to students who meet the following prerequisites:

1. Attainment of a high school diploma from an accredited high school AND

3. Successful completion of at least 9 credit hours of collegiate (i.e., nondevelopmental) courses including ENGL 1301 or MATH 1314 (or a higher numbered math course) with a,GPA of 2.0 or higher within 12 months of their first registration at Lamar University.
C. Students who do not satisfactorily complete the provisions of Individual Approval admission will be denied readmission to Lamar University for one long semester.
III. Exceptions
A. Any applicant over 25 years of age will be granted admission with proof of high school graduation and presentation of SAT or ACT scores.
B. A non-high school graduate who is at least 18 years of age may apply for admission under Individual Approval provisions. Such applicants must 1) demonstrate the aptitude and seriousness of purpose to successfully pursue a college course of study, and 2) furnish evidence of preparation substantially equivalent to that required of other applicants. Evidence must include a GED, SAT or ACT scores, and transcripts of previous academic work.
C. Graduates of home schools or non-accredited high schools must submit transcripts of high school work and SAT or ACT scores. Applicants will be reviewed in accordance with transcript course requirements as listed in Admissions Requirement I. A. 2. and must satisfy minimum SAT or ACT minimum score requirements. Applicants who fail to meet the requirements of unconditional admission may be considered on an Individual Approval basis.

## IV. Summer Bridge Program

Any student who has been denied admission, or who has been accepted on an Individual Approval basis, may enroll in the University's Summer Bridge Program. Students who successfully complete the requirements of the Summer Bridge Program will be admitted into the following fall semester.
V. Additional Requirements

In addition to these general admission standards, Lamar University pre-professional and professional programs may require separate, more rigorous standards commensurate with the demands of the various programs.

## Summer Bridge Program

The Summer Bridge Program is a voluntary summer program offered to students who have been accepted under Individually Approved admission status, as well as to applicants who have been denied admission in accordance with the university's published admission criteria. This program combines academic advisement, a mandatory
tutorial program, TASP required development course work; and regular college course work to prepare and assist students for fall semester admission. Any Individually Approved student who successfully completes the bridge program may enroll as a regular student for the fall semester without IA provisions. Any originally denied student who successfully completes the bridge program may enroll as an Individually Approved student for the fall semester with IA provisions. Specific program requirements are available through the Office of Admissions.

## Entrance Examination Requirement

Applicants may submit either SAT or ACT scores in fulfillment of the entrance examination requirement. These examinations are required for entrance purposes. Both tests are given several times each year at test centers throughout the United States and in many foreign countries. It is recommended that summer and fall applicants take one of the tests early in the senior year and, if possible, no later than February. Location of test centers, test dates, fees, test application forms, sample question booklets and similar information may be obtained without charge from high school counselors or from the Lamar University Testing Services Office located in room 102 Galloway Business Building. Other SAT inquiries may be directed to the College Entrance Examination Board, Box 1025; Berkeley, California 94702. ACT inquiries should be directed to the American College Testing Program, Box 168, Iowa City, 0828 Iowa 52240.

- Achievement tests are not required, but in many cases are recommended. Students whose high school records are outstanding should consider taking achievement tests for advanced placement.

## How to Apply

1. Submit application for admission on the official form, including your Social Security numbèr.
2. Take the Scholastic Aptitude Test (October, November or December dates preferred) or the American College Test (October or December dates preferred) and designate Lamar University to receive score reports.
3. Submit a copy of your current high school transcript to Lamar University.
4. Have final high school transcript sent to the Lamar University Admissions Office immediately after graduation. Final certification. of graduation is required.

## When to Apply

It is recommended that new and former students complete an application for admission and submit all required documents by the following dates.

Fall semester
Spring semester
Summer I semester
Summer II semester
August 1
January 2
May 25
July 1
Applications received after these dates will be considered as time allows.

## Acceptance Notices

Acceptance notices normally are issued shortly after the required admission credentials are received. Registration information and general instructions are included. Lamar University has no student quota. All applicants who meet entrance requirements are generally accepted.

## On-Campus Living Requirement for Freshman

The Board of Regents has established a freshman residency policy that states: "All undergraduate, full-time students (those) enrolled in 12 or more semester credit hours) with fewer than 24 earned semester credit hours are required to reside in a Universityoperated residence hall." Exemptions may be granted for those who 1) reside with a parent, guardian, or other adult relative; 2) are 21 years of age by the first class day; 3) enroll only in evening classes; 4) are married or have dependent children; 5) have a medical exemption signed by a doctor; or 6) have earned 24 or more credit hours. Official documentation verifying exemptions to this policy may be required by the University Housing Office. Questions concerning this policy should be directed to the Housing Office at (409) 880-8111.

## Residency Status

A student's state of residency is determined prior to first enrollment in accordancewith rules and regulations established by the Texas State Legislature and the Texas Higher Education Coordinating Board. Detailed information on residency is available in the Admissions Office and the Office of Academic Services or by calling (409) 8808888.

## New Student Orientation

New student orientation is held during the summer months and is designed to acquaint the new student with campus facilities and services and to give the individual student an opportunity to confer with University department advisors about an academic program. Registration for the Fall semester may be completed at this time and tuition and fees may be paid. Advance reservations for the Summer orientation sessions are required. Details of the program, including dates, cost and reservation form, are sent to new students with admission acceptance notices.

## Academic Advising

Academic advisement is available to all Lamar University students and is mandatory for the following students: 1) freshmen, ( 30 or fewer earned semester credit hours), 2) new transfer students, 3) TASP-restricted/Individual Approval students, 4) General Studies majors, 5) students on academic probation or, returning from academic suspension, and 6) students changing majors. Departments and colleges also may require advisement for their majors. All other students may choose not to receive formal advisement, but will be solely responsible for their scheduling and registration decisions.

College advising centers have been established to assist students in designing a program of study meeting the degree plan requirements of the department and guide the student in the proper sequence of courses. Faculty advisors also are assigned. It is the responsibility of the student to schedule regular appointments with the advisor. Appointments and other advising/counseling services may be facilitated through the college advising centers.

Advising sessions assure that a program of study is pursued in the proper sequence and proper academic progress is maintained by the student. College advising centers maintain degree plans for each academic major.

Students who have not declared a major field of study are advised in the Center for General Studies and Central Advising, Suite 200 Archer Physics Building, phone 8808907. Such students will be assisted with course selection and the completion of core curriculum requirements. In addition, students will be offered the opportunity to
explore various majors and careers through advising, guest speakers, faculty representatives, and related activities.

Students who are TASP-restricted and/or under the provisions of Individual Approval admission-with or without a declared major-are advised in the Office of Developmental Studies, 110 ROTC Building, phone 880-8954.

## University Advising Centers

## Suite 200 Archer Physics Building, Phone: 880-8907

All Lamar University students are encouraged to receive academic advisement prior to registration. The University provides several academic adviṣing centers to assist students with course selection and registration. The Center for General Studies and Central Advising provides assistance and guidance for students who have not selected a major and who are exploring various major field options. The Center also assists students with course selection and the completion of the core curriculum. Interaction with advisors and activities throughout the semester are designed to help students clarify their academic goals. Advising centers for students interested in business ( 120 Galloway Business Building, phone 880-8607) and engineering ( 2608 Cherry Building, Phone 880-8810) are available also. Students who are TASP restricted and/or subject to provisions of Individual Approval admissions are advised in the Office of Developmental Studies (110 ROTC Building, phone 880-8954).

## Advanced Placement

The two optional testing programs listed below are offered to enable first-time university students to qualify for advanced standing and/or college credit. These tests must be taken before enrollment. Applicants also may qualify for credit through the College Level Examination Program (CLEP).

1. Advanced Placement Examinations (Optional)

Applicants who wish to receive credit for college-level work completed in high school may do so by submitting scores from the College Entrance Examination Board's Advanced Placement Examinations. Examinations are given each May by high schools. Arrangements are made through high school counselors. Subject matter areas and the basis for granting credits are listed as follows:

Up to 12 semester hours depending on placement and validation.
Physics 1401 if validated by completion of Physics 1402 or 2426 with a grade of " C " or better.
3. College Level Examination Program (Optional)

Credit by examination also is available through the College Level Examination Program (CLEP). Details are in the Academic Regulations section.

## Admission Requirements for College Transfers

Students who have attended another college or university will be considered for admission to Lamar University under the requirements listed below. Former students of Lamar who attend another university other than during a summer term will also have to meet the following transfer admission requirements:

1. Submit application for admission.
2. Have an official copy of all college and/or university transcripts on file by application deadline.
3. Be eligible to re-enter all colleges and/or universities previously attended:
4. Have a cumulative grade point average of at least 2.0 on a 4.0 scale for all work attempted.
5. Students who transfer less than 18 hours must also submit and meet the entrance credentials and requirements of a first-time-in-college student.
6. Applicants not fully meeting all transfer requirements may be reviewed and considered for admission on an individual basis.

## How to Apply for Admission.

The following procedure should be followed in making application for admission. All credentials should be sent to the Office of Admissions, Lamar University, Box 10009, Beaumont, Texas 77710.

1. Submit application for admission on the official form.
2. Submit official transcripts from each college previously attended. This requirement applies regardless of the length of time in attendance and regardless of whether credit was earned or is desired. Students will not be allowed to register until all college transcripts are on file in the Admissions Office.
3. Students transferring fewer than 18 semester credit hours must take the SAT or ACT and/or have a record of these scores sent to the Office of Admissions.

## When to Apply

Application should be made a minimum of two or three months in advance of the proposed enrollment date. The application form should be submitted before transcripts are sent.

A temporary admission may be granted if the time between the end of a semester elsewhere and the beginning of a subsequent semester at Lamar is too short for the transcript(s) to be received before registration. All credentials must be on file at Lamar within one week after the first class day, or the student will be withdrawn from the University. Students on temporary admission status who are subsequently found to be ineligible for admission will be withdrawn.

Transfer applicants must submit official transcripts from all previously attended institutions. Students who are currently enrolled at another institution must also submit a supplemental transcript upon completion of the semester in progress at the time of their application to Lamar.

## Transfer Credit Evaluation

Credit earned at other accredited institutions will be considered for credit at Lamar University by the following policies:

1. All courses, whether passed, failed or repeated, are used in calculating a transfer grade point average. The tranśfer grade point average is used solely to determine admission status and is not incorporated into the Lamar. University grade point average.
NOTE: All grades, including transfer work, are used in determining honors graduation status.
2. "D" grades are transferable but departments may refuse to count them toward a degree.
3. Transfers from a junior college are limited to 66 semester hours or the number of hours required by the University during the freshman and sophomore years in the chronological order in which the student plans to enroll. No junior college credits will be considered for transfer as upper-level (junior-senior) credits.
4. Acceptance to the University does not constitute acceptance to a particular degree program.
5. . Transfer students will be informed of the amount of credit that will transfer no later than the end of the first academic term in which they are enrolled.

## Academic Fresh Start

Applicants seeking transfer admission and who have academic credits or grades that were earned ten or more years prior to the semester in which enrollment is sought, may elect to seek entry inder the terms of academic fresh start. Under this policy the applicant may petition Lamar University to not consider, in the admission process, course credits or grades earned ten years or prior. Applicants seeking entry under this section will not receive any credit for courses taken ten or more years prior to enrollment. Applicants applying under academic fresh start are subject to all standard admission and testing criteria applicable to persons seeking admission.

## Resolution of Transfer Disputes îor Lower-division Courses

A. The following procedures shall be followed in the resolution of credit transfer disputes involving lower-division courses:

1. If Lamar University does not accept course credit earned by a student at another institution of higher education, the University shall give written notice to the student and to the sending institution that transfer of the course credit is denied. The University shall also provide written notice of the reasons for denying credit for a particular course or set of course at the request of the sending institution.
2. A student who receives notice as specified in item (1) of this section may dispute the denial of credit by contacting a designated official at either the sending or the receiving institution.
3. The two institutions and the student shall attempt to resolve the transfer of the course credit in accordance with The Texas Higher Education Coordinatirig Board rules and guidelines.
4. If the transfer dispute is not resolved to the satisfaction of the student or the sending institution within 45 days after the date the student received written notice of denial, the institution that denies the course credit for transfer shall notify the Commissioner of its denial and the reasons for the denial.
B. The Commissioner of Higher Education or the Commissioner's designee shall
make the final determination about a dispute concerning the transfer of course credit and give written notice of the determination to the involved student and institutions:
C. The Board shall collect data on the types of transfer disputes that are reported and the disposition of each case that is considered by the Commissioner or the Commissioner's designee.
D. If a receiving institution has cause to believe that a course being presented by a student for transfer from another school is not of an acceptable level of quality, it should first contact the sending institution and attempt to resolve the problem. In the event that the two insitutions are unable to come to a satisfactory resolution, the receiving institution may notify the Commissioner of Higher Education, who may investigate the course. If its quality is found to be unacceptable, the Board may discontinue funding for the course.

## Former Students

Former Lamar students who have not been in attendance for one or more regular semesters must file for readmission by submitting the standard application for admission form. Students who left on suspension must receive written clearance from the Dean of that college to be eligible for readmission.

Former students who have attended another college are required to submit a complete record of all work done subsequent to the last date of attendance at Lamar University, and to meet the academic requirements for other transfer students outlined in this bulletin. The regular application for admission must be submitted.

## Summer Transients

Students in attendance at another college during the Spring semester who wish to do summer work only at Lamar University may be admitted as transient students. A student applying for admission under this classification is required to submit only the regular application for admission. Academic transcripts are not required unless specifically requested in individual cases. However, transient students must comply with state TASP requirements and must provide TASP scores, evidence of TASP exemption, or proof of Spring semester registration at another university. Transient students who later apply for regular long-term admission must meet all entrance requirements and supply all necessary admission credentials. International students may not be admitted as transients.

## Educational Records and Student Rights

The following information concerning student records maintained by Lamar University is published in compliance with the Family Education Rights and Privacy Act of 1974 (PL 93-380).

Access to educational records directly related to a student will be granted to him or her unless the type of record is exempt from the provision of the law.

The types, locations and names of custodians of educational records maintained by the University are available from the Dean of Records and Registrar.

Access to records by persons other than the student will be limited to those persons and agencies specified in the statute. Records will be maintained of persons granted such access and the legitimate interest in each case.

The release of information to the public without the consent of the student will be limited to the categories of information which have been designated by the University as directory information and which will be routinely released. The student may request any or all of this information be withheld from the public by making written request to the Records Office. The request must be made by the last official day to register for a given session and applies to that session only. Directory information includes name, current and permanent address, telephone listing, date and place of birth, major and minor, semester hour load, classification, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, with dates, and the last educational agency or institution attended.

A student has the right to challenge records and information directly related to him - or her if it is considered to be inaccurate, misleading or otherwise inappropriate. Issues may be resolved either through an informal hearing with the official immediately responsible or by requesting a formal hearing. The procedure to be followed in a.formal hearing is available in the Office of Records.

The right of parental access to student records may be established by either of two methods: first, by the student filing a written consent statement and, second, by the parent validating the student's dependency as defined by the Internal Revenue Service.

## International Students

International students are entitled to all student services and programs for which they are eligible according to law and University definition. The University reserves the right to establish policies for selected groups of students if the policies are in the student's and the institution's best interest. Applicants will be carefully screened for academic excellence, English proficiency; adequate health and financial self-sufficiency.

Internationals are encouraged and expected to participate in student activities and organizational programs - so as to experience more fully the culture and lifestyles of Southeast Texas. It is the student's responsibility to integrate himself/herself into the campus environment; however, the University provides an atmosphere conducive to acceptance of internationals and affords them every opportunity to succeed.

Since the presence of international students also entails responsibility for the University in meeting certain distinctive needs, it is imperative that adequate provision be made for doing so. The University recognizes this responsibility by setting entrance and exit standards for its non-native English speakers that take into account the minimum language skills necessary for success in actademic work as well as the minimum standards that a diploma from the University represents.

In order for the international students to achieve their educational objectives, certain academic services are essential; the University provides facilities and staff commensurate with those needs.

Moreover, the University recognizes that English language proficiency, and not citizenship or immigration status alone, is a key criterion in determining and meeting the needs of students for whom English is a second language.

## International Student Admission

Applicants who attended foreign secondary schools, colleges or universities must furnish certified translations of their academic records. These records must show the ability to do above-average work in an academic program. Freshman admission will be
based on the completion of 12 years of schooling, a requirement that the student be 18 years of age and eligible for admission to a recognized university in the student's own country. Marks or grades must be well above average. Advanced standing credit will be granted for post-secondary work completed at a recognized college or university if marks are above average. A complete record of secondary school training and university training must be submitted. Complete and official translations must be furnished along with certified true copies of the original records. Records must show all subjects taken and grades or marks earned in each, both from the school and tests given by the Ministry of Education. The grading system should be clearly shown on each record. UNCERTIFIED PHOTOGRAPHIC COPIES OR OTHER DUPLICATIONS ARE NOT ACCEPTABLE. Translations must be certified true and correct. Applicants applying as freshmen (first-year students) should submit acceptable scores on the Scholastic Aptitude Test (SAT). Scores of 500 or above on the Test of English as a Foreign Language (TOEFL) are required. SAT scores may be waived for students who have completed a post-secondary academic degree with above average grades.

All foreign students who have not completed successfully a minimum of three college hours prior to Fall, 1989, must complete the State-mandated Texas Academic Skills Program (TASP) Test. Registration forms for testing are available in the Lamar University Assessment, Advising and Research Center in the Wimberly Building.

International students who plan to transfer to Lamar University from another college 'or university in the United States must have completed at least two regular semesters with at least 30 semester hours of transferable work. An average of " C " (2.0) on all work attempted is required. English proficiency must be demonstrated by submitting scores of 500 or better on the TOEFL. Applicants may be required to submit recommendations from teachers or foreign student advisors. The usual transfer standards apply except that tests may be required if unconditional eligibility is not established. Students should be aware that certain departments may require higher academic proficiency for admission to their program.

International students must present proof of sufficient financial resources to meet the cost of attending Lamar University. Internationals also must present proof of adequate health insurance. Internationals who plan to drive an automobile in the State of Texas must have liability insurance.

Information on the SAT and TOEFL may be obtained by writing to the College Entrance Examination Board, Box 595, Princeton, New Jersey 08540, U.S.A. Scores must be received directly from the testing service. Photocopies or student copies of test scores will not be accepted.

Application forms, test scores, financial statement and complete educational records must be on file by the dates indicated: May 15 for Fall Semester; October 1 for Spring Semester; and February 15 for Summer Sessions.

Special application forms and details on the procedure to follow in making application for admission to Lamar University may be secured by writing to the Office of Admissions.

Applicants accepted by Lamar University are required to attend a special orientation program for internationals new to the Lamar campus. Dates for the program will be indicated upon acceptance and noted on form I-20, "date of arrival." Failure to attend
the program will delay registration for one semester. The program is designed to facilitate a smooth adjustment to the Lamar campus. Students whose native language is not English will be tested for English language proficiency. On the basis of these test scores, appropriate courses in English will be required.

## Early Admission Programs

Early admission is possible at Lamar University for the academically superior student. Specific early admission programs link the University and high schools to provide college credit opportunities for high school students. These programs offer qualified high school students the opportunity to enroll in college courses during their junior and senior years. Lamar has four methods of early admission:

- Pre-College Enrollment
- On-Site Instruction
- Lamar Early Access Program (LEAP)
- Texas Academy for Leadership in the Humanities.

## Pre-College Honors Enrollment

Pre-College Honors enrollment allows high school students to take university courses while still enrolled in high school. Students may attend on-campus day or evening classes, off-campus classes, interactive video classes and/or telecourses. The credit earned can be applied to degree programs at Lamar or transferred to other colleges and universities. Students may enroll for one or both summer sessions, and may also take courses during the Fall and Spring semesters with approval from the high school. High school students seeking entry through the Pre-College Honors program must have an SAT score of 1070 or higher with minimum math and English scores of 500 or a composite ACT score of 23 with math and English scores no less than 19.

Studerit seeking early admission must meet the following two critieria:

The selection of courses is determined on the basis of the student's high school background, the recommendation of the high school counselor, and assessment of the Lamar University academic advisor. These classes generate college credit. Any use of these credits toward high school graduation is at the discretion of the high school and must be approved by the high school prior to enrollment at Lamar.

## On-Site Instruction

Lamar University offers dual credit courses through Distance Learning. Interactive videoconferencing allows accelerated high school students to earn both high school and college credit while attending daytime classes on their high school campus. Instruction is simultaneously linked with a University faculty member and classroom on the University campus. Based on the high school's need and student interest, Lamar University can also provide a faculty member for on-site instruction. To inquire or make arrangements for either of these instructional methods, please contact the Center for Adult Studies, Division of Continuing Education at (409) 880-8431. Student's entrance requirements are the same as for the Lamar Early Access Program.

## Lamar Early Access Program (LEAP)

Thé Lamar University Early Access Program is a cooperative venture between Lamar and participating high schools allowing high school juniors and seniors to take university courses taught by their high school teachers in their own schools. The high school teacher must hold a master's degree in the teaching discipline or a master's degree with 18 graduate hours in the teaching discipline. To establish LEAP, the high school principal should contact the Division of Continuing Education. Students applying for LEAP classes must meet the minimum admission requirements specified in criteria 1 and 2 listed under the Pre-College Honors section above.

## Texas Academic Skills Program (TASP) Test

The Texas Academic Skills Program (TASP) is required by Texas law to ensure that students enrolled in Texas public colleges possess the academic skills needed to perform effectively in college-level coursework. TASP includes a testing component designed to identify and provide diagnostic information about the reading, mathematics and writing skills of each student.

All students subject to the TASP requirement must take the State TASP test. This test must be taken and scores received before advising and registration.

A student is exempt from the TASP test only if he or she has

1. Earned at least three college-level credit hours prior to September 1989.
2. An ACT composite score of 23 or higher with individual math and English scores of no less than 19. Scores can be not more than five years old. and must be taken at one sitting.
3. An SAT composite score of 1070 or higher with individual math and English scores of no less than 500 (re-centered scale for tests taken April 1995 and thereafter); or for tests taken prior to April 1995, a combined verbal and math score of 970 with a minimum of 420 on the verbal test and 470 on the mathematics test. Scores can be not more than five years old and must be taken at one sitting.
4. A TAAS (Texas Assessment of Academic Skills) minimum scale score of 1770 on the reading, mathematics and writing tests, or, for tests taken spring 1994 and thereafter, a Texas Learning Index (TLI) of 86 on the mathematics test and 89 on the reading test. Scores can be not more than three years old and students must obtain scores high enough to warrant an exemption on their first attempt of the TAAS, not on repeated attempts.
5. A graduate with a baccalaureate degree from an institution of higher education, an accredited private or independent institution of higher education, or an accredited out-of-state institution of higher education.
6. Students 55 years of age or older.

Otherwise, all full-time and part-time students (including transfers from private or out of state institutions) enrolled in a college-level certificate or degree program must take the TASP test for reading, writing and mathematical skills.

If, after taking the TASP test, skill deficiencies in reading, mathematics or writing are present, the student is required, by state law, to participate in a developmental program in the area of deficiency.

Students who fail to take the TASP test will not be permitted to enroll in any other Texas public higher education institution in any courses other than noncredit or precollegiate courses until they have taken the TASP test. Pre-collegiate courses, such as remedial reading, writing and mathematics, are not counted in calculating the credit hours for meeting the testing requirements.

For information on who must take the TASP examination, the best time to take the TASP examination and to obtain a copy of the TASP Registration. Bulletin and the official TASP Study Guide, contact the Office of Developmental Studies, 110 ROTC Building.

For further information on TASP requirements and the developmental programs, see pages 56 and 57 of this catalog.

## Financial Aid and Awards

Financial assistance in the form of scholarships, grants, loans and employment is available to a number of qualified students. Information regarding programs, policies, rules, regulations, consumer information and eligibility criteria can be obtained from the Student Financial Aid Office, P.O. Box 10042, Beaumont, Texas 77710 or from the Scholarship Office, P.O. Box 10009, Beaumont, Texas 77710. .

## When to Apply

Applications for need-based financial assistance should be completed by April 1 for the following academic year. Notification of awards will be mailed in late spring and early summer. The University will continue to award student aid as long as funds are available. The most desirable types of aid, however, are normally expended early. Therefore, students should make every effort to meet the April 1 deadline:

## How to Apply

## Scholarships

Students wishing to be considered for scholarships only should request and complete the Lamar University Academic Scholarship Application. Academic transcripts must be submitted with the application. Beginning freshman applicants should arrange to have SAT or ACT test scores on file with the Lamar University Admissions Office. Scholarship funds are limited and recipients normally must have a grade point average in excess of 3.50 to be considered. Students are encouraged to contact their major department in order to secure application information for scholarships, which may be offered directly through the department.

Applications for scholarships should be completed by February 1 for the following year. Completed applications should be forwarded to the Scholarship Office, P.O. Box 10009, Beaumont, Texas 77710 or to Room 203 Wimberly Building.

## Grants, Loans, College-Work Study

All students applying for need-based aid must complete and file the Lamar University Financial Aid Supplement and the Free Application for Federal Student Aid (FAFSA): The FAFSA is filed with the College Scholarship Service and is used to determine financial need. Because the processing of this form requires between three and four weeks, students planning to meet the April 1 deadline should file by March 1. Students who have attended other post-sécondary institutions (including those from Lamar UniversityPort Arthur and Lamar University-Orange) must submit financial aid transcripts from all previously attended institutions before financial aid can be awarded.

Freshmen may obtain required forms from their high school counselors or directly from the Student Financial Aid Office, P.O. Box 10042, Beaumont, TX 77710. Students currently enrolled at Lamar may obtain forms from the Student Financial Aid Office, Wimberly Student Services Building. Students must reapply each year for consideration for continued assistance.

After the application is complete, the Student Financial Aid Office will consider the , student's academic progress as well as documented financial need. The amount and type of assistance will be determined and the applicant will be notified by mail.

## Minimum Qualifications

Scholarship awards to entering freshmen are determined by applicants' high school academic record, scores on the Scholastic Aptitude Test (SAT) or American College Testing Program (ACT), leadership and high school class rank. Scholarship awards for upper-class students are determined by their cumulative grade point average as well as displayed leadership abilities.

Those applying for need-based grants, loans or work-study employment must have their eligibility established by the FAFSA. In order to be eligible for federal educational assistance, the student must:
a. Be a U.S. citizen or permanent resident of the United'States;
b. Possess a high school diploma from an accredited high school;

Note: Home school students must have passing ACT or GED.
c. Be admitted to Lamar University; and
d. In the case of continuing students, meet reasonable academic progress standards.
Reasonable Academic Progress-Students receiving aid for the first time after July 1 , 1987 must maintain a 2.00 cumulative Grade Point Average. Students must also complete $80 \%$ of the hours they attempt and earn their first degree within 150 earned hours. Students who feel that extenuating circumstances prevented them from achieving the academic progress standard may address a written appeal to the Director of Financial Aid.

## Grants

The Pell Grant is the foundation source for all other need-based aid programs. No other need-based assistance (grants, loans, work-study) can be awarded until the student's eligibility for the Pell Grant is determined. The filing of the FAFSA should cause the Student Aid Report to be sent to the student's address and an electronic record will be sent to the school(s) listed on the FAFSA.

## Scholarships

## Policy Regarding Competitive Scholarships

Competitive scholarships are awarded under the authority of the Lamar University Scholarship Committee, or other University committees specifically authorized by the Lamar University administration to commit scholarship funds. Students applying for academic scholarships administered through the university should complete the Lamar University Scholarship Application. Students seeking scholarships on the basis of specialized skills should contact faculty or staff in the specific area of interest.

## Selection Factors

Scholarships offered through the Lamar University Scholarship Committee are awarded on a competitive basis. The application process is open to all potential and current students. Scholarships may be awarded to graduating high school seniors, transfer students, or currently enrolled Lamar University Students. Factors indicating academic achievement used in determining recipients of competitive scholarships include: 1) class ranking and/or grade point averages; 2) standardized test scores such as SAT, ACT, or

GRE; 3) previous high school and/or college academic transcripts; 4) academic awards, honors, or achievements; and 5) academic major. Displayed leadership abilities and participation in extra curricular activities are used as secondary factors.

Competitive scholarships are also awarded on the evidence of specific skills. Specialized skill-based scholarships are competitively awarded to applicants having demonstrated abilities and prior successful participation in such areas as music, writing, art, dance, or athletics. Factors in the awarding of competitive skill-based scholarships include evaluation by faculty and/or staff in each specific area. Evaluations may include but are not limited to video, film, audio-tape, auditions, student submitted works, or personal observations.

McMaster Honors Program scholarships of up to $\$ 10,000$ each are available. Students may contact the director of the program (see page 69) for details.

## Waiver of Non-Resident Fees

Certain students receiving competitive academic scholarships may be exempt from the payment of nonresident tuition rates. To be eligible for this waiver the scholarship must meet all institutional requirements of competitive awards and comply with all rules governing tuition rates and waivers as established by the State of Texas.

## Loans

Lamar University provides both short-term and long-term loans. Short-term loans for 30 to 60 days are designed to cover emergency situations and must be repaid within the semester in which the loan is made. Long-term loans with repayment after graduation. may be obtained under such programs as the Stafford Student Loan Program (formerly GSL), the Perkins Loan Program, the Hinson-Hazelwood College Student Loan Act, and Parent Loans for Undergraduate Students (PLUS). Those interested in one of these loan programs should contact the Student Financial Aid Office for information and application forms.

## Employment

Employment opportunities under the Federal College Work-Study Program and other employment programs of the University are available to Lamar students as part of the financial assistance program. The University, local businesses and industries provide a number of part-time jobs that enable students to earn part or all of their expenses while attending the University.

## Valedictorians

Valedictorians from accredited high schools of Texas are entitled to an exemption from payment of tuition and laboratory fees for the two regular semesters immediately following graduation. Other fees are not exempt. Upon registration, valedictorians should submit the "Highest Ranking Graduate Certificate" to the Student Financial Aid Office so that the appropriate fee adjustment can be made.

## Students with Physical Handicaps (Vocational Rehabilitation)

The Texas Rehabilitation Commission offers assistance for tuition and non-refundable fees to students who have certain disabling conditions, provided their vocational objectives have been approved by a TRC counselor. Examples of such conditions are orthope-
dic deformities, emotional disorders, diabetes, epilepsy, heart conditions, etc. Other services also are available to assist the handicapped student to become employable. Application for such service should be made at the Texas Rehabilitation Commission, Beaumont Distrịct Office, 5550 Eastex Freeway, Beaumont, Texas 77701 (409/898-3988).

## Multiple Campus Enrollment

Students enrolling simultaneously at two or more of the Lamar University components must choose to receive their financial aid from only one campus and declare this institution as their degree-granting institution. The appropriate form' (Consortium Agreement) is available from the campus granting the financial aid and must be filed each year the student is enrolled on multiple campuses. Students attending other components of Lamar University will be required to submit financial aid transcripts to the institution awarding their financial aid.

## Release of Records

All records (applications and need analysis documents) submitted by a third party become the property of Lamar University and cannot be released to another institution or the student. Prior to processing, items submitted by the student may be returned upon the student's written request. Parental income tax information may be returned upon written request of the parent. A minimum of five days may be required to complete the return of the requested items. Once the application has been processed, all items must be maintained for audit purposes and cannot be released.

## Financial Aid Transcripts

Financial Aid Transcripts are available by contacting the Office of Student Financial Aid, P.O. Box 10042, Lamar University Station, Beaumont Texas, 77710.

## Tuition Rebates for Certain Undergraduates

Certain students entering higher education for the first time in fall 1997 or later may be eligible for a $\$ 1,000$ tuition rebate. Specific details of this program are available in the Offices of Academic Services of the Registrar: To be eligible to apply for this rebate, students must meet all of the following conditions:

1. Enroll in higher education for the first time in the fall of 1977 or later.
2. Work toward a first baccalaureate-degree.
3. Attempt all courses at a Texas state institution and have been entitled to pay resident tuition rates at all times of enrollment.
4. Attempt no more than three hours in excess of the minimum number of semester credit hours to complete the degree under the Lamar University General Catalog from which they graduated. Hours attempted include transfer credits, course credit earned by examination, courses dropped after the official census date, for-credit developmental courses, optional internship and cooperative education courses, and repeated courses.
5. Apply to the Office of the Registrar during the semester in which the student applies for graduation.

## Refunds

For those students withdrawing from the University and who are receiving or have received financial assistance (grants, loans, scholarships), all or a portion of the refund
will be returned to the appropriate financial aid source. Recipients in attendance at Lamar University for the first time and who withdraw prior to the $60 \%$ point in the semester will have refunds calculated according to the Pro-Rata Refund Schedule listed below: All other applicable refunds will be calculated according to the Refund Policy as outlined in the Fees and Expenses section of this catalog.

## Pro-Rata Refund Schedule

Fall or Spring Semester

1. Prior to first class day, $100 \%$
2. During the first week, $90 \%$

## Policy Regarding Referrals of Suspected Fraud or Criminal Misconduct

In the event that an applicant is suspected of participating in fraud or other criminal misconduct in connection with the application for Title IV, HEA program assistance, the information will be referred to the appropriate university, state, and/or federal authorities. These authorities may include, but are not limited to, the following: University Discipline Officer, University Policy, Beaumont Police and the Office of the Inspector General of the U.S. Department of Education.

## Fees and Expenses

Lamar University reserves the right to change fees in keeping with acts of the Texas Legislature and the University's Board of Regents. By registering for classes at the University, the student agrees to abide by all the policies of the University.

## Payment of Fees

A student is not registered until all fees have been paid in full or the student has paid the equivalent of a down payment on the installment plan (if available). Payment may be made by check, Mastercard/Visa/Discover/AMEX, money order, currency or any kind of financial aid (exemptions, loans, grants and scholarships). Checks and money orders should be made payable to Lamar University and will be accepted subject to final payment. The University will not accept counter checks, postdated checks, credit card checks or altered checks. Excess payments will be refunded either in cash or check at the discretion of the University. Students on a "cash only" basis will be restricted to paying by MasterCard/Visa/Discover/AMEX, money. orders, currency or financial aid. Payments can be made:
(1) All forms of payment at the Cashier's office during working hours.
(2) Credit card payments can be made by phone by calling 839-2000.
(3) Payments may be made on the Internet at WWW,LAMAR.EDU.
(4) Drop box at Plummer 116 for check (with social security number and campus) in a sealed envelope. These payments will be considered part of the next business day's activity if paid after 7:00 a. m. No cash will be accepted.
(5) Drop box at Wimberly 114 for check (with social security number and campus) in a sealed envelope. These payments will be considered part of the next business day's activity if paid after $5: 00 \mathrm{p} . \mathrm{m}$. No cash will be accepted.
(6) Mailed to the Payment Center at P.O. Box 54441, New Orleans, LA 70154-4441.
(7) At Lamar State College-Port Arthur and Lamar State College-Orange, all payments except credit card can be made during regular hours at the cashier offices.
Students who are delinquent on obligations will be prohibited from registering for class until all obligations are paid in full. Also, holds are placed on academic records so that students cannot obtain transcripts until all obligations are paid in full.

Delinquent obligations to the University will be sent to a collection agency (1-800-933-9272) and reported to credit bureaus. All costs of collections are paid by the student which is generally an additional $33.333 \%$ of the student's obligations to the University. Delinquent accounts must be paid at the collection agency. Payment cannot be accepted by Lamar if the account has been forwarded to a collection agency.

## Installment Payment Program

Students may enter into the installment program of the University upon verbal or written request in a Fall or Spring semester. Students who do not pay in full the tuition and fees will be placed in the installment program if the student has paid at least the amount of the down payment (otherwise classes will be dropped). The installment program generally requires a $50 \%$ downpayment with the next $25 \%$ due about a month after the semester starts and the final $25 \%$ due about two months after the semester starts. A non-refundable service charge of $\$ 20$ is assessed for the installment program.

A late fee of $\$ 15$ will be assessed beginning the first day after an installment due date for each delinquent installment payment. Reductions of fees for students in the installment program from drops or withdrawals are calculated as a percentage of the total fees assessed, not as a percentage of any partial payments.

## Summary of Registration Expenses

Each student must plan a budget carefully. To assist in planning registration expenses, the following estimate is furnished as a guide. (For information on University housing fees, see p. 73 of this catalog.)

## Tuition

Tuition has two components to it: the portion set by the State (conventional tuition) and the portion set by the Board of Regents regulated by State statutes (local tuition). By State statute, both of these items must be billed together and called "tuition." The State portion (conventional tuition) is based upon the number of hours for which the student registers and is determined by the student's classification as a Texas resident or a non-Texas resident. The Admissions Office determines legal residence for tuition purposes on the basis of statutes of the State of Texas. State tuition is remitted to the State by the University. The current state tuition rate is $\$ 38$ per hour with a minimum $\$ 120$ ( $\$ 60$ for Summer sessions), moving to $\$ 40$ per hour in Fall 2000 and increasing by $\$ 2$ per hour every Fall thereafter. The local tuition portion is assessed to support University debt service and other University functions that are not supported by state funding. Approximately $70 \%$ of this fee is used to finance debt service. Other items supported by this fee include the post office, print shop, supply center, cashiering, and other institutional support functions. The current rate is $\$ 24$ per hour, moving to $\$ 26$ per hour in Fall 2000 and increasing by $\$ 2$ per hour every Fall thereafter. Combined, the current rate is $\$ 64$ per hour with a minimum of $\$ 144$ ( $\$ 82$ for Summer sessions), moving to $\$ 66$ per hour in Fall 2000 and increasing by $\$ 4$ per hour every Fall thereafter.

## Tuition for Undergraduate Students with Excessive Credit Hours

In accordance with Senate Bill 345 (1999), Section 61.0595* of the Education Code was amended to address tuition for excessive credit hours of undergraduate students. Lamar University will not receive state funding for credit hours earned by a resident undergraduate student beyond the number required by the degree program plus 45 hours. If a resident undergraduate student earns credit hours that exceed by at least 45 hours the number of credit hours required by a degree program, Lamar will not receive state funding for those hours. Lamar will, therefore, charge the student the rate charged non-resident students. (e.g., a degree program requires 120 semester credit hours, but a resident undergraduate student enrolls in 166 credit hours. The student is charged resident rate for 120 plus 45 hours, totaling 165, but the student is charged the non-resident rate for any hours exceeding 165.)

An undergraduate student who is not enrolled in a degree program is considered to be enrolled in a degree program requiring a minimum of 120 semester credit hours. This law does not apply to a student enrolled in: 1) two or more baccalaureate degree programs at the same time, 2) a double major degree program that requires 130 or more semester credits for completion, or 3) a health professional baccalaureate degree program.

The following credits are not counted for purposes of determining whether the student has previously earned the number of semester credit hours specified above: 1) semester credit hours earned by the student before receiving a baccalaureate degree that has been previously awarded to the student, 2) semester credit hours earned by the student by examination or under any other procedure by which credit is earned without registering for a course for which tuition is charged, 3) credit for a remedial education courses, a technical course, a work-force education course funded according to contact hours, or another course that does not count toward a degree program a the institution, or 4) semester credit hours earned by the student at a private institution or an out-ofstate institution.

These provisions do not affect any students who initially enrolled as an undergraduate student in any institution of higher education before the fall 1999 semester. For additional information, contact the Office of the Vice President for Finance and Operations.

## Student Service Fee

The student service fee supports student activities such as athletics, recreational sports, the University Press and other student services. The current rate is $\$ 15$ per hour with a maximum of $\$ 138$.

## Sètzer Student Center Fee

This fee supports the Setzer Student Center and its programs. The current-rate is \$30 per long semester and $\$ 15$ per summer session.

## Course Fees

Various courses have additional fees associated with them. Students should always check with the departments offering the class to see if additional fees will be assessed. The following is a summary of some fees associated with some classes.

## Computer Use Fee

This fee primarily supports both the administrative mainframe computer and the academic mainframe computer. The current rate is $\$ 3$ per hour with a maximum of $\$ 30$.

## Health Center Fee

The Health Center Fee supports the student Health Center and is $\$ 30$ per long semester and $\$ 15$ per summer session.

## Library Use Fee

This fee is used to support the library. As every course (including field center courses) is given the mandate to use the library, all students are charged this fee. The current rate is $\$ 3$ per hour with a maximum of $\$ 30$.

## Distance Learning Fee

A charge up to $\$ 50,00$ per semester credit hour of instruction will be charged to students enrolled in courses offered by means of distance learning.

## Late Registration Fee

A charge of $\$ 10$ is made for late registration or for paying after the start of the semester (not including the second or third payments under the installment plan).

## Reinstatement Fee

A student seeking reinstatement to the university after withdrawing from the university without paying the full amount of tuition and fees due, or after having been denied credit for work done for failure to pay an installment payment or late payment fee, shall pay a $\$ 50.00$ reinstatement fee in addition to past due installment payments and late payment fees.

## Parking Fee

Charges for parking on campus are made at registration. Automobile registration fees are as follows: Fall semester, \$32; Spring semester, \$22; Summer, \$12. Only one registration is required during an academic year, and a student's parking fee is honored until the end of Summer Session II.

## Property Deposit

Each student will be required to pay a one-time $\$ 10$ property deposit. Any unused portion of the- $\$ 10$ will be refunded upon written request to the Cashiers' Office after the student graduates or withdraws from the University. If a student attends the university for more than four years, this fee will be charged again.

## Health and Accident Insurance

Health and accident insurance coverage is available for purchase at registration for students carrying nine or more semester hours. This or similar insurance is required of all international students. Additional information may be obtained from the Student Affairs Office.

## Special Fees

Fees will be set by the University for courses in which special plans and/or field trips must be prepared and specialists secured as instructors. Students who feel they may be exempt from some fees should contact the Student Aid Office: For example:
Exemption 1: Scholarships to High School Honor Graduates
The highest ranking student in the graduating class of a fully accredited Texas high school will be entitled to a tuition and laboratory fee waiver valued at approximately $\$ 200$. Details may be obtained from the Student Aid Office.

## Exemption 2: Veterans (Hazelwood)

Persons who were citizens of Texas at the time of entry into the Armed Forces and who are no longer eligible for federal educational benefits, are exempt from tuition, laboratory fees, Setzer Student Center fees, general use fee and computer use fee. This applies to those who served in World War I, World War II, the Korean Conflict, the Vietnam War or Desert Storm and were honorably discharged. This exemption also applies to those veterans who entered service after Jan. 1, 1977, and did not contribute under the VEAP program. To obtain this exemption, necessary papers must be presented prior to 'registration and approval obtained from the Office of Veterans' Affairs. The above exemption also extends to wives, children and dependents of members of the Armed Forces who were killed in action or died while in the service in World War II, the Korean Conflict or Vietnam War.

Students who have been out of the service more than 10 years need to provide a copy of their separation papers (DD214). Students separated for a period of less than
ten years must also provide a letter from the Veterans Administration stating that the student has no remaining eligibility.

Students who expect to attend under some veterans' benefit plan should contact the Office of Veterans' Affairs 60 to 90 days prior to registration. The Office of Veterans' Affairs advises veterans on program and training opportunities, academic assistance and counseling. Veterans interested in information in these areas should visit this office in the Wimberly Student. Services Building.

## Policy on Waiving Fees

## Off-Campus Classes

Students taking field center classes will not be required to pay Setzer Center fees. All other fees are required by either Board of Regents or State statute and cannot be waived. Field center courses have an additional $\$ 20$ fee to compensate for the additional expenses of these classes (rent of facilities, transportation of personnel and materials, additional record keeping, etc.).

## Multi-Campus Students

Students taking classes on more than one Lamar campus (Lamar-Beaumont, LamarOrange, Lamar-Port Arthur, Lamar-Institute of Technology) may be entitled to a reduction of fees. The basis for the reduction would be so as not to exceed fee maximums for specific fees. The Cashiers' Office should be contacted for information regarding multicampus adjustments or to ensure an adjustment is made.

## Refund of Tuition and/or Fees

Students requesting a refund of tuition and/or fees resulting from dropped courses or from withdrawing from the University should direct questions to the Cashiers' Office. Refunds are calculated as a percentage of total fees assessed, not as a percentage of partial payments on installments. Refunds for dropped classes are generally processed at the end of the second week past the 12th semester day of regular semesters and after the 4th semester day during summer sessions. Refunds for withdrawals are generally processed at the end of the second week following the 12th semester day for regular semesters and two weeks after the 6th semester day for summer sessions.

## Dropped Courses

In order to receive a $100 \%$ reduction of tuition and fées for dropped courses, a student must drop according to the schedule below, and remain enrolled in some hours with the University. Questions should be directed to the Cashier's Office.

## Fall or Spring Semester

1. Through the twelfth semester day, 100 percent.
2. After the twelfth semester day, no refund.

## Summer Session

1. Through the fourth semester day, $\mathbf{1 0 0}$ percent.'
2. After the fourth semester day, no refund.

## Withdrawal from the University

Tuition and fees may be reduced when a student withdraws. Depending on the amount of reduction and what the student has paid, the student may receive a refund or may still owe money to the University. Any student who officially withdraws from the University will receive a reduction on tuition and fees according to the following schedule:

## Fall or Spring Semester

1. Prior to the first semester day, 100 percent.
2. During the first through fifth semester days, 80 percent.
3. During the sixth through tenth semester days, 70 percent.
4. During the eleventh through fifteenth semester days, 50 percent:
5. During the sixteenth through twentieth semester days, 25 percent.
6. After the twentieth semester day, none.

## Summer Session

1. Prior to the first semester day, 100 percent.
2. During the first, second or third semester day, 80 percent.
3. During the fourth, fifth or sixth semester day, 50 percent.
4. Seventh semester day and after, none.

The $\$ 10$ Property Deposit is refundable upon written request by the student to the Cashiers' Office.

Withdrawing from the University does not relieve the student of any financial obligations under the Installment Payment Program or for any student loans as these are the student's legal financial commitments.

No reduction on student services fee or library fee is made unless the I.D. card is returned. No reduction on parking fee is made unless the permit is returned. Photo I.D. Services will replace the ID card when the student returns to the University and is paid in full for the semester. Questions should be directed to the Cashier's Office.

## Insufficient Funds Checks

Checks written to the University and returned unpaid for any reason will result in a $\$ 25$ charge plus applicable fees for a delinquent account (e. g. $\$ 10$ late registration fee, $\$ 15$ late installment payment fee, etc.). Students with a returned check will be on "cash only" status for the duration of their enrollment at Lamar, subject to appeal. Students on a "cash only" basis are prohibited from paying with a personal check (all other payment methods are acceptable).

## Matriculation Fee

A matriculation fee of $\$ 15$ will be incurred by students who withdraw prior to the first day of class. This $\$ 15$ fee will be deducted from refunds.

## Miscellaneous Fees

Transcript Fee .....  $\$ 5.00$
Advanced Standing Examination (per course) ..... 25.00
Photo Identification .....  5.00
Lost Photo I.D. ..... 5.00
Parking Tickets ..... 10-70

Other departments have programs or services available to students. Questions regarding these services or programs should be directed to the corresponding departments.

## Fine and Breakage Loss

Library fines, charges for breakage or loss of equipment or other charges must be' paid before a transcript of credit or a permit to re-enter the University will be issued: The University reserves the right to make a special assessment against any student guilty of inexcusable breakage, loss of instructional equipment or other University property.

## Determining Residence Status

Texas law specifies that if there is any question as to the student's right to classification as a resident of Texas, it is the student's responsibility to (1) have his or her classification officially determined and (2) to register under the proper classification. Students are classified as resident, nonresident, or foreign for tuition purposes according to state statutes (Title 3, Texas Education Code) and Texas Higher Education Coordinating Board rules and regulations interpreting these statutes. These statutes, rules and regulations are available from the Office of Admissions Services in the Wimberly Student Services Building. Questions should be directed to that office.

## Academic Policies and Procedures

## Course Numbering

Lamar University converted to the Texas Common Course Number (TCCN) prefixes and numbers in the fall semester of 1998. A crosswalk from previous numbers to the TCCN number is Appendix A. The TCCN is primarily for freshman and sophomore courses; however, the prefix has been continued through all levels.

Each course has an alphanumeric code (e.g., ENGL 1301). The alpha portion is an abbreviation of the subject area, while the numeric portion provides specific information about the course. The first digit of the numeric portion indicates the level of the course ( $1=$ freshman level, $2=$ sophomore level, $3=$ junior level, $4=$ senior level, and 5 and $6=$ graduate level). The second digit indicates the number of semester credit hours earned by satisfactorily completing the course. The third digit is a sequencing number, or if it is a 7, the third digit indicates the course is not in the TCCN. The fourth digit is a sequencing number.

In this bulletin, three digits separated by colons such as (3:3:1) will follow each course title. This code provides the following information: the first number is the semester hours of credit for the course; the second number is the class hours of lecture, recitation or seminar meetings per week; and, the third number is the required laboratory hours per week. The letter "A" indicates that the hours are "Arranged," usually with the instructor of the course.

## New Courses

In order to meet changing educational requirements, the University reserves the right to add any needed courses at any time without regard to the listing of such courses in the catalog. These courses will appear in the next catalog. The right to change numbers in order to indicate changes in semester hours also is reserved for the reasons above.

## Semester Hour

The unit of measure for credit purposes is the semester hour. One hour of recitation (or equivalent in laboratory work) each week usually is equal to one semester credit hour. For each classroom hour, two hours of study are expected. Two or more hours of laboratory work are counted as the equivalent of one lecture hour. For laboratory work, which requires reports to be written outside of class, two clock hours are usually counted as one semester credit hour. Twelve semester hours is the minimum full-time load (nine for graduate students) in Fall and Spring semesters, four semester hours in each Summer term.

## Maximum Course Loads

The normal course load in a regular semester is $\mathbf{1 5 - 1 8}$ semester hours; for a six-week summer term, 6-8 semester hours. Overloads must be approved by the student's academic dean. No student will be allowed to enroll for more than 21 semester hours in a regular term or nine semester hours in a summer term.

## Registration for Classes

Students will be permitted to attend class only when the instructor has received evidence of proper registration. Registration dates and deadlines are listed in the official University calendar. Students may add courses, make section changes or drop courses only within the period specified in the calendar. The Records Office prepares a schedule of classes well in advance of a given semester.

## Minimum Class Enrollment

The University reserves the right not to offer any course listed in this catalog if fewer than 10 students register for the course.

## Course Auditing by Senior Citizens

Senior citizens, 65 years of age or older, may audit courses without the payment of fees on a space-available basis. For further information, call 880-8437.

## Class Attendance

Regular class attendance is important to the attainment of the educational objectives of the University. Especially in lower division courses and in large classes at any level, the instructor should keep attendance records and should formulate an attendance policy consistent with departmental policies, but suited to the needs of the particular course. The instructor's policy is to be explained in detail to the class at the beginning of the semester.

## Policy on Student Absences on Religious Holy Days

In accordance with the. Texas Education Code 51.911, a student who is absent from classes in observance of a religious holy day will be permitted to take an examination or complete an assignment provided the student notifies his/her instructor within 15 days of the beginning of the semester. "Religious holy day" means a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20, Tax Code.

Notifications of planned absences must be in writing and must be delivered by the student either: (a) personally to the instructor of each class, with receipt of the notification acknowledged and dated by the instructor, or (b) by certified mail, return receipt requested, addressed to the instructor of each class. Upon review of the request, instructors will sign and date the receipt of the notice, retaining a copy and returning one copy to the student.

Instructors may refer any questions regarding the qualification of the absence to the Vice President for Student Affairs. Students may be required to present to the Vice President for Student Affairs a written statement documenting that such absence qualifies under the terms of a religious holy day.

## Postponed Final Examinations

Arrangements for taking postponed final examinations are made with the instructor concerned and must be approved by the instructor's department chair.

## Course Repetition

A course may be repeated for additional credit only as specified by the official course description in this General Catalog. With department chair's approval, a student may repeat a course that is not ordinarily repeatable for additional credit only when a grade of " $C$ " or below has been earned. When these conditions are met, the official grade is the last one made, but the original grade remains on the student's record as a course taken and is included in the student's cumulative grade point average calculation.

## English Requirement

All full-time students (those taking 12 or more semester hours) must register for freshman English Composition until credit for six semester hours has been earned. This policy does not apply during summer terms or mini-sessions. A student's use of English is subject to review before graduation. If found unsatisfactory, additional course work may be prescribed.

## Developmental Studies

To assist students in meeting the requirements of the Texas Academic Skills Program, Lamar University offers courses and laboratory programs at the developmental or pre-collegiate level. Students who fail one or more portions of the TASP examination must be enrolled in at least one developmental program-either a 0371 course or the 0071 laboratory program. For detailed information about courses, laboratories, and policies, contact the Director of Developmental Education (409-880-8954)

## Pre-Collegiate Courses

To serve students whose performances on the TASP examination or the Pre-TASP examination indicate significant under-preparation, pre-collegiate courses are offered in each of the three TASP areas. The following pre-collegiate courses are offered:

## DRDG 0371 - Developmental Reading

Development of basic reading skills as required by the Texas Academic Skills Program (TASP). The course is required for all students who have not passed the state mandated TASP test and must be repeated until the reading portion of the TASP test is passed. Course does not satisfy the general degree requirements for any major.
Prerequisite: None
DMTH 0371 - Algebra I and Geometry
Development of basic algebraic skills as required by the Texas Academic Skills Program (TASP). The course is a prerequisite for DMTH 1302 and required for all students who have not passed the mathematics portion of the state's mandated TASP test. This course does not satisfy the general degree requirement for mathematics.
Prerequisite: DMTH 0071 or equivalent

## DMTH 0372-Algebra II

Development of intermediate algebra skills as required by the Texas Academic Skills Program (TASP). The course is a prerequisite for MATH 134 or MATH 1334. This course does not satisfy the general degree requirements for mathematics.
Prerequisite: DMTH 0371.
DWRT 0371 - Developmental Writing
Development of basic composition and writing skills as required by the Texas Academic Skills Program (TASP). The course is a prerequisite to English 131 for all students who have not passed the state-mandated TASP writing test; students who do not pass the state test must engage in some type of mandatory remediation until the test is passed. This course neither satisfies general degree requirements for freshman English nor counts toward graduation hours.

## Laboratories

To serve students whose performances on the TASP examination indicate minor degrees of under-preparation, developmental laboratory programs are offered in each of the three TASP areas. The Developmental Math Lab also accommodates the student who is severely under-prepared. These laboratories are noncredit programs that prepare students for the TASP examination. Students enter these programs upon approval of the Director of Deyelopmental Education or the Director of Freshman English. The following laboratories are offered:

## DRDG 0071 - Developmental Reading Lab Program

This program develops and maintains reading skills as required by the Texas Academic Skills Program (TASP).
Prerequisite: DRDG 0371 or a score of $210-230$ on the reading portion of the TASP test or PTT.
DMTH 0071 - Developmental Math Lab Program
This program develops and maintains mathematical skills as required by the Texas Academic Skills Program (TASP). It also serves as a prerequisite to DMTH 0371.
DWRT 0071 - Developmental Writing Lab Program
This program develops and maintains writing skills required by the Texas Academic Skills Program (TASP).
Prerequisite: DWRT. 0371.
Class attendance and active participation in developmental programs are extremely important. State law dictates that a person not attending and participating in class activities is not in compliance with the law. Students not in compliance are subject to administrative withdrawal from the University.

## Physical Activity Course Registration Requirement

All full-time students (those taking 12 or more semester hours) must register for one semester hour of physical activity except as follows:

1. Those who are inable to participate in a regular activity course or a modified program of activity because of physical handicaps (must have written exemption from the university physician).
2. Students who are 25 or more years of age may be exempted from this requirement at their option.
3. Pérsons who have completed basic training as a part of their military service may be exempt from the required physical education courses at their option.
Students exempted from the physical activity requirement must submit an electivehours approved by their major department in lieu of the requirement.

## Engineering Cooperative Programs

A cooperative program is offered to a limited number of qualified students. Students alternate terms between work and study. To remain in the program, students must maintain satisfactory grade point average and perform in a manner satisfactory to both their employer and Lamar University. Further information may be obtained from the Director of Engineering Cooperative Education, Box 10057, (409) 880-8753.

## Changing Schedules

All section changes, including adds and drops for Engineering majors, General Studies majors and students who have not passed all parts of the TASP examination, must be approved by the student's Academic Advisor. All such changes are initiated by the completion of the proper form available in the department office. All TASP
restricted and Individual Approval students must receive approval from the Office of Developmental Studies to add or drop a course. Usually, a course may not be added after the first two days of the semester.

## Dropping Courses

After consultation with their advisor and/or department chair, students may drop a course and receive a grade of " $Q$ " during the first six weeks (two weeks in the summer session) of the semester. For drops after this penalty-free period, grades are recorded as " $Q$ " or " $F$ " indicating the student was passing or failing at the time of the drop. A grade of "Q" may not be assigned unless an official drop has been processed through the Records Office or telephone Voice Response Registration System. A student may not drop a course within 15 class days of the beginning of final examinations or five class days before the end of the summer term. Students should check the published schedule for specific dates. A written petition to the Dean of the College in which the course is offered is required of students wishing to drop a course after the official drop date.

## Instructor Initiated Drop

When unexcused absences seriously interfere with a student's performance, the instructor may recommend to the department chair that the student be dropped from the course. If this action is taken after the first six weeks of the semester, a grade of " $F$ ", may be recorded for the course. The student's major department will be notified that the student was dropped for excessive unexcused absences. Students remain responsible for initiating drop procedures if they find that they cannot attend classes.

## Reinstatement to Class

A student dropped from a course may be reinstated upon written approval by his/her major department chair, instructor and the instructor's department chair. A petition for reinstatement form must be completed and approved to be reinstated in a course.

## Withdrawals

Students wishing to withdraw during a regular semester or summer term should fill out a Withdrawal Petition available in the Records Office. Students must clear all financial obligations and return all uniforms, books, laboratory equipment and other material's to the point of original issue. If, however, the student is unable at the time of withdrawal to clear financial obligations to the University and files with the Records Office an affidavit of inability to pay, the student will be permitted to withdraw with the acknowledgment that transcripts will be withheld and re-entry to Lamar University as a student will not be permitted until all financial obligations are cleared. Copies of the withdrawal form signed by the student and by the department chair and must be presented to the Records Office by the student. The student will receive a receipt. The Finance Office, on application before the end of the regular semester or summer session, will return such fees as are returnable according to the schedule shown under the "Fees". section of this catalog. If a withdrawal is made before the end of the sixth week. (second week of a summer term) or if the student is passing at the time of withdrawal after the sixth week, a grade of " $W$ " is issued for each course affected. A grade of " $F$ " may be issued for all courses not being passed at the time of withdrawal after the penalty-free period.

A student may not withdraw within 15 class days of the beginning of final examinations during a regular semester or five class days before the end of a summer term. A student who leaves without withdrawing officially will receive a grade of " $F$ " in all courses and forfeit all returnable fees. Students should check the published schedule for specific dates. Students wishing to withdraw after the official withdrawal date may submit a written petition to their Dean.

## Enforced Withdrawal Due to Illness

The Director of the Health Center and the Vice President of Student Affairs, on the advice of competent medical personnel, may require withdrawal or deny admission of a student for health reasons (mental or physical).

## Change of Major

Students wishing to change majors must have the approval of the chair of the department of their former major and approval of the chair of their new department. These approvals must be in writing on the form entitled "Change of Major," and the completed form must be filed with the Records Office, Wimberly 101.

## Change of Address or Name

Students are responsible for all communications addressed to them at the address on file in the Office of Records. Any student who moves during a semester must immediately register his or her change of address in the Records Office. Change of address forms are available in the Records Office.

Change of name due to marriage or correction of name because of spelling errors may be.made by completing a name change card at the Records Office. All name changes must be accompanied by a copy of the legal document making the name change official. This document will be kept on file in the student's confidential folder. Students are advised that former names will be carried on all official transcripts.

## Interchange and Recognition of Credits

Credit earned at Lamar State College-Port Arthur, Lamar State College-Orange and the Lamar Institute of Technology may be applied to degree programs of the University when such credit is appropriate to established programs. Separate grade point averages and transcripts are maintained by each campus. For transfer credit evaluation, an official transcript from each institution must be received by Lamar University's Admissions Office.

## Simultaneous Enrollment

Students who desire to enroll simultaneously on more than one campus or at more than one institution must have the prior written approval of their Lamar University academic advisor and department chair for all classes to be taken. Such approval can. be granted only if all Lamar University academic policies are adhered to by the course work taken as a whole. For example, academic load restrictions due to probation would apply to the total course hours taken at all institutions or campuses. The written approval is to be retained in the student's permanent file.

## Transfer Credit for Correspondence Courses

Lamar does not offer courses by correspondence; however, a maximum of 18 semester hours of correspondence work from accredited institutions may be applied toward a bachelor's degree. No correspondence course may be carried while a student is in residence without the permission of the student's department chair. A permit signed by the department chair must be filed in the Records Office before registration for the course.

A student may not: (1) register for, carry or complete `a correspondence course during the last semester or summer session before graduation, nor (2) receive credit for any junior or senior course taken by correspondence, except in the following circumstances: (a) a course required for graduation that is not offered by Lamar; (b) the student has. a schedule conflict between required courses or (c) a nonresident senior who is within six hours of graduation and who has filed a statement of intent to complete work by correspondence. This statement of intent must be approved by the department chair and filed in the Records Office no later than the last date to apply for graduation. Seniors must file correspondence transcripts at least 14 days before graduation. Credit by correspondence for a course failed in residence will not be accepted toward graduation.

## Credit by Examination

Lamar University awards undergraduate credit'on the basis of nationally recognized examinations and local advanced standing examinations administered by academic departments. These programs are described below. Advanced placement testing programs are discussed in the Admissions section of this catalog.

Except for satisfying the course work in residence and the state-mandated American History and American Government requirements, credit earned by examination is equivalent to credit earned by taking the course and may be used to satisfy bachelor's and associate's degree requirements as defined in this catalog under "Degree Requirements."

## Advanced Standing Examinations

Advanced standing examinations are intended only for those students who have had the equivalent, in formal or informal training, of the work being presented in the course in question. Credit may be granted to those who pass departmental advanced standing examinations with a grade of " B " or better. Normally, departmental examinations will be given only if CLEP subject examinations are not available.

To secure permission for such examinations, a student must obtain the written permission of the dean of the college and the department chair responsible for the course. A fee must be paid to the Cashier's Office. Forms are available in the office of the department chair. Advanced standing examinations will not be approved for skill courses. A student having received a grade (passing or failing) in a course may not take an advanced standing examination in that course.

## College Level Examination Program (CLEP)

Lamar University awards credit on the basis of most of the Subject Examinations of the College Level Examination Program (CLEP). A complete list is available from the Testing Center. No credit will be awarded for the General Examinations. The essay section of the College Composition Examination is required, but need not be taken in order to qualify for credit on most of the other subject examinations.

The amount of credit awarded to a student who attended college before taking the examination will depend upon which college courses the student had completed before taking the examination. Credit will not be awarded if the student had received prior credit for the same course or its equivalent. Grades will not be assigned and hours will not be used in the computation of grade point averages.

## Academic Progress

## Classification of Students

Students are classified as freshmen, sophomores, juniors, seniors, post-baccalaureate and graduate students. Officially enrolled students in academic good standing are classified as follows:

Freshman: all entrance requirements have been met, but fewer than 30 semester hours have been earned;

Sophomore: has earned a minimum of 30 semester hours with 60 grade points;
Junior: has earned a minimum of 60 semester hours with 120 grade points;
Senior: has earned a minimum of 90 semester hours with 180 grade points; and,
Post baccalaureate: holds a bachelor's degree, but is not pursuing a degree program, or has not been admitted to a graduate program. Courses taken as a post-baccalaureate may not apply to a graduate degree.

Graduate: has been formally accepted by a graduate program and is pursuing a graduate degree (see Graduate Studies Catalog).

A full-time student is an undergraduate student taking 12 or more semester hours in the fall or spring (four or more in a summer term) semester. A full-time graduate student is one who takes nine or more semester hours in the fall or spring semester (three or more in a summer term). Some sources of student financing reduce payments to students dropping below full-time status.

Grading System

| A | - | Excellent | W | Withdrawn from University |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| B | - | Good | $\mathbf{Q}$ | Course was dropped |  |  |
| C | - | Satisfactory |  | S | Credit |  |
| D | - | Passing |  | U | Unsatisfactory, no credit |  |
| F | - | Failure |  | NG | No grade |  |
| I | - | Incomplete |  |  |  |  |

The grade of " $W$ " or " $Q$ " is given if the withdrawal or drop is made before the penalty date (see Dropping Courses) or if the student is passing at the time of withdrawal or drop. The grade of "I" may be given when any requirement of the course, including the final examination, is not completed. Arrangements to complete deficiencies in a course should be made with the instructor. Incomplete work must be finished during the next long semester, or the Records Office will change the "I" grade to the grade of " $F$ ". The course must then be repeated if credit is desired. An "I" grade will automatically become an " $F$ " if the student reregisters for the course before removing the deficiencies and receiving a grade change. The instructor may record the grade of " $F$ " for a student who is' absent from the final examinations and is not passing the course.

Semester grades are filed with the Records Office. Except in very unusual situations as specified by the Student Handbook, no grade may be corrected or changed without the written authorization of the instructor who assigned the grade. The grade change form requires the reason for the change and must be approved and signed by the instructor and department chair. All changes involving " $Q$ " and " $W$ " also require the approval and signature of the dean.. If the requested change is for a grade assigned more than one year before the request, the dean also must approve and sign the form. If the requested change is for a grade aissigned more than three years before the request, the Associate Vice President for Academic Affairs also must approve and sign the form. After a degree has been conferred, no transcripted grade may be changed except those assigned to graduating seniors in their final semester. Such changes require the approval of the Executive Vice President for Academic Affairs. Since faculty are required to retain academic records for only three years, students should make everry effort to submit grade change requests as soon as possible.

A student desiring to register for a course to receive a "NG" (signifying "No Grade") must have the written approval from the major department chair, instructor, and instructor's department chair as well as Records Office verification. Sțudent semester hours attempted will be reduced by the appropriate number of hours.

Students are responsible for completing and filing the appropriate petition form with the Records Office. The deadline each semester for filing the petition for "No Grade" with the Records Office is the same as the deadline for dropping or withdrawing from a course without penalty. See the Schedule of Classes Bulletin for specific dates. This deadline does not apply for thesis, dissertation or other courses specifically approved in advance for using " NG " to indicate that continued academic progress is being made by the student.

## Grade Point Average Computation

The grade point average is a measure of the student's overall academic performance and is used in the determination of academic standing, rank in class, eligibility for graduation, etc. Grade point averages are computed separately for technical and academic programs, except for honors and certain special degree requirements.

To compute grade point averages, grade points are assigned to letter grades as follows: to the grade "A," 4 points; to " $B$," 3 points; to " C, " 2 points; to " $D, " 1$ point, and to "F," "I," "S," "U," "NG," "Q," "W," 0 points. The number of grade points earned in a course is obtained by multiplying the number of semester credit hours by the number of points assigned to the grade made in the course.

The grade point average is calculated by dividing the total number of grade points earned by the total number of semester hours attempted in courses for which the grades "A," "B," "C,", "D," and "F" are assigned. Thus, for grades, "I," "S," "U," "NG," " $W$," and " $Q$," neither semester hours nor grade points are used in the computation of the grade point average. Hours attempted include all work taken whether passed, failed or repeated. Courses in which a grade of " $S$ " or " $U$ " is assigned are used in calculating a student's semester hour load and to determine full-time/part-time status, but are not included in the grade point average.

This method of calculating grade point averages will apply to all students in baccalaureate programs of study effective July 5, 1978. The University's former repeat policy will not apply to students in four-year programs after this date; thus, the grade of a course repeated after July 5, 1978, may not be substituted for a prior grade.

Grade point averages for students in certificate, diploma and associate degree programs are calculated in the manner prescribed for baccalaureate programs, with one exception. A student in one of these programs who passes a course at the same institu-
tion where the student previously received a failing grade " $F$ " or " U ," will have only the passing grade and its associated grade points applied toward any certificate, diploma or associate degree. After the course is repeated, the student must file a request for a grade point adjustment with the Records Office. Any adjustment to a grade point average made during the time a student was enrolled in an applicable.course of study is disregarded once the student enters a four-year program.

## Academic Records and Transcripts

Academic records are in the permanent custody of the Records Office. Transcripts of academic records may be secured by an individual student personally, or will be released on the student's written authorization. College transcripts on file from other colleges will not be duplicated by Lamar University's Records Office. Separate grade point averages and transcripts are maintained for Lamar University Institute of Technology work.

Students who owe debts to the University or who have not met entrance requirements may have their official transcripts withheld until the debt is paid or credentials are furnished.

Chapter 675, Acts of the 61st Legislature, 1969 Regular Session; provides that "no person may buy, sell, create, duplicate, alter, give or obtain a diploma, certificate, academic record, certificate of enrollment or other instrument which purports to signify merit, or achievement conferred by an institution of education in this state with the intent to use fraudulently such document or to allow the fraudulent use of such document.".
"A person who violates this Act or who aids another in violating this Act is guilty of a misdemeanor' and upon conviction, is punishable by a fine of not more than $\$ 1,000$. and/or confinement in the county jail for a period not to exceed one year."

## Final Grade Report

Reports on grades are mailed at the end of each regular semester or summer term. These reports include the semester grades and the grade point average for the semester, and for all work attempted at the University. Students should report any errors or discrepancies to the Records Office.

## Dean's List and President's List

At the end of each semester, each college dean prepares a list of all full-time (those who complete 12 or more semester hours) freshman and sophomore students who have earned for that semester a grade point áverage of 3.40 or above and junior and senior students who have earned for that semester a grade point average of 3.60 or above. This list is the Dean's List and is announced by the academic dean of each college.

Full-time ( 12 or more completed credit hours) undergraduates who earn a 4.0 grade point average for a long semester are included in the President's List. Any student with an "I" grade is ineligible for Dean's List or President's List consideration until the " I " is officially changed.

## Scholastic Probation and Suspension

Lamar University students are expected to maintain a 2.0 (" C ") or better cumulative grade point average. Students with a cumulative grade point average of less than a 2.0 will be placed on probation or suspension in accordance with the following rules.

Freshmen ( 30 or fewer semester credit hours) with a cumulative grade point average of 1.15 to 1.99 will be placed on academic probation. Those with a cumulative grade point average of less than 1.15 may be suspended from the University.

Sophomores (31-60 semester credit hours) with a cumulative grade point average of 1.58 to 1.99 will be placed on academic probation. Those with a cumulative grade point average of less than 1.58 may be suspended from the University.

Juniors (61-90 semester credit hours) with a cumulative grade point average of 1.72 to 1.99 will be placed on academic probation. Those with a cumulative grade point average of less than 1.72 may be suspended from the University.

Seniors ( 91 or more semester credit hours) with a cumulative grade point average of 1.79 to 1.99 may be suspended from the University.

Academic suspension designates the loss of "good academic standing" and the disruption of "satisfactory progress" toward degree completion. Suspended students will be notified, in writing, of their suspension by their academic dean. Students will not be suspended after their first long semester at Lamar University, nor will students be suspended if the suspension results from an " I " being treated as an " F " in the calculation of the cumulative grade point average.

After serving a first-time suspension of one long semester, students may be permitted to re-enroll on probation and continue as long as satisfactory progress (semester grade point average of 2.0 or better) is made. If satisfactory progress is not made, a second suspension of two long semesters will result. Students who fail to maintain satisfactory progress following a second suspension will be expelled from the University. All students seeking to return to Lamar University following a suspension must maintain written permission for re-enrollment from the dean of their college.

Suspended students-except those expelled from the University-may attend the summer session on probation. At the end of the summer session, students who were suspended will be reinstated and may register for the fall semester if their cumulative grade point average improves to a satisfactory level during the summer.

A college, with the approval of the Executive Vice President for Academic Affairs, may prescribe academic requirements for its majors in addition to the basic University grade point average standard. Students suspended under these provisions may register in another college at Lamar University provided they meet the prescribed standards and are accepted through the normal change of major procedure. Students may not register for 300 or 400 -level courses offered by the suspending college unless such courses are required by their new curriculum.

## Academic Appeals Procedures

After an enrollment lapse of four or more years from Lamar University and after completing successfully ( 2.20 grade-point average or higher) 24 or more hours of work at Lamar University, a student may petition to disregard a maximum of two entire semesters/terms of course work taken previously at Lamar University. The petition shall be filed with the department chair and follow regular channels to the Associate Vice President for Academic Affairs for a final decision. Endorsements and/or recommendations shall be required at each level. When approved by the Associate. Vice President for Academic Affairs, disregarded work shall not count in determining the student's grade point average for academic progress or for graduation; however, the work shall remain on the transcript with an appropriate notation and shall be used in determining academic honors. Receiving institutions or agencies may use their own policies to compute a grade point average. Once a degree has been conferred, a student may not use the Academic Appeals procedure for any courses used to award the degree or calculate the cumulative grade point average.

## Degree Requirements

## General Education Requirements - Bachelor Degrees

1. Satisfy all admission conditions.
2. Complete the Philosophy of Knowledge Core (see page 14 of this catalog).
3. Meet the following minimum requirements:
A. A grade point average of at least 2.0 on all courses in the major field and on all courses attempted (some departments may require a higher grade point average).
B. Successfully complete a minimum of 120 semester hours. In addition, the following requirements must be met:
1) 30 semester hours in residence at Lamar University with at least 24 semester hours earned after attaining senior classification, except for special degree programs in biology and medical technology;
2) 30 semester hours at the junior and senior level (upper division), of which 18 hours must be completed at Lamar University;
3) 24 semester hours in a major field with at least 12 in upper division courses;
4) No more than 18 semester hours of correspondence work and no more than 30 semester hours of correspondence, extension work and/or credit by examination combined may be applied to the bachelor's degree.
4. Complete the program of study for the major listed in the bulletin.
5. Make application for the bachelor's degree and pay all the designated fees.
6. Attend the official graduation exercise or properly notify the Record's Office.

## Second Bachelor Degree

A second bachelor's degree'may be granted upon the completion of all requirements for the degree. A minimum of 30 additional hours beyond those required for the first degree, as specified by the department granting the second bachelor's degree, must be completed at Lamar University.

## Multiple Majors within a Single Baccalaureate Degree

Lamar University students may earn two or more majors within a single baccalaureate degree program provided they satisfy all academic requirements for each major. Academic requirements for second majors shall be determined by the department responsible for the second major. Approval of the multi-major degree plan must be obtained, in writing, from the department chair of the second major before the student applies for graduation. Third and subsequent majors shall follow the same procedures. Non-disciplinary majors such as Applied Arts and Sciences and General Studies shall not be allowed in multi-major degree programs. Once a baccalaureate degree is conferred, additional majors may not be added to the degree. In situations where majors cross degree lines, the baccalaureate degree of the primary major shall be the degree awarded.

## Bachelor of Arts Degree

1. Satisfy all admission requirements.
2. Meet the University's general education requirements for a bachelor's degree;
3. Complete the course numbered 2312 in a foreign language or with approval of the major department, CMDS 4305, Sign Language III;
4. Complete six semester hours of literature;
5. Complete a minor of 18 semester hours, six of which must be in advanced courses; and,
6. Meet the specific requirements of the selected program of study as listed in the department concerned.

## Bachelor of Applied Arts and Sciences Degree <br> Bachelor of Business Administration Degree <br> Bachelor of Fine Arts Degree <br> Bachelor of General Studies Degree <br> Bachelor of Music Degree <br> Bachelor of Science Degree <br> Bachelor of Social Work Degree

1.' Satisfy all admission requirements.
2. Meet the University's general education requirements for degree.
3. Meet the specific requirements of the selected program of study as listed in the department or program cōncerned.

## Special Degree Programs

Biology. A student may receive the degree of Bachelor of Science, biology major, after completion of one year in an approved college of dentistry or medicine.

The following minimums are required:

1. Satisfy all admission requirements.
2. Complete 106 semester hours of the basic requirements for the Bachelor of Science degree; this includes all the required minimums except the total of 140 semester hours;
3. Complete the biology core;
4. Furnish proof of at least 30 semester hours in an approved domestic college of dentistry or medicine;
5:. Formally apply for the degree before graduation deadline.

## Associate of Applied Science Degree-Nursing

1. Satisfy all admission and pre-admission course requirements;
2. Complete the approved degree plan and file with the Records Office;
3. Earn a grade of " C " or better in English composition, nursing and science courses;
4. Earn an overall grade point average of 2.0 or higher in all course work;
5. Complete at least 24 semester hours of major work at Lamar University with at least 12 hours at the 200-level;
6. No more than 15 semester hours of correspondence and/or extension credit may be applied toward the degree; and,
7. Make final application and pay all fees by the deadline date as stated in the current Catalog.

## Graduation

## Application for Graduation

The graduation process consists of the following steps, which must be completed, before graduation, by the student:

1. Requests the sponsoring department to send an approved degree plan to the Records Office by the due date listed in the current catalog,
2. Proof of eligibility for admission must be in the student's file,
3. Submits all transcripts of college coursework from non-Lamar University, Beaumont.institutions to the Records Office,
4. Achieves a grade point average of 2.0 on a 4.0 scale on all Lamar University, Beaumont work taken and on all college coursework in the student's major; a course is counted each time taken, whether failed or passed;
5. Completes application for graduation in the Records Office and pays necessary fees for cap, gown and diploma by the deadline listed in the current catalog; and,
6. Clears all financial and property matters by the deadline.

The student is responsible, with the concurrence of the major department, for securing official advisement about study plans for the last two semesters, for making application to graduate and for checking compliance with all degree requirements.

## Graduation Under a Particular Catalog

A student normally is entitled to graduate under the degree provisions of the catalog in effect at the time of the student's first completed semester of enrollment with these exceptions:
a. A catalog more than seven years old shall not be used.
b. The program of the student who interrupts enrollment (for reasons other than involuntary military service) for one calendar year or more shall be governed by the catalog in effect at the time of the student's re-entrance to the University. The student who interrupts enrollment for involuntary military service must reenroll within one year from the date of separation from military service in order for this provision to apply. For these purposes, enrollment shall be defined as registration for and successful completion of at least one course during an academic term. A student forced to withdraw for adequate cause before completion of a course may petition for a waiver of this provision at the time of withdrawal.
The program of the student who first declares a major or who changes major from one department to another within the University shall be governed by the departmental degree requirements in effect at the time the change of major becomes effective. General degree requirements (core curriculum) shall be those in effect at the time of the student's first completed semester of enrollment, provided neither condition "a" nor "b" prevails.

Any student transferring from a community college to Lamar University can qualify to graduate under the general degree requirements of the catalog in effect when the student entered the community college. However, students who interrupt their studies for one calendar year or more at the other institution or before transferring to Lamar

University are subject to the general degree requirements of the catalog in effect when they return to that institution or enroll at Lamar University.

At the discretion of the appropriate academic dean, students can be required to comply with all changes in the curriculum made subsequent to the year in which they were initially enrolled. Deletions and additions of courses will be of approximately equal credit so no student will have an overall appreciable increase of total credits required for graduation.

Students with credits earned from Lamar University prior to Fall 1999, may elect to complete either the core curriculum (and other graduation) requirements in effect at the time of the student's first completed semester/session at Lamar or the core curriculum requirements in effect with the Fall 1999 semester. The appropriate department chair and dean must approve exceptions to this policy.

Students who transfer to Lamar University from another Texas public institution of higher education shall be governed by the provisions of Texas Senate Bill 148 (75th Legislature). Lamar will accept, en bloc, an approved core curriculum successfully completed at another Texas public institution of higher education in lieu of Lamar's core curriculum. Any student who transfers to Lamar University before completing the core curriculum of another Texas public institution of higher education shall receive academic credit at Lamar for each of the courses that the student has successfully completed in the core curriculum of the other institution; however, the student shall be required to complete Lamar's core curriculum. Students transferring to Lamar from institutions of higher education outside of Texas or from private institutions withịn Texas shall be subject to the requirements of Lamar's core curriculum.

## Graduation Honors

To be designated as an honor graduate, a member of the graduating class must: (1) have completed at least 60 semester hours at Lamar University in Beaumont for a fouryear degree or 30 semester hours for a two-year degree, and (2) have a grade point average of at least 3.50 for all undergraduate course work (and all graduate course work applied to a baccalaureate degree) attempted at Lamar University in Beaumont. If conditions (1) and (2) are satisfied, all undergraduate transfer credit and grade points are added to all Lamar University-Beaumont credits and grades, and if the combined grade point average is 3.50 or above, the student is awarded honors. A combined grade point average of 3.50 to 3.64 qualifies for 'cum laude' (honors), 3.65 to 3.79 for 'magna cum laude' (high honors), and 3.80 to 4.00 for 'summa cum laude' (highest honors). Grades made the semester of graduation are included in the calculation of grade point averages for honors. Honor graduates will be recognized during graduation ceremonies.

## University Honors Program

Director: Donna Birdwell-Sykes

## 106 ROTC Building

Phone 880-8648
The Honors Program at Lamar University is designed for motivated, superior academic students of all majors: To be eligible for the program, an entering freshman must possess a score of 1100 on the SAT and make application to the Director. College students in the program, or those seeking admission, must maintain a 3.1 grade point average.

Besides the prestige of having been selected for an enhanced academic program, other benefits of participation are small classes, interdisciplinary courses, outstanding faculty, enriched curriculum for satisfaction of core requirements and the esprit de corps generated by the interaction of superior students and Honors faculty. Direction. for the program comes from the University Honors Council which consists of faculty and administrators from all Colleges of the University.

Special recognition is given to Honors Program Graduates at the Commencement ceremony, including the wearing of an Honors medallion. To achieve Honors Program Graduate status, a student must complete at least twenty-four hours of Honors classes with a minimum 3.1 grade point average, including the honors thesis on a topic approved by the Honors Council. Alternately, a non-thesis route to the Honors Program Graduate designation requires 27 hours of Honors classes, with a minimum of 'nine hours at the junior-senior level.

## Student Affairs

The Division of Student Affairs provides services and programs to enhance the education opportunities of students and enrich student life on campus.

The Division includes the Setzer Student Center, University Police and Parking Services, Student Health Center, University Housing, University Food Service, Student Publications, Career Services, Recreational Sports and the Student Government Association. The Vice President for Student Affairs, the Assistant Vice President for Student Affairs and the Coordinator for New .Student Programs are located in the Office of Student Affairs, 115 Wimberly.

Student Affairs provides leadership in the formulation and administration of policies and procedures related to student life and to the rights and responsibilities that accompany student citizenship in the University community. The Student Conduct Code as well as other important information pertaining to student life is included in the Student Handbook. Significant sections in the handbook and other university publications clearly describe Lamar University's policies regarding such subjects as absence, AIDS, anti-discrimination, drugs, privacy, residency, hazing, sexual harassment, student's rights and campus security. It is the student's responsibility to be knowledgeable of established University policies and procedures that are contained in the Student Handbook and to comply with them. Copies of the Student Handbook are available upon request in the Setzer Student Center and the Office of Student Affairs.

## Career Center

Located in 102 Galloway Business Building the Career Center's professional staff assist students with all facets of career preparation, beginning with university entrance and special placement exams, major course of study selection, career choice and planning, part-time employment, resume preparation, interviewing preparation, goal planning and full-time employment after graduation. Students have access to on-line Internet job search and computerized guidance assessment programs.

LamarWork\$, the student employment services office located in the Career Center, assists students in locating part-time jobs, internship opportunities and on-campus work/study and student assistant jobs. Job search skill development is available, (409) 880-1853. All services are free to the student.

The center has a full-time career counselor on staff to provide personalized assistance. In order to best serve as many students as possible, problems of a long-term, therapeutic nature cannot be addressed; however, initial consultation is available and, when feasible, referral to campus and community resources:

Job fairs are organized annually for the benefit of Lamar University students. The Career Fair is held each February, and the Teacher Fair is held in April. these fairs give students the opportunity to make initial contact with recruiting firms, contacts that may result in interviews on the Lamar campus during spring (February and March) and fal (October and November) of each year or at the recruiter's headquarters. Employers recruiting with the Career Center generally plan to fill permanent entrylevel jobs, part-time jobs, summer jobs, co-ops and internships.

The Career Center's testing facility offers a full range of testing services for aptitude, achievement and career interest. The center also coordinates testing required by the University; provides individual interest, aptitude and personality assessment; and as a national test center administers the following:

- SAT (Scholastic Aptitude Test) for undergraduate admission. The SAT II Subject Area Tests are also given for students who wish to receive college credit.
- ACT (American College Testing Program) may be used instead of the SAT for undergraduate admission.
- TASP (Texas Academic Skills Program) is required of all students for advisement and registration (unless exempted)
- CLEP (College Level Examination Program) may be used to get credit by examination. See detailed description of CLEP elsewhere in this catalog.
- GRE (Graduate Record Exam) subject tests are administered.
- .LSAT (Law School Admission Test)
- MCAT (Medical College Admission Test)
- MAT (Miller Analogies Test) required for admission to some graduate programs.
Information and registration forms are available in 102 Galloway Building, (409) 880-8884. Although the GRE general test and GMAT (Graduate Management Admission Test) are administered elsewhere, registration information is available in 102 Galloway.

The Career Center provides seven core services:

1) Career assessment, testing; exploration and decision-making. This is appropriate for all students, and is particularly important for the person who is trying to make a decision on a major.
2) Training-seminars on topics of resume writing, interviewing and the job search are taught many times each semester. Internet possibilities and videotapes are also used in training.
3) Part-time job placement, summer jobs and internships.
4) Full-time job placement and on-campus recruiting, plus a resume referral system are available to graduating students and alumni.
5) The teacher career fair is held in April each year and provides students the opportunity to interview. with as many as sixty school district recruiters.
6) The Career Fair for all majors is held annually and affords students the opportunity to explore careers and to meet with future employers.
7) The Career library has information about employers and has resources about career planning on video and in print and computer formats.

## Health Center

The University maintains a Health Center that offers outpatient services for students of Lamar University. The student Health Center offers medical services, use of the pharmacy, short-term psychological counseling, and health education to students presenting a current validated ID during regular hours when the University is in session. In addition, gynecological services are provided by a woman's health practitioner.
. A physician is available during regular hours to treat students for minor acute illnesses or injuries that do not require constant supervision. No appointment is needed and students are charged only for medications and supplies, not for the doctor's visit.

More extensive laboratory tests and x-rays are available if requested by the Health Center Director or physician. Should the need arise, expenses incurred for ambulance service or off-campus medical services become the responsibility of the student. When the University is not in session, health care becomes the individual student's responsibility.

## Health Insurance

Any registered student taking six or more credit hours (three hours during the summer sessions) is eligible for enrollment in an affordable insurance plan offered by an independent insurance company. The policy was designed for students of Lamar University and the Lamar Institute of Technology. Coverage may be purchased each semester, or on an annual basis, and those enrolling have the option of covering dependents as well. Additional information is available in the Student Handbook or through the Student Health Center.

## Housing

The housing and residence life program at Lamar University is designed to supplement the academic program by providing opportunities for intellectual and social development for students. The staff are committed to supporting the academic mission of Lamar University by giving the student several opportunities to become involved in the university community; to interact with people from different backgrounds; and to enhance academic, social and leadership skills. Residence Assistants (RAs) and Hall Directors serve as role models and advisors to residents in their respective buildings.

To apply for a room, contact the housing office and request a Residence Hall/Food Service contract. The university reserves the right to assign specific residence halls and rooms. More detailed information regarding contract fees, submission procedures and room assignments is available in the Student Handbook or by calling the housing office, (409) 880-8111.

## Lamar University Residency Policy

All undergraduate, full-time students (those enrolled in 12 or more semester credit hours) with fewer than 24 earned semester credit hours are required to reside in a University-operated residence hall.

Exemptions to the University Residency Policy may be granted for the following reasons:

1. Student will reside with a parent, guardian or other adult relative.
2. Student is 21 years of age by the first class day.
3. Student will be enrolled only, in evening classes.
4. Student is married or has dependent children.
5. Student has a medical exemption signed by his/her doctor.

Students wishing to be released from the University Residency Policy must fill out an "Off Campus Residency Request Form" with the Department of Housing. Official documentation verifying exemptions may be required by the Housing Office. Failure to comply with the stipulations outlined in this policy will result in disciplinary action.

Questions regarding the University Residency Policy may be directed to the Lamar University Housing Office, (409) 880-8111.

## Room Assignments

The Department of Housing staff make every effort to match residents with compatible roommates. Make sure that you fill out the personal information section in the Residence Hall/Food Service Contract accurately so that the Hall Directors can take into consideration this information when matching roommates.

Hall Directors will make every effort to accommodate specific roommate requests; however, the Department of Housing reserves the right to make room changes at any time. Please see the Residence Hall/Food Service Contract Booklet for more details concerning room assignments and/or room changes.

Residents who turn in their signed Residence Hall/Food Service Contract form and their deposit before August 1 will have their room assignment mailed to their permanent address. Any student who sends his or her contract in after August 1 will receive their room assignment when he or she arrives at check-in.

## Housing Fees

The Residence hall contract is for a full academic year (August through May). Specific room rates are listed in the contract booklet.' Meal plans for student residents are mandatory. Any student submitting a contract to reside on campus MUST select a meal plan from the available options. Room and board fees are charged to the student's account each semester. Students may elect to pay these charges in a lump sum or through the university installment plan as part of their total semester charges;

Students who fail to pay their room and board fees will be subject to both disciplinary action under the Student Code of Conduct and collection agency procedures. Additionally, if a student has not paid at least 50 percent of their total semester charges by a specified date, the student will be dropped from his or her classes.

For additional information and application forms, write to the University Housing Office, Lamar University Station, P.O. Box 10041, Beaumont, Texas 77710.

## Parking

All faculty, staff and students are required to purchase a current parking permit and display it if they park a vehicle on campus. A copy of the parking and traffic regulations is issued at the time of permit purchase. Strict observance of traffic and parking regulations is necessary for the safe, orderly flow of vehicles in the campus area. Parking and traffic regulations are in effect 24 hours a day.

## Setzer Student Center and Student Activities

The Setzer Student Center (SSC), named for Dr. Richard W. Setzer, university president from 1967 to 1969, is'the center of student activities on Lamar University's campus. The Director of the Setzer Student Center, along with the assistant directors for programs and student organizations, develop and implement co-curricular programs that give students a balance of campus life.

Housed in the SSC are various facilities to meet the needs of students. Mirabeau's and Cardinal Nest are food service facilities that serve a variety of menu items. Taco Bell and Pizza Hut are two franchises that serve specialty items. The Center services include the University Bookstore, Student Organization Services,' Student Government Association, Setzer Stúdent Center Reservations; Lamar Alive! and administrative
offices. More information about the Student Center and its services is available by calling the director, (409) 880-8722.

## Honor Societies and Recognition Programs

Alpha Lambda Delta National Honor Society encourages and recognizes outstanding scholastic achievement among students during their first year of college. Blue Key National Honor Fraternity selects members on the basis of outstanding scholarship, leadership and service. Several other honor organizations specific to area of study are active on campus. The Bess Gentry and C. Robert Kemble Awards recognize the outstanding senior woman and man, respectively, each year. The C.W. Bingman Award recognizes a graduating senior for outstanding achievement and service to Lamar. The Ida Caldwell McFaddin Award recognizes outstanding citizenship, and the Otho Plummer Award is given to the highest-ranking man and woman each commencement. The Student Handbook offers additional details.

## Student Organizations

More than 140 student organizations are currently active at Lamar and offer student membership opportunities in one or more of the following groups: professional/departmental, religious, mutual interest, service, honor, spirit, sports or social groups. Participation in well-developed, co-curricular activities enhances the educational experience. Students are encouraged to join the organization(s) of their choice and participate in developmental, leadership and philanthropic programs.

Students may obtain additional information by contacting the Office of Student Organization Services at (409) 880-8722.

## Lamar Alive!

The Lamar Alive! student programming board is responsible for providing the campus with a diverse schedule of programs and extracurricular activities. The programming board of Lamar Alive! consists of student directors, along with their committees, who develop social, educational and cultural opportunities for Lamar University and Institute of Technology students. Dedicated volunteers and committee members plan events for traditional events such as homecoming, mardi gras celebrations, AfricanAmerican History Month, AIDS awareness, Diversity Week, lectures, Cardinal Comedy Corner, Poetry Night and other special events. Membership is open to all students who meet the University's extracurricular activity policy standards as outlined in the Student Handbook. For more information, contact the assistant director for activities, (409) 880-8722.

## Student Government Association

The Student Government Association (SGA) serves as the representative voice of students, as a major facilitator of new and improved student services and programs, and in an important role relative to student judicial proceedings. All regularly enrolled Lamar University students are represented by the Student Government Association, which affords each student an opportunity to promote, support and participate in a well-rounded student life program. Students serve on the student affairs, academic affairs and/or public relations standing committees in addition to serving on other university advisory committees.

The president and members of the Student Senate are elected each spring in a general student election. The vice president and secretary-treasurer are elected annually by the Student Senate, which meets weekly. Student intersts or concerns may be expressed at the open meetings of the Senate, or submitted through SGA suggestion boxes at various campus locations.

The Student Government Association office is located in Room 211 of the Setzer Student Center, (409) 880-8891.

## Residence Hall Association

The Residence Hall Association (RHA) is the umbrella organization for individual residence hall councils and provides a voice for campus residents: Every Lamar student who lives on campus is a member of the Residence Hall Association by virtue of his or her residence. The RHA operates from a committee structure, examples of which are the dining advisory, entertainment and housing advisory committees. Every resident student is represented by RHA and is encouraged to participate in its programs and activities.

## Student Publications

University Student Publications include the University Press, the campus student newspaper published twice each week during the long semesters, and Pulse, a literary magazine of student writing. The University Press, with offices in 200 Setzer Student Center, serves as a training opportunity for students interested in journalism. Pulse offices are located in 03 Maes Building.

## Student Life

## Athletics

Lamar University competes at the NCAA Division 1 level and is currently a member of the Southland Conference. Lamar offers 14 sports, seven each for men and women. The seven women's sports are volleyball, cross country, basketball, indoor and outdoor track, tennis and golf. Men's sports are cross country, basketball, indoor and outdoor track, baseball, tennis and golf. Lamar students with valid Ids are admitted free to all university athletic events.

## Campus Ministries

Several campus ministries provide fellowship, worship and recreational activities for Lamar students and have established student centers adjacent to campus. They include the Baptist Student Union, Church of Christ Bible Chair, Church of Jesus Christ of Latter-Day Saints, Episcopal Center, Catholic Student Center and Wesléy Foundation (United Methodist). Some ministries sponsor retreats, special programs and community services.

## Cultural Arts

The visual and performing arts thrive on the Lamar University campus. The Dishman Art Gallery provides one of the finest collegiate exhibition spaces in the state of Texas with two galleries, a preparation area and lecture hall with video and projection facilities. The Dishman presents local, regional and national touring exhibitions.

A variety of public programs, including openings, artist lectures and panel discussions are scheduled throughout the year. Gallery hours are 8 a.m.-5 p.m. Monday through Friday. Admission is free.

Lamar Theatre performs five productions each year, including comedy, drama and musicals as well as children's theatre and student-directed "brown bag" productions. Lamar's recently renovated 500 -seat proscenium theatre and flexible-seating "black box" studio theatre host productions.

The Symphonic and Concert Bands, Lamar Symphony Orchestra, jazz bands, Brass Quintet, Wind Ensemble and other groups represent Lamar at numerous state and national music educator conventions; moreover, these groups may be heard on a regular basis on and off campus throughout the year. Students, faculty and guest performers entertain not only the Lamar community but also music lovers in Southeast Texas during the Lamarissimo! Concert Series with five concerts held annually in the historic Julie Rogers Theatre in Beaumont. Basketball fans enjoy the Cardinal Pep Band, which performs at.all home games.

The Lamar Dance Company presents several concerts each year and joins the musical ensemble for various presentations.

## Eligibility for Extracurricular Activities

An extracurricular activity is understood to be any activity representing the student body, any student organization, any.department or division organization or any general activity representing the University. The Student Handbook describes eligibility requirements.

## Recreational Sports

All currently enrolled students, faculty and staff with a valid Lamar D card have access to Lamar recreational sports facilities and may participate in the wide variety of activities that are offered, divided primarily into five areas: intramural sports, sports clubs, fitness, aquatics and informal recreation.

Intramural sports offer opportunities for participation in supervised individual, dual, and/or team competitive sports within the university community. Campus organizations may place teams in the All-Sports Division, while all others may participate in the Independent Division. There are opportunities to enter in male, female or coed divisions. The stated purpose of the Intramural Program is to promote human understanding, fair play, camaraderie and friendly competition.

Sport clubs are student organizations of individuals who have interests in a specific activity such as soccer, volleyball, racquetball or swimming. Clubs are organized through the department and pursue competition with other universities.

The Recreational Sports Fitness Center is an 11,000 -square-foot, state-of-the-art fitness facility with a cardio theater, a full line of progressive pin-select machines and the latest in free weight equipment. Certified fitness trainers are available to consult, evaluate and develop individual fitness programs. Individuals may choose to participate in the rec aerobic program, which includes kick-boxing, step and water aerobics The aquatics program offers lap swims, recreational use and structured lesson programs.

Recreational Sports offers the use of facilities for free-time recreation. Published schedules and reservations allow students, faculty or staff members to exercise and enjoy competition with friends in their leisure time. Sports equipment is available for daily and overnight rentals at the equipment room. Facilities include McDonald Gymnasium,
fitness center, raquetball courts, tennis complex, Ty Terrell Track, indoor and outdoor swimming pools, recreational fields, outdoor pavilion and the golf driving range.

Further information on the Recreational Sports Program may be obtained from the Recreational Sports Office, Room 106 of McDonald Gym, (409) 880-2306.

## Conduct and Discipline

## Student Code of Conduct

A student is subject to disciplinary action for unacceptable behavior, as detailed in the Student Handbook. The chief student affairs officer may classify behavior as unacceptable and may refer the case to the proper judicial body for investigation and decision. The student has the privilege of appealing the decision to the Vice President for Student Affairs.

## Debts

The University is not responsible for debts contracted by individual students or student organizations and will not act as a collection agency for organizations, firms or individuals to whom students may owe bills.

Students and student organizations are expected to honor contractual obligations promptly, but in case of flagrant disregard of such obligations, the chief student affairs officer or his designated representative will take appropriate action.

Failure to pay all University fees by the specified date will result in suspension through the 12 th week in the long semester and the fourth week of each summer term. After the 12 th week in the long semester and the fourth week of each summer term failure to pay all fees by the specified date will result in suspension at the end of the current semester and may include: a) denial of readmission, b) withholding of grades and transcripts, c) withholding of degree.

## Hazing

Hazing is prohibited in state educational institutions by the Texas Education Code. Students of Lamar University are forbidden to engage in, encourage, aid or assist any person(s) participating in what is commonly known and recognized as hazing. Any student who does so will be subject to University disciplinary action and might also expect to be dealt with by civil authority. Refer to the Student Handbook for more specific definitions and information relative to the legal implications of hazing.

## Falsification of Records

A student who provides false information or makes false statements to any University official or office or on an official form submitted to the University is subject to immediate dismissal.

## Summons

An official summons takes precedence over other University activities of the student and should be answered promptly on the day and hour designated. Failure to heed an official summons may subject the student to serious disciplinary action.

Students enjoy a break from classes while cascading water from the quadrangle fountain provides refreshing respite?

With small class size and 80 percent of Lamar's full-time faculty holding Ph.D. degrees, students learn directly from the experts.

## College of Arts and Sciences

Depärtments: Biology, Chemistry and Physics, English and Foreign Languages, Geology, History, Nursing, Psychology, Political Science, and Sociology, Social Work and Criminal Justice.

Dean
100 Ward Health Sciences Building Phone 880-8508

## Organization and Function

The College of Arts and Sciences provides most of the academic components fundamental to a traditional liberal arts college and contains humanities, social sciences, and the natural sciences. The outstanding programs in the humanities include English, history, philosophy and foreign languages with graduate degrees in both English and history. The College's excellent programs in the social sciences include anthropology, political science, sociology, psychology, social work and criminal justice with graduate programs in applied criminology, political science and psychology. The highly regarded natural science program includes nursing plus the traditional sciences of biology, chemistry, geology, and physics with graduate programs in biology, chemistry and nursing.

The College also houses many successful programs which cross several disciplines. Environmental science is one example in addition to the many pre-professional programs. Pre-professional programs prepare students for a professional school to launch careers in fields such as law, medicine, dentistry, pharmacy, physical therapy, occupational therapy, optometry and veterinary medicine. The College has two interdisciplinary degrees designed for adult learners.

Research is a fundamental component of the mission of the College of Arts and Sciences. Faculty members in the College are actively engaged in research related to their respective disciplines. In addition, the College maintains several centers or laboratories that are devoted almost exclusively to research activities. These include the Space Exploration Center, the Center for Public Policy Studies, the Environmental Sciences Laboratory, the Center for Justice Research and Education and the Center for Philosophical Studies:

## The Liberal Arts and Sciences

Like other areas of study, the disciplines represented by the Arts and Sciences prepare a student for advanced study and research, for a career in business, industry; government service or teaching or for study in a professional field. In addition, however, the very nature of the Arts and Sciences disciplines not only trains the mind and sharpens the intellect but also provides an experience designed to encourage life-long learning. It is a "liberating" experience which enables one to acquire the skills and knowledge to think critically, examine values and principles, broaden perspectives and to understand the individual and the relationships among the individual, our natural environment and our society. Thus, specialization in one or more of the Arts and Sciences disciplines provides the opportunity for this experience and the prelude to a career.

## Degrees Offered

## Associate of Science - Nursing

## Bachelor of Applied Arts and Sciences

## Bachelor of Social Work

Graduate programs are offered in biology, chemistry, English, history, psychology, public administration and applied criminology. Nursing offers a co-operative master's degree with UTMB. The Department of Geology and the Sociology Program offer graduate courses in support of other advanced degree programs. Further information may be obtained from the Graduate Catalog or by contacting the appropriate academic department.

## Minimum Standards for Undergraduate Majors in the College of Arts and Sciences

A student enrolled as a major in the College of Arts and Sciences must fulfill all University degree requirements, including those for general education, as well as the particular requirements set forth by the department for an area of specialization. In addition, majors in the College must:

1. Complete the Freshman English composition requirement with no less than a grade of "C".
2. Complete all department courses required in their major with at least a grade of "C".
Students are expected to make acceptable progress toward their degree objectives and are expected to work closely and carefully with their academic advisor.

Students majoring in one of the programs in the College of Arts and Sciences who accumulate a grade point deficiency of 25 or more grade points by the beginning of a Fall or Spring semester may be suspended for that semester. Students returning from an academic suspension must reduce their grade point deficiency every semester of enrollment until the deficiency is eliminated. Failure to reduce the deficiency in any one
semester may result in a second suspension of two long semesters. A third suspension may result in exclusion as a major in the College of Arts and Sciences.

Students suspended from Fall and/or Spring semesters may attend a Summer session. If the grade point deficiency is less than 25 at the close of the Summer session, the student may enroll for the following Fall semester but may be charged with a suspension.

Upon recommendation of the Department Chair and approval of the Dean of the College, exceptions to the above policy will be considered for:

1. A student who compiles exactly a 2.0 GPA after returning from a suspension.
2. A student in good standing ( 2.0 or greater GPA) who accumulates a grade point deficiency of 25 or more grade points in one semester.
3. A student in college for the first time at the end of the first semester of attendance.

## Bachelor of Science - Environmental Science

## Program Director: Richard C. Harrel

205-10H Biology, 880-8255
Environmental Science is an interdisciplinary program concerned with protecting, monitoring and improving the environment. The degree program combines study in biology, chemistry, geology, engineering and political science in preparing the student for a career with regulatory agencies, industry or consulting firms. This degree program combines fundamental training in the basic sciences with broad training across-several of the traditional disciplines to prepare students for employment or graduate study. An internship is required to integrate academic preparation with actual work experience.

The degree of Bachelor of Science in Environmental Science will be awarded upon completion of the following requirements:

## Bachelor of Applied Arts and Sciences

Academic Director: Boyd Lanier

The Bachelor of Applied Arts and Sciences degree exists to facilitate the completion of a college degree by those individuals already possessing training in a vocational field. Students wishing to improve their vocational and professional competency or to meet educational requirements of the contemporary workplace will find this program useful.

The Bachelor of Applied Arts and Sciences will be granted upon the completion of the General Degree Requirements of the University, including up to 24 hours of experiential credit granted, upon petition by the student and approval by the program director, for learning outside the traditional college setting. Taken together with prior acceptable college work, these hours are added to additional work prescribed to satisfy all the University and the College requirements for graduation. Course selection is subject to the approval of the program director. Because experiential credit is usually very specific and vocationally oriented; it will often constitute the major field of a Bachelor of Applied Arts and Sciences program. Since this is completed early in a student's career, the Bachelor of Applied Arts and Sciences is considered an "inverted degree," completing a student's curriculum with courses ordinarily elected at the start of college study. Thirty hours of course work must have been completed at Lamar University with 24 having been earned after attaining Senior status.

## Bachelor of General Studies

Academic Director: Madelyn D. Hunt<br>200 Archer Building, Phone 880-8907

The Bachelor of General Studies degree can provide opportunity for an individual to construct a personal curricular plan, i.e., to take courses in more than one area of interest, resulting in a broadbased program of study. Additionally, the Bachelor of General Studies is designed for those students who have already established careers and who wish to earn credit toward a degree while learning for the pleasure of learning.

The Bachelor of General Studies will be granted upon the completion of the General Degree requirements of the University. Course selection is subject to the approval of the program director, normally with a minimum of thirty upper-division hours and at least nine hours in each of three disciplines. At least nine hours of these upper-division courses will be at the $\mathbf{4 0 0 0}$ level. More advanced hours are encouraged.

## University Advising Centers

## Center for General Studies

#### Abstract

Academic Director: Madelyn D. Hunt 200 Archer Building, Phone 880-8907 The Center for General Studies assists students with enrollment and course selection and provides counseling on academic progress and academic options. The Center for General Studies provides this assistance to students who are unsure about the proper academic discipline to choose. Students without a major are restricted to 1000 - and 2000-level courses; they may take no engineering courses but are free to enroll in other lower-level electives while taking general education subjects. Normally, a student should choose a major by the third semester of enrollment. Students without a major must abide by the Center's probation and suspension policies.

Consult the specific discipline sections of this catalog to identify advisors and advising centers for specific programs.

No more than 30 semester hours of business courses can qualify as elective hours.

## Pre-Professional Programs

The College of Arts and Sciences offers pre-professional programs for students planning careers in law or in one of the primary health care delivery areas - dentistry, medicine, optometry, pharmacy, physical or occupational therapy, physician's assistant, podiatry and veterinary medicine. Other programs associated with the healthrelated professions (i.e., the allied health sciences) are administered through the Lamar Institute of Technology.

## Pre-Law

Advisors: Terri B. Davis<br>Boyd L. Lanier

106 Montagne Building, Phone 880-8534
For admission to law school a student needs a baccalaureate degree, a high grade point average, and a good score on the Law School Aptitude Test (LSAT). According to the Association of American Law Schools, skills appropriate to the legal profession which can be acquired in undergraduate education are these: comprehension and expression in words, critical understanding of human institutions and values with which the law deals, and creative power of thinking. Therefore, a broad education obtainable in a liberal arts program is excellent preparation for admission to law schools.

The pre-law programs are administered by pre-law advisors' within the student's major department. Pre-law students should work closely with the appropriate advisor in planning an undergraduate curriculum and in eventually making application to law schools. One aspect of the application process is the Law School Aptitude Test (LSAT) which law schools require to be taken prior to consideration for admission.

# Pre-Clinical Programs in Physical Therapy, Occupational Therapy and Physician's Assistant

The pre-clinical programs in physical therapy, occupational therapy and physician's assistant are administered by the Department of Biology. The specific programs of study are listed in that department. Further information may be obtained by contacting the advisor.

## Pre-Dental, Pre-Medical, Pre-Optometry, Pre-Pharmacy, and Pre-Veterinary Medicine Programs

## Advisor: Oney Fitzpatrick

100C McFaddin Ward Building, Phone 880-8508
The Pre-Professional Advisory Committee for the Health Professions was created as a service to all students preparing for and seeking admission to professional schools of dentistry, medicine, optometry, podiatry, pharmacy and veterinary medicine. The services provided include basic advising and counseling in pre-professional matters, academic advising, information on professional school application procedures and providing composite evaluative information on the student to professional schools. It is extremely important that preprofessional students work closely with the program advisor from the time they initiate their studies at the University.

Admission to health professional schools is highly competitive and, in general, the most competitive applicants will have credentials which significantly exceed the stated minimum admissions requirements. For example, while many dental and medical schools may have stated requirements of only two to three years of college preparation, greater than 90 percent of the students actually accepted will have had four years of college. Thus, since, "pre-programs"' do not lead to a degree, such students should pursue a degree-granting program. The student is then not only a more competitive professional school applicant but has also prepared for an alternate career should admission to a professional school not be possible. Any degree granting program at the University may be chosen; however, programs within the sciences are generally the most appropriate as their required curricula contain many of the courses also required for professional school admission. In addition, careful use of elective hours in the curricula will allow for the selection of other appropriate pre-professional courses.
'Students considering courses at junior colleges should contact the professional school(s) they plan to attend because many professional schools are reluctant to accept transfer hours from junior colleges.

Standardized examinations are required as a part of the admissions process to professional schools (dentistry-DAT; medicine and podiatry-MCAT; optometry-OAT; veterinary medicine-MCAT or GRE; pharmacy-PCAT). Students should consult with the preprofessional advisor concerning preparation for a particular examination and the appropriate time at which the examination should be taken.

## Professional Programs

The Department of Sociology, Social Work, and Criminal Justice offers approved programs to prepare the student for public service in the areas of criminal justice and social work. The student may earn a Bachelor of Science in Criminal Justice or a Bachelor of Social Work degree.

The Department of Nursing offers the Associate of Science and Bachelor of Science in Nursing to prepare professional nurse practitioners. Each recipient of the degree is eligible to make application to write the state licensing examination given by the State Board of Nurse Examiners to become a registered nurse (RN).

## Teacher Certification

The Arts and Sciences departments offer approved programs which enable students to secure the bachelors degree in one of the Arts and Sciences and at the same time certify for a provisional secondary certificate with teaching field in that Arts and Sciences discipline.

Students wishing to certify for a provisional certificate with social studies as a teaching field (secondary, option IV) should consult the Chair, Department of Political Science.

Students wishing to certify for a provisional certificate with Psychology as a teaching field (secondary, option II) should consult the Chair, Department of Psychology.

## Career Counseling - Liberal Arts

The Departments of English and Foreign Languages, Political Science and Sociology, Social Work and Criminal Justice each have two or more faculty members who specialize in career counseling. One counselor specializes in counseling students who will attend professional graduate schools. Other counselors specialize in counseling for careers in business, industry and social services.

The Career Counselors have developed lists of career support courses, based on current information about the job market. They can suggest patterns of courses, both electives and minors, that are likely to provide advantages for the Liberal Arts graduate in various types of career pursuits. Numerous materials are available to help students prepare themselves for choosing possible career goals and for entering the job market.

## Cooperative Education Program

A cooperative (Coop) Education Program in which the student spends alternate terms at work and at study is offered to qualified students in the Department of Chemistry and Physics. This program is coordinated by the Director of Cooperative Education, and students may contact that office or the individual departments for further information.

# Department of Biology 

Department Chair: Michael E. Warren
101 Hayes Building, Phone 880-8262
Professors: Haiduk, Harrel, Hunt, Warren
Associate Professors: Runnels
Assistant Professors: Christensen, Hicks, Nicoletto
A student majoring in one of the three baccalaureate programs offered by the Department of Biology (Biology; Medical Technology, and Environmental Science) quickly understands that the biological sciences have foundations in the supporting sciences of chemistry, physics and mathematics.

The Biology program is committed to the laboratory approach to science. Students completing the Biology core will have been exposed to all major areas of Biology and are allowed the freedom to concentrate on an area of special interest within the major. Sufficient hours of free electives allow a Biology major to obtain secondary teaching certification simultaneously. Faculty offices are located in the Hayes Biology Building and in the Sccience Auditorium. The Dujay Sanctuary in the Big Thicket and the Marine Station at Pleaśure Island near Port Arthur provide opportunity for field-based study.

Areas of faculty expertise and research interests include Behavior, General Physiology, Developmental Biology, Ecology, Limnology, Cytogenetics, Microbiology, Oceanography, Parasitology, Entomology and Epidemiology as well as Invertebrate, Fish, Reptile and Mammal Biology.

## Bachelor of Science - Biology Major

As the study of life, Biology requires a thorough understanding of the underlying chemical and physical principles governing all life processes. Lamar students attracted to this field are well equipped to enter the professions of medicine, dentistry or one of the other career paths listed below in this section. Students are equally prepared for environmentally related careers in various governmental agencies or private companies. A career file is maintained in Room 101 of the Hayes Biology Building to acquaint students with far-ranging career possibilities. Students interested in further education leading to an advanced degree in Biology are also well prepared. Those interested in teaching should consult the related section below.

The degree of Bachelor of Science in Biology will be awarded upon the completion of the following requirements:
A. General Requirements:

See Core Curriculum.
B. Major:

Core courses, see list below - 28 semester hours
Biology electives - 12 semester hours
BIOL 4160, 4170 Literature - two semester hours
C. Supporting Sciences:

General Chemistry - eight semester hours
Organic Chemistry - eight semester hours
General Physics - eight semester hours
Biochemistry or Cell Biology - three or four semester hours
Statistics - four semester hours
Computer Science, COSC 1371.
D. Electives:

Sufficient electives to complete a total of 128 semester hours.

All the above requirements for the degree must be met before a student may be admitted to clinical training, which is 12 consecutive months at a hospital laboratory accredited for teaching by the Committee on Allied Health Education and Accreditation of the American Medical Association (AMA). A list of clinical affiliate hospital schools is provided below. After satisfactorily completing this training, the student is awarded the degree of Bachelor of Science Medical Technology.

No Lamar financial aid is available during the clinical-year since the student pays no tuition.

1101 Supplemental Laboratory
This course allows a transfer student to make up one laboratory deficiency at the introductory level.
Departmental approval is required to enroll.
1102 Medical Terminology
1:1:0 An entry-level course which provides basic vocabulary needed to fúnction in the medical environment Course content stresses prefix and suffix usage derived from Greek and Latin as applied to Biology. This course is not a substitute for Biological Literature.
1470 Introductory Biology ${ }^{\circ}$, . . . $4: 3: 2$
A human-centered, non-chemically based course for non-science majors, includes function and problems of the human circulation, respiration, digestion, reproductive, and sensory systems.
1471 Introductory Biology.
4:3:2
A companion course to Biology. 1470, which is not prerequisite. Includes human heredity and a consideration of the diversity and impact of the plant kingdom on human life and history as food and medicine as well as their aesthetic value.
1406 General Hiology $\quad$ 4:3:2 A survey of organisms, molecules, cells, tissues, photosynthesis, and genetics.
1407 General Biology $\quad$ Vertebrate structure and function, development, reproduction, and ecology. Prerequisite: BIOL 1406.
2401 Human Anatomy and Physiology
4:3:2
Structure and function of cells, tissues, and muscle, skeletal and nervous systems.
Prerequisite: Passing scores on all séctions of TASP test or be TASP exempt.
May not be used as a Biology major course.
2402 Human Anatomy and Physiology $\quad . \quad . \quad$. . . . . . . . . .
Structure and function of the circulatory, digestive, excretory and reproductive systems.
Prerequisite: BIOL 2401. May not be used as a Biology major course.
2420 Microbiology $\quad$ Micro-organisms with emphasis on those of medical significance and problems of personal and community health.
Prerequisite: Credit for BIOL 1406,1407 or BIOL 2401, 2402.
2476. Medical Microbiology - ! $\quad$ 4:2:6

The pathogenesis, epidemiology, prevention and therapy of major infectious diseases Laboratory includes diagnostic procedures used in idèntification.
Prerequisite: BIOL 2420
3420 Embryology . 4:3:3
Comparative study of meiosis, fertilization, cleavage and early embryology as it relates to human development of vertebrates. (Offered Spring semester)
Prerequisite: BIOL 1406, 1407.

## 3428 .Comparative Anatomy of the Vertebrates

Comparative anatomy presented from systemic viewpoint. (Offered Fall semester)
Prerequisite: BIOL 1406, 1407.
3440 Advanced Physiology
4:3:3
General physiology; muscle-nerve relations; digestive, circulatory, respiratory, excretory, nervous and endocrine systems.
Prerequisite: BIOL 1406, 1407 and CHEM 1411, 1412. (Recommended: CHEM 3411, 3412).
3450 General Botany
4:3:3
Introduction to plant structure and function with emphasis on the seed plants.
Prerequisite: BIOL 1406, 1407.
3460 Invertebrate Zoology
4:3:3
Classification, natural history, phylogenetic relationships and economic importance of the invertebrate phyla. (Offered Fall semester)
Prerequisite: BIOL 1406, 1407.
3470 ' Genetics
General principles of heredity, including human inheritance.
Prerequisite: BIOL 1406, 1407. (Recommended: Statistics).
4101, 4401 Special Topics in Biology
1-4:A:0
Physiological, anatomical, taxonomic and ecological biology. Laboratory and/or library work and conferences with a faculty member. May be repeated for credit when the area of study differs. -
4160 Classicall Biological Literature
A survey of major written works in biology.
Prerequisite: Senior standing in biology.
4170 Current Biological Literature 1:1:0
A survey of modern biological works published in recent journals.
Prerequisite: Senior standing in biology.
4300 Undergraduate Problems
Individual investigation of a research problem in biology. Formal report to be approved by faculty members.
Prerequisite: Prior approval of faculty member, upperclass standing in biology.
4305 Systematic and Evolutionary Biology
3:3:0
A survey of evolutionary mechanisms from molecular to population levels. Consideration of speciation, adaptation and historical geology.
4405 Immunology
Organs, tissues, cells, and molecules of the immune response and their interactions.
Prerequisite: BIOL 2420
4406 Epidemiology 14:3:3
A study of the distribution and determinants of diseases and injuries in human populations. Laboratory utilizes a case history, approach.
Prerequisite: Microbiology (Recommended: Statistics).
4410 Parasitology . . . . . . . . . . $3: 3$
A study of the morpbology, life history and host-parasite relationships of parasites of man and other animals. (Offered Fall semester)
Prerequisite: BIOL 1406, 1407.
4430 Limnology
Fauna, flora, ecology and productivity of fresh water. (Offered spring semester)
Prerequisite: BIOL 1406, 1407.
4440 . Vertebrate Natural History $\quad$ 4:3:3
Collection, identification and natural history of area fish, amphibians, reptiles, birds and mammals. (Offered Spring semester)
Prerequisite: BIOL 1406, 1407.
4450 Marine Biology .............. 4:3:3'
Habitats and community relationships of marine plants and animals. (Offered Spring semester)
Prerequisite: BIOL 1406, 1407.
4460 Ecology . . . . . . . . $4: 3: 3$

Quantitative approach to both field and experimental studies. Interrelationships of organisms and their environment. (Offered Fall semester)
Prerequisite: BIOL 1406, 1407.
4470 Cell-Biology
Structural and physiological functions of cells at the biochemical and molecular level. Laboratory emphasis on structure and function of mammalian cells and tissues.
Prerequisite: CHEM 3411, BIOL 1407 (Recommended: CHEM.4411).

# Department of Chemistry and Physics 

Department Chair: Richard S. Lumpkin
217 Chemistry Building, Phone 880-8267
Professors: Akers, Cocke, Hansen, Melvin, Ortego, Pizzo, Whittle
Associate Professors: Dorris, Lumpkin, Shukla
Assistant Professors: Allin, Fearnley, Irwin
Laboratory Technical Coordinator: Williams
Laboratory Manager: Bradberry
Chemistry and Physics are fundamental sciences and are required in all science and engineering degree programs. The Department offers programs leading to B.S. and B.A. degrees in Chemistry and the B.S. degree in Physics. In addition, the department offers preprofessional programs to prepare students for entrance into various professional programs such as medicine, dentistry, veterinary medicine, and pharmacy. The Chemistry and Physics Department has active research programs in several areas including environmental chemistry, surface chemistry, computational chemistry, materials science, polymer chemistry, fungal fatty acid compositions, transition metal coordination chemistry, molecular spectroscopy, organic reaction mechanism and nuclear physics. Undergraduate students are strongly encouraged to take advantage of the opportunity to participate in one or more of these programs. The Department has been approved by the Committee on Professional Training of the American Chemical Society to award ACS approved degrees.

## Pre-Professional Programs

For details concerning pre-medicine, pre-dental and other pre-professional programs leading to professions in medicine, consult pg. 86 of this bulletin.

## Teacher Certification

Students wishing to teach chemistry, physics or integrated chemistry and physics in Texas public schools should consult with the department chair for detailed information.

## Bachelor of Science - Chemistry Major*

The degree of Bachelor of Science in Chemistry will be awarded upon completion of the following requirements.
A. General Requirements: See core curriculum.
B. Science and Mathematics: BIOL 1406, 1407 or GEOL 1403, 1404

## Physics

Physics is concerned with the basic principles of the universe and is the foundation upon which the other physical sciences-astronomy, chemistry and geology-are based. At the most fundamental level, the study of physics is subdivided into several basic areas of interest, including: mechanics, thermodynamics, electricity, magnetism, optics, quantum effects, elementary particles and relativity.

The study of physics offers a great variety of opportunities: A good foundation in physics can prepare a student for specialization in some area of research, or it can provide an excellent background for entering such varied fields as engineering, computer science, mathematics, communications, meteorology, oceanography, law, medicine and teaching.

The emphasis of the Lamar University physics program is on quality instruction at the undergraduate level. Undergraduate students are strongly encouraged to participate in research activities directed by faculty members.

The program of study in physics is one of the most flexible in the University. It offers many options and electives, that make it possible to get a good foundation in physics as well as the necessary background to go into many other fields. The undergraduate degree offered is the Bachelor of Science (B.S.).

## Bachelor of Science - Physics Major

This degree plan places a strong emphasis on physics and mathematics. It can be tailored to meet the needs of students preparing for graduate school or employment in a variety of fields. Many students with B.S. degrees in physics from Lamar University have been highly successful graduate students in physics at some of the best universities in the U.S. Others have succeeded as engineers, mathematicians, physicians, medical researchers, lawyers, teachers, etc. Faculty advisors help plan programs to satisfy the needs of individual students.

The degree of Bachelor of Science in Physics will be awarded upon completion of the following requirements:
A. General Requirements:

See core curriculum, General Education Requirements - Bachelor Degrees, and the Minimum Standards for Undergraduate Majors in the College of Arts and Sciences.
B. Science and Mathematics:

CHEM 1411, 1412
MATH 2413, 2414, 2415 .
Differential Equations (MATH 3401)
C. Physics Core:
(Most students will take PHYS 1370, Mathematical Methóds in Physics, as a preparation for PHYS 2425 and 2426)
PHYS 2425, 2426 Introductory General Physics
PHYS 3430 Analytical Mechanics
PHYS 3450 or 3350 Waves and Modern Physics
PHYS 3380 Electricity and Magnetism
PHYS 4320.Quantum Mechanics
D. Electives:

Additional physics electives to attain at least 32 semester hours of physics
Additional general electives to attain a total of 120 semester hours (not including the required semester of PEGA).

## Physics as a Second Major

Physics may be selected as a second major for students wishing to broaden their education. The most popular options are to combine Physics with Engineering or Chemistry. Combinations are also available with Computer Science and Mathematics. A student may choose one degree with a double major or two separate degrees. While a second degree usually requires an additional semester of course work, the double major can be accomplished very efficiently. A Physics advisor can give you specific details on your choice of the field combinations.

## Minor in Physics

> A student minoring in physics must complete 20 semester hours of physics, including general physics, modern physics and six additional semester hours of physics at the junior-senior level.

## Chemistry Courses (CHEM)

[^6]1411 General Chemistry ..... 4:3:3Mathematics-based review of chemical laws and theory for science, engineering and preprofessional majors.Prerequisite: High school chemistry or CHEM 1375 with grade of " $C$ " or better; and MATH 1314, or two years ofhigh school algebra and SAT math scores or 500 or better.
1412 General Chemistry ..... 4:3:3A continuation of CHEM 1411. Properties of the elements. Elementary qualitative analysis and theories of solu-tions and equilibrium.Prerequisite: CHEM 1411.
1460 Honors General Chemistry ..... 4:3:3Subject matter similar to CHEM 1412. Oral presentations and/or research projects are required. Classroom dis-cussions emphasized.Prerequisite: Membership in Honors Program and permission of department chair.
2401. Quantitative Analysis4:3:5Theory and practice of analytical chemistry utilizing gravimetric and titrimetric techniques.Prerequisite: CHEM 1412 with a grade of " $C$ " or better.
3331 Inorganic ..... 3:3:0Generalization involving atomic and nuclear theory; properties of the elements with emphasis on periodicity;non-aqueous solvents, acids, bases, oxidation-reduction, etc.Prerequisite: CHEM 1412 with grade of "C" or better.

4351 Organic Polymers ..... 3:3:0Chemistry of industrial polymerization of compounds, petro-chemistry or organic monomer preparation andchemical characteristics of organic polymers. Industrial field trip(s).Prerequisite: CHEM 3412, 4311 or 4411 or parallel.
4311 Physical ..... 3:3:0Modern chemical theory as applied to gases, liquids, solids and solutions.Prerequisite: CHEM 1412, PHYS 1402 or 2426, MATH 2415 ar 2377 or parallel.
4312 Physical3:3:0A continuation of CHEM 4311.Prerequisite: Chm 4311 or equivalent.
4341 Inorganic ..... 3:3:0The quantized atom, valency and the chemical bond, and coordination chemistry with applications to hiologicalsystems.Prerequisite: CHEM 4311.
4360 Honors Environment \& Ecology3:3:0
A multi-disciplinary survey of the many dimensions of protecting our natural resources and quality of life. Topics include ecological systems, threats and damage to the environment and alternatives, national and international regulatory agencies and standards, and activities of private environmental groups.
Prerequisite: Membership in Honors Program and permission of department chair.
4411 Biochemistry. I. ..... 4:3:4Structures chemistry and functions of biological compounds. A survey of the detailed structures, chemistry andfunctions of the various classes of biologically important compounds.Prerequisite: CHEM 3412.
4412 Biochemistry II ..... 4:3:4A detailed survey of metabolic pathways and processes.Prérequisite: CHEM 4411.
4461 Instrumental Chemical Analysis ..... 4:3:4Instrumental techniques of chemistry. Theory and practice in optical, electrometric and chomatographic meth-ods.
Prerequisite: CHEM 2401, 3412, 4311.
4481 Environmental Analysis ..... 4:3:4The causes of environmental pollution, how environmental samples are collected and analyzed, and current gov-ernmental regulations concerning pollutants.
4271, 4371, 4471 Introduction to Research ..... 2-4:A:0
$\therefore$ Problems are on the undergraduate level and emphasizes research techniques. With approval of the departmenthead, these courses may be repeated for credit.
Prerequisite: Minimum of eight șemester hours of chemistry above the freshman level and permission of instruc-tor.1-4:A:0Topics in under-graduate analytical, inorganic, organic and physical chemistry or biochemistry. Library and/orlaboratory work and conferences with a faculty member. With permission of the department head, student mayrepeat the course for credit when the area of study is different.
Physics Courses (PHYS)
1370 Mathematical Methods in Physics ..... 3:3:0
Mathematics applied to physics problems, graphical analysis, vector operations, fields and potentials. Prerequisite: Registration in or credit for MATH 2413.
1311 Descriptive Astronomy ..... 3:3:0
A survey of facts and an introduction to important astronomical theories. The solar system, stars, nebulae and star systems:
1401 General Physics, Mechanics and Heat ..... 4:3:2
Designed for majors in the physical or natural sciences. Emphasis is placed upon understanding and application of basic physical laws. Prerequisite: MATH 1316 or high school trigonometry.
1402 General Physics, Sound, Light, Electricity and Magneticsm ..... 4:3:2
A continuation of PHYS 1401.
Prerequisite: PHYS 1401.
1405 Conceptual Physics ..... 4:3:2
Designed for non-science/non-engineering majors. The basic interactions in nature, how things move and why, are studied.
1407 Conceptual Physics ..... 4:3:2
Designed for non-science/non-engineering majors. Topics covered are heat, vibrations and waves, sound, light. PHYS 1405 is NOT a pre-requisite for PHYS 1407.
2170 .Supplemental Laboratory ..... 1:0:3
Designed to allow a transfer student to make up one laboratory deficiency at the introductory level. Departmental approval is requined to enroll. ..... 4:3:3
Mechanics, vibrations, heat.
Prerequisite: Registration in or credit for MATH 2414 and permission of department chair.
2426 Calculus Based Physics II ..... 4:3:3Electricity, magnetism, sound waves, optics.Prerequisite: PHYS 2425 and registration or credit for MATH 2414.
3310 Physics Experiments ..... 3:1:6Selected experiments in mechanics, electromagnetics, waves and nuclear physics which reach beyond the scopeof introductory laboratories.Prerequisite:'8 hours of introductory physics including a laboratory component.
3350 Waves and Modern Physics ..... 3:3:0
Conservation laws; special relativity; quantum effects; atomic structure; X-rays, nuclear and solid state physics. Prerequisite: PHYS 2426 or 1401, 1402 and MATH 2415.
3380 - Electricity and Magnetism ..... 3:3:0Electrostatic fields; potential; capacitance; dielectrics; electromagnetic waves. Maxwell's equations; conductionin gases; thermoelectricity.Prerequisite: PHYS 2426 or 1401, 1402 and credit for or registration in Differential Equations.
3390 Statistical Physics ..... 3:3:0
Temperature and thermometry; internal energy, entropy and thermodynamic. potentials; introduction to thekinetic theory of gases and the Maxwell-Boltzmann, Bose-Einstein and Fermi-Dirac statistics.Prerequisite: PHYS 3430, Differential Equations and credit or registration in Modern Physics.
3430 Analytical Mechanics ..... 4:3:3Use of vector notation in formulating and applying Newton's laws and the principles of momentum and energy.Dynamics of particles and rigid bodies emphasized. Statics treated briefly.Prerequisite: PHYS 2425 or 1401-1402 and credit for, or registration in, differential equations.
3450 Waves and Modern Physics ..... 4:3:3
Conservation laws; special relativity; quantum effects; atomic structure; X-rays, nuclear and solid state physics. Prerequisite: PHYS 2426 or 1401, 1402 and MATH 2415.
3460 Elecirical Measurements ..... 4:2:4Theoretical and practical definitions of electrical units; data handling and analysis; precision DC measurementof resistance, potential difference and current; galvanometer characteristics; AC bridge measurement of self andmutual inductance, capacitance and frequency; magnetic measurements.
Prerequisite: PHYS 2426 or 1401, 1402 and MATH 2415.
4101, 4201, 4301 Special Topics in Physics ..... 1-3:A:0Topics in undergraduate mechanics, electromagnetism, energy conversion or particle physics. Library work andconferences with a faculty member. Student may repeat the course for credit when the area of study is different.
4210 Research I ..... 2:0:6Introduction to Physics Research. Starting a research investigation defining a problem, conducting literaturesearch, assembling resources and initiating a project.Prerequisite: Modern Physics and ( 3430 or 3380 ).2:0:6Introduction to Physics Research. Completing a project started in PHYS 4210. Completing the project and writ-ing a report in publication form.Prerequisite: PHYS 4210.
432D Introductory Quantum Mechianics ..... 3:3:0
Basic concepts of quantum mechanics. Schrodinger's equation; wave functions. Prerequisite: PHYS 3430, Madern Physics and Differential equations:4:3:3Physical and Quantum Optics. Propagation of light; interference; diffraction; optics of solids; thermal radiationand light quanta;:optical spectra; lasers.Prerequisite: Modern Physics and Differential Equations.

# Department of English and Foreign Languages 

Department Chair: Sallye J. Sheppeard
Director of Freshman English: Joseph Nordgren
Director of Writing Center: Don Carey
Director of English as
a Second Language: Jesse Doiron

*retired, part-time
The Department of English and Foreign Languages emphasizes excellent teaching in a variety of languages and literatures. The Bachelor of Arts and Master of Arts degrees are available in English. Scholarly interests of members of the department include old and middle English, the Renaissance, Shakespeare, eighteenth century studies, English and American romanticism, the Victorian age, contemporary English and American literature, African American literature, and West Indian literature. In addition to the study of English and American literature through courses organized by genre, period, and individual author, the student may explore the history and structure of language and the crafts of both creative and technical writing. The Bachelor of Arts degree is available in both French and Spanish, enabling the student to acquire competence in conversation and composition in these languages as well as familiarity with their literature and culture. The department also offers courses in German, a minor in philosophy, and an ESL Endorsement program.

Majors frequently certify for secondary public school teaching in conjunction with earning the Bachelor of Arts degree in English, French or Spanish. However many others pursue the degree as part of their liberal arts educational goals and go on to careers in business or government service or to graduate study or law school. A degree in a foreign language is especially valuable for those anticipating foreign service employment in the public or private sector. The English writing concentration as well as foreign languages and philosophy can combine with other majors to improve marketability.

## Bachelor of Arts - English

The degree of Bachelor of Arts in English combines general requirements, including the Core Curriculum, with its emphasis on ways of knowing, and the more specialized study within the major:

## A. General Requirements:

Core Curriculum, 48 hours*
*Note: English majors must take COMM 1315, 1360, 2373, or 3310
Academic Foundations Requirements, 19 hours, including:
Foreign Language ( 6 hrs beginning \& 6 hrs intermediate)*

* Note: All foreign language hours must be the same language; foreign language hours may not be used to satisfy core curriculum COMM/ Foreign Language option)
HIST 2321 and 2322
ENGL 4110
B. Major: 36 hours beyond the 9-hour core curriculum requirement in English composition and literature, including:

Three additional hours selected from English 2322, 2326, 2331, 2371, or 2376
English 3326 (should be taken in conjunction with beginning of advanced course work)
English 4300 or 4312
Advanced American Literature prior to 1865 , three hours
Advanced American Literature after 1865, three hours
Advanced British Literature prior to 1800, three hours
Advanced British Literature after 1800, three hours
Advanced World Literature prior to 1300 , three semester hours
Advanced World Literature after 1300, three semester hours
Advanced Multicultural Literature, three hours
Advanced Literature Elective, three hours*
Approved Advanced Departmental Elective, three hours**
*Students may take a genre course such as The Short Story or The Drama to satisfy this elective but not to satisfy other advanced literature course requirements.
***Requires written'approval of Department Faculty Advisor or Department Chair.
C. Minor: An approved minor of 18 semester hours, including at least six semester hours of advanced courses. Marketable minors in areas such as business or computer science are encouraged.
D. Elective Courses, 15 hours ${ }^{\star *}$
**Nine- to twelve-hours of elective courses may be used to secure a Writing Emphasis Certificate in accordance with the policies outlined below.

## Writing Emphasis Programs

Students from any academic discipline who wish to better prepare for employment in business, the professions, or government service may be interested in pursuing one of three Writing Emphasis Program options:
*Technical Writing Emphasis. This program emphasizes mastery of written communication skills, particularly those required in the authoring and editing of reports, proposals, manuals, news releases, and other documents; and provides hands-on experience in producing such documents on microcomputers.

Course work in this technical writing program should complement virtually any major. Students completing a nine- to twelve-hour sequence from ENGL 2370 Introduction to Professional Communication, ENGL 3310 Technical Report Writing, ENGL 4355 Editing Technical Communications, ENGL 4360 Documentation Design, and ENGL 4365 Internship, will earn a. Technical Writing Emphasis Certificate.
*Creative Writing Emphasis: Students interested in the craft of creative writing may pursue their interest by completing a nine- to twelve-hour sequence from the following courses: ENGL 3350 Creative Writing: Poetry; ENGL 3350 Creative Writing: Fiction; ENGL 4345 Writing Seminar: Poetry; ENGL 4345 Writing Seminar: Fiction. Students completing this sequence will earn a Creative Writing Emphasis Certificate.
*General Writing Emphasis: Students wishing to master a variety of writing types may pursue their interest by completing any nine- to twelve-hour combination of courses from ENGL 2370, 3310, 3326, 3350, 4326, 4345, 4355, and/or 4365. Students completing this option will earn a General Writing Emphasis Certificate.
*Students qualifying for this certificate should notify the Department of English and Foreign Languages in writing at the beginning of their graduation semester.'

The Department of English and Foreign Languages is a member of the Associated Writing Programs and is registered in the AWP Official Guide.

## Teacher Certification - English

Students wishing to certify for a provisional certificate-secondary with English as the primary teaching field should major in the Department of English and Foreign Languages and receive a Bachelor of Arts degree in English with certification. Requirements for the English degree with certification are as follows: Option I (one teaching field) - $\mathbf{3 6}$ hours of English courses (in addition to the nine hours in the core) and 12 hours in a supporting field; Option II (two teaching fields)- 36 hours of English (in addition to the nine hours in the core) and 24 hours in a second teaching field.

Those receiving the Bachelor of Arts in English with certification complete the same core curriculum and academic foundations requirements outlined for the Bachelor of Arts in English and similar "major" studies, with the following five required courses:

ENGL 3321 Issues in Language and Literature
ENGL 4300 History of the Language (may not use ENGL 4312)
ENGL 4310 The Teaching of Writing and Research Techniques
ENGL 4326 Studies in Rhetoric (may not use ENGL 3326)
Advanced World Literature, three hours only
In addition, these students must complete twenty-one hours in professional pedagogy, including student teaching, must comply with all current departmental/university. ExCET preparation/remediation policies, and must pass appropriate ExCET Examinations.
Note: For requirements for elementary teacher certification with English specialization, consult the College of Education and Human Development.

(CC No. 2311)Prerequisite: ENGL 1301 and either ENGL 1302 or 1374; or ENGL 1360.
2371 Masterworks of Asian Literature ..... 3:3:0Six-to-ten major works of Asian literature, including writers from China, Japan and Vietnam.Prerequisite: ENGL 1301 and either ENGL 1302 or 1374; or ENGL 1360 and advanced writing course.
2376 African-American Literature ..... 3:3:0Significant contributions to American literature from Colonial times to the present.Prerequisite: ENGL 1301 and either ENGL 1302 or 1374; or ENGL 1360 and advanced writing course.
3310 Technical Report Writing3:3:0
Supervised preparation of technical and scientific reports according to standard usage recommended by profes-sional scientific and engineering societies.
3316 Poetic Analysis ..... 3:3:0Forms and techniques and the critical evaluation of poetry.
3320 Children's and Adolescent Literature ..... 3:3:0
Literature about or for children and adolescents and the special features and concerins of the genre. May be takenfor credit more than once if the topic varies.
3321 Issues in Language and Literature . ..... 3:3:0
An overview of the discipline of English treating both theoretical and practical questions related to grammar,composition, and literature. Students are encouraged to begin advanced-level work before enrolling-in thiscourse. .
3322 The American Literary Renaissance: 1820-1860 ..... 3:3:0
Major authors of the period from Poe to Melville.
3324 The Development of American Realism: 1860 to 19003:3:0
Major authors of the period from Whitman to Norris.
3326 Writing the Critical Paper ..... 3:3:0
A writing-intensive course focusing on the rationale and techniques for writing critical papers in the field of lan-guage and literature. English majors and minors are encouraged to take this course at the beginning of theirupper-division studies.
3340 Mythology ..... 3:3:0Mythologies of the ancient Greeks, Romans, and Norse peoples and other cultures.
3350 Creative Writing ..... 3:3:0
A workshop approach to the writing of poetry, fiction and drama. May be taken for credit more than once whenthe genre focus varies.
3360 The Short Story ..... 3:3:0The technique of the short story; its historical development; study and analysis of great short stories.
3370 The Drama ..... 3:3:0
The historical development of the drama from Aeschylus to the present. Intensive study of selected plays.
3380. Studies in the British Novel ..... 3:3:0
The tradition of the British novel, eighteenth century to the present.
3390 American Novel ..... 3:3:0
History, growth and technique of the American novel.1:1:0
A capstone course for seniors, surveying the discipline and profession and relevant areas of language and litera-ture.
4300 History of the English Language ..... 3:3:0
Theory and nature of language. Studies in the growth of English and American forms.

2303 Logic. ..... 3:3:0Nature and methods of correct reasoning; deductive and inductive proof; logical.fallacies..
2306 Ethics ..... 3:3:0
A historical examination of theories and principles of social and personal conduct ranging from Plato and. Aristotle to Mill and Nietzsche. Applications to current issues.
3360 Philosophy of Religion ..... 3:3:0
Analyzes basic assumptions and practices of the Western religious tradition, including religious experience, mythographies, the problem of evil, proofs for the existence of God, mysticism. May comparatively survey othergreat religious traditions, including Buddhism, Islam, and Hinduism.
4320 Philosophy of Science ..... 3:3:0A survey and analysis of scientific developments influenced by philosophy; scientific methodologies investigat-ed.
4330 Philosophy of Art ..... 3:3:0Deals with the issue of creativity in the arts and sciences. Survey of major aesthetic theories. Students pursueand present individual projects.
French Courses (FREN)
1311 Beginning French I ..... 3:3:0
Language course for beginners. Includes grammar, pronunciation, conversation, reading, dictation and written exercises, and language lab practice. (CC No. 2311)
1312 Beginning French II ..... 3:3:0
Continuation of material in FREN 1311. (CC No. 2312)
Prerequisite: FREN 1311 or equivalent determined by examination.
Review of grammar, reading, composition, conversation, including language lab practice. Prerequisite: FREN 1312 or equivalent.
2312 Intermediate French II ..... 3:3:0
Prerequisite: FREN 2311 or equivalent.
3300 French Conversation ..... 3:3:0Improvement in oral fluency through discussion of texts and oral reports. Required of all majors. (This coursemay not be substituted for FREN 2312 to meet the language requirement for the Bachelor of Arts degree.) May berepeated for credit with approval of department.Prerequisite: FREN 2311 or equivalent.
3350 French Literature Survey I ..... 3:3:0An overview of French literature, authors and literary movements from the Middle Ages through the 18th centu-
ry. May be repeated for credit when the texts vary.
Prerequisite: FREN 2312 or equivalent.
3360 French Literature Survey II ..... 3:3:0An overview of French literature, authors, and literary movements since 1800. May be repeated for credit whenthe texts vary.
Prerequisite: FREN 2312 or equivalent.
3370 Advanced Grammar and Composition ..... 3:3:0French grammar, with extensive written composition. Secondary stress on pronunciation. May be repeated forcredit with approval of the department chair.
Prerequisite: FREN 2312 or equivalent.
3380 .French Phonetics ..... 3:3:0
The French sound system. Laboratory exercises to improve pronunciation. May be repeated for credit withapproval of the department chair.
Prerequisite: FREN 2312 or equivalent.
3390 French Culture and Civilization ..... 3:3:0French civilization with readings and discussion of topics sucb as French bistory, politics, education, art, fash-ion, cuisine, technology, work and leisure.Prerequisite: FREN 2312 or equivalent.
4310. French Theater ..... 3:3:0Selected French plays, usually to include tragedy, comedy and drama of various eras, but may also concentrateon a single playwright, period or special topic. May be repeated for credit when the topic varies.Prerequisite: FREN 2312 . or equivalent.
4330 Special Topics ..... 3:3:0Study in a specific topic in French language and/or literature. May be taken more than once for credit whentopic varies.4390 French Novel3:3:0Major French novels, usually to cover writers and works from various eras, hut may also concentrate on a singlenovelist, period or special topic. May be repeated for credit when the topic varies.Prerequisite: FREN 2312 or equivalent.
German Courses (GERM)
1311 Beginning German I ..... 3:3:0
Pronunciation, conversation, reading, dictation, grammar. Use of tapes.
1312 Beginning German II ..... 3:3:0
Continuation of material in GERM 1311.
Prerequisite: GERM 1311 or equivalent determined by examination.
2311 Intermediate German I ..... 3:3:0
Review of grammar, reading, composition and conversation. Use of tapes.
Prerequisite: GERM 1312 or equivalent.
2312 Intermediate German II.
Prerequisite: GERM 2311 or equivalent.
Spanish Courses (SPAN)
1313 Beginning Spanish I. ..... 3:3:0
Pronunciation, conversation, reading; dictation, grammar, including language lab practice. (CC No. 2311). ..... 3:3:0
Continuation of material in SPAN 1313. (CC No. 2312)
Prerequisite: SPAN 1313 or equivalent determined by examination.
2311 Intermediate Spanish I ..... 3:3:0
Review of grammar, reading, composition, conversation. Language lab practice.Prerequisite: SPAN 1313 or equivalent.
2312 Intermediate Spanish II ..... 3:3:0Prerequisite: SPAN 2311 or equivalent.
3300 Spanish Conversation ..... 3:3:0Required of all majors.Prerequisite: SPAN 2311 or equivalent.(NOTE: This course may not be substituted for SPAN 2312 to meet the language requirements for the Bachelor ofArts degree.)
3310 Culture and Civilization of Spain ..... 3:3:0Geography, history, government, art, economic resources and psychology of Spain. Lectures, readings, oral andwritten reports.Prerequisite: SPAN 2312 or equivalent.
3320 Culture and Civilization of Spanish America ..... 3:3:0The geography, history, government, art, economic resources and psychology of the Spanish-speaking countriesof Latin America. Lectures, readings, oral and written reports.3330 Survey of Spanish-American Literature I3:3:0Hispanic America's outstanding writers and their works up to the modernista movement. ## Global Studies

Several international initiatives are associated with the Department of English and Foreign Languages. As Global Studies Director, Dr. Kenneth Rivers works with a Global Studies Task Force to promote existing and to develop new initiatives. Lamar University recognizes the importance of internationalized education in enlarging the
student's perspective, contributing to the character of the institution, and enhancing career possibilities. Throughout the university many activities occur in addition to those identified below. The Office of Global Studies is an information source for such activities.

A language study abroad program enables students to take courses at foreign universities. Language and civilization classes are held every summer at institutions such as the University of Paris-Sorbonne in France, the University of Madrid in Spain, the University of Heidelberg in Germany, the SFSU center in Tokyo, Japan, and other locations as well. Extensive cultural excursions to museums, cathedrals and historical sites are included in all programs. Courses may be taken for enrichment or for Lamar credit. Courses may not be substituted for other courses specifically required for the major. Contact Dr. Rivers (409-880-8595) or the department office (409-880-8558) for information. Lamar offers other foreign travel programs, and those interested are urged to contact the Office of Public Services and Continuing Education (880-2294).

## Organizations

Organizations such as Circulo Hispano (Spanish Circle) and Le Cercle Français (French Circle) promote interest in other cultures and languages. Both students and community members are involved. Lamar students and faculty hold a Worldfest each spring to publicize the various international groups and activities on the campus. A chapter of Phi Beta Delta Honor Society for international scholars was established at Lamar in 1992.

## Lamar Language Institute

Director: Jesse Doiron
106 Montagne Center, Phone 880-8586
The Lamar Language Institute provides intensive English language training for col-lege-bound foreign students, non-native University students who need part-time developmental study, and non-native English users in the community. The LLI also facilitates cultural adaptation and provides testing and advising services for these students. Jesse Doiron, Director of Lamar Language Institute, coordinates activities. Ms. Sandy Drane, Director of International Student Services, is responsible for admission of all undergraduate and graduate students at the university, and LLI activities are coordinated thirough that office. See section on "International Student Admission" in this catalog.

## English Courses for Non-Native Students (ESL)

Students for whom English is a second language are required to demonstrate English proficiency by scoring an average of 80 on the objective portions and a minimum of 3.0 on the writing section of the English proficiency/placement test required of entering students as part of the orientation. Those students whose scores fall below the minimum scores required are referred to the Lamar Language Institute for placement in appropriate developmental courses. Registration and fees for these courses are separate from those for degree credit-bearing courses taken in the University. A student placed in developmental courses may not drop the courses.

After the satisfactory level of proficiency is attained, students who must satisfy degree requirements in English may do so by completing the following courses:

## Freshman Composition:

ENGL 1378 and ENGL 1379 are parallel in content to the freshman composition courses taken by native speakers of English. These courses differ only in teaching methods that speak to distinctive needs of a non-native user of English.

ENGL 1378 is prerequisite to ENGL 1379, and the courses may not be taken concurrently. These six hours must be taken the first two long semesters in which the student is enrolled.
1378 Composition for Non-Native Speakers I
3:3:0
Intensive grammar review followed by study and practice in basic forms of expository writing needed for writing essay examinations, themes and term papers.
1379 Composition for Non-Native Speakers II
3:3:0
Basic forms of expository writing. The primary aim of the çourse is to assist the student to prepare for writing required research papers. Practice in library research.
Prerequisite: ENGL 1378.

## Literature:

ENGL 2374, 2375 or 2377 are courses that satisfy degree requirements in literature for the student for whom English is not a native language. ENGL 1378 or 1379 are prerequisite to all the literature courses. The literature courses may not be taken concurrently with developmental English courses or with ENGL 1378 and 1379.
2374 British Literature: Non Native
3:3:0
Six to ten major works in British literature, including representative works from most of the major periods. Applies toward the sophomore literature requirement for students for whom English is a second language. Prerequisite: ENGL 1378 and 1379.
2375 World Literature: Non Native
Six to ten major works of world literature in various genres, from classical antiquity to the present century. Applies toward the sophomore literature requirement for students for whom English is a second language. Prerequisite: ENGL 1378 and 1379.
American Literature: Non Native
3:3:0
Six to ten major works in American literature, including representative works from most of the major periods. Applies toward the sophomore literature requirements for students for whom English is a second language. Prerequisite: ENGL 1378 and 1379.

## Department of Geology

## Department Chair: Roger W. Cooper <br> 103 Geology Building, Phone 880-8236

Professors: Cooper, Jordan, Owen, Stevens, Westgate
Earth Science Coordinator: Westgate
The Department of Geology specializes in undergraduate instruction and offers bachelor's degrees in Geology and Earth Science. Graduates may be employed in industry (petroleum, mining, engineering, hydrogeology and environmental geology), by government agencies or may elect to pursue graduate training at another institution. Certification in Earth Science teaching is offered in conjunction with the College of Education and Human Development.

Geology faculty have a broad range of research and scholarly interests. These include stratigraphy, sedimentology, paleontology, petroleum geology, petrology, economic mineral deposits, environmental geology, and geochemistry as well as geology of the Gulf Coast, lunar geology, geology of the Big Bend region, computer applications to geology and earth science education.

A background in high school chemistry and physics, two units of algebra and a unit of trigonometry are recommended for prospective majors. Students with inadequate chemistry background must take CHEM 1375 to make up the deficiency. MATH 1314 may also be required of students with inadequate high school mathematics.

## Bachelor of Science - Geology

Advisors: Jordan, Owen, StevensThe Bachelor of Science in Geology will be awarded upon completion of the follow-ing requirements:A. General Requirements - minimum of 67 semester hours
See core curriculum, p. 15, plus calculus (six to eight semester hours), chemistry (eight semester hours) and physics (eight semester hours).
B. Geology Requirements - 49 semester hours. NOTE: A grade of " C " or better is necessary in a required geology course.
Physical and Optical Mineralogy - four semester hours
Physical Geography and Geomorphology with laboratory - four semester hours
Statistics and Data Processing - four semester hours
Structural Geology - four semester hours
Petrology - four semester hours
Sedimentology - four semester hours.

Prerequisite: GEOL, 1404 and permission of instructor.
Principles of paleontologic interpretation including classification, morphologic analysis and identification of invertebrate and vertebrate fossils. Application of paleontology to stratigraphic correlation. Field trip and special fee required.
Prerequisite: GEOL 1404 and permission of instructor.
4450 Applied Geoscience Seminar
Practical and applied computer based projects and oral presentations on various geological topics. prerequisite: 20 semester hours of Geology is recommended.

# Department of History 

Department Chair: John W. Sțorey
57 Maes Building, Phone 880-8511
Professors: Anderson, Carroll, Fritze, Gwin, Storey, Sutton, Wooster
Associate Professors: Stiles
Assistant Professors: Thompson
It is the purpose of the Department of History to impart a knowledge and understanding of the past to the students enrolled in the University. This objective is based upon the belief that such knowledge and understanding improve the quality of life of individuals and contribute to the welfare of our society. The department seeks to accomplish this objective through a program of continued study and research by its members and its students. Research interests of the department focus on both American and European history.

## Bachelor of Arts - History Major

The degree of Bachelor of Arts in History will be awarded upon the completion of the following requirements:
A. General Requirements:

See core curriculum, p. 15. In addition, students must complete a French, Spanish or German foreign language 2312 course, 6 semester hours of mathematics, and 6 semester hours of literature. The math courses must be selected from an approved list and must be at or above the level of MATH 1314. Three hours of methods of quantitative data analysis may be substituted for one course in mathematics with the approval of the department.
B. Major:

HIST 2321, 2322 - World History - six semester hours.
American History Surveys - six semester hours.
HIST 3390 - Historical Research - three semester hours.
Advanced United States History - six semester hours.
Advanced World (Non-United States) History - . six semester hours.
C. Minor:

An approved minor of eighteen semester hours, including at least six advanced semester hours.
D. Electives:

Sufficient approved electives to complete a total of 121 semester hours. Within the 121 -semester-hour program there must be a minimum of at least 120 semester hours of courses that may not include physical activity courses, health and wellness courses, and intern program courses.

## Teacher Certification - History

Students wishing to secure the Bachelor of Arts degree in history may at the same time complete the curriculum requirements for a provisional certificate-secondary, with a teaching field in history. For information concerning such a program, the student should consult advisors in the Department of History.

The mission of the Lamar University Department of Nursing is to educate qualified, competent nurses who are value-oriented and prepared for reality-based practice. Through community linkages, community-based service learning and the varied practice of our faculty and graduates, the Department promotes excellence in health care delivery to diverse racial, cultural, and ethnic populations.

Lamar University Nursing Programs, associate and baccalaureate degrees, are fully accredited by the Board of Nurse Examiners for the State of Texas and the National League for Nursing Accrediting Commission (NLNAC, 350 Hudson St., New York, NY 10014, (212) 989-9393). The Department of Nursing is represented by a local chapter (Kappa Kappa) in Sigma Theta Tau International Honor Society of Nursing. Students and graduates who meet the criteria may be offered the opportunity to become members of this prestigious honor society.

Associate Degree (AD) graduates are prepared as beginning practitioners to provide direct nursing care and coordinate care for defined numbers of clients with varying health care needs in structured settings. The level of responsibility of the AD graduate is for a specified work period (e.g., shift) and is consistent with the identified goals of care and established nursing standards, protocols, and pathways. The focus of care of the AD graduate is the individual and family as clients. AD graduates are also prepared to utilize technology and pursue life-long learning.

Baccalaureate Degree (BS) graduates are prepared to think logically by synthesizing information from various disciplines and analyzing problems critically, commensurate with the level of education. The BS graduate functions with a longitudinal focus across time from preadmission to discharge. The BS graduate is prepared to practice in structured, unstructured, and evolving health care settings. The focus of care is broad. The BS graduate is prepared to deliver health care to individuals and families as clients, as well as aggregates, communities and societies within the context of their environment. BS graduates are also prepared to incorporate research findings; utilize technology, pursue graduate education and life-long learning.

Students of nursing meet course requirements through didactic courses, laboratory assignments, and clinical experience in health care facilities under supervision of University faculty. Students are expected to adhere to rules and regulations of Lamar University and the various agencies to which they are assigned. Specific policies may be obtained from the Coordinator of Undergraduate Programs.

Graduates must pass the National Council Licensure Ex́amination for Registered Nurses (NCLEX-RN) in order to receive licensure to practice professional nursing. Graduates will be required to meet criteria established by the Board of Nurse Examiners for the State of Texas in order to take the NCLEX-RN examination.

## Admission and Progression in Department of Nursing Programs

Students enrolled at Lamar University must submit an application for Admission to Nursing programs. Students wishing to change their major to nursing must have a minimum cumulative GPA of 2.0, have met the TASP requirement, and be in good standing in the University.

Students not enrolled at Lamar must submit two separate applications: one for admission to Lamar (obtained from the Office of Admissions), and one for admission to the specific nursing program (obtained from the Advising Center, Room 257, Ward Health Sciences Building).

Applications for admission to the Nursing Programs must be received by March 1 prior to the fall semester admission is sought. Applications to the LVN-Mobility Program must be received by October 1 prior to the spring semester for which admission is sought. In addition, the following items must accompany the application:

- Application fee
- Official transcript
- Official transcript evaluation by Lamar University
- Written documentation of passing all components of TASP.

Applicants are urged to follow application instructions carefully to ensure processing by the admission committee. Students are responsible for assuring that their applications are complete, including transcript evaluation. Incomplete applications will not be considered. Students applying to both programs must submit separate applications and required fees. Students seeking readmission are also required to submit an application fee. A late fee will be charged for all applications submitted after the application deadline. Late applications will be considered based upon space availability.

Applications for Admission are evaluated on the following basis:

1. Admission to the University (Admissions section of this bulletin.)
2. Transcript evaluation of previous college work. Specified test scores may be required.
3. Evidence of physical and emotional capability of completing the program of instruction and clinical practice. Health examinations are required. Forms are available with application forms.
4. Admission may be limited by available space.
5. Priority for admission to the respective nursing programs will be given to students who have met the admission criteria and standards at the end of the Spring semester preceding Fall admission. If space is available after the initial qualifying date, additional consideration will be given to students at the end of Summer I and Summer II respectively.
6. Preference is given to students who have completed preadmission courses at Lamar University in Beaumont, Texas.
7. See program of choice for additional requirements.

Additional costs above tuition and fees are involved in nursing programs. Uniforms, equipment, instruments, liability insurance, health examinations, special testing fees, course packet fees, additional laboratory fees and transportation to clinical facilities are the student's responsibility. Financial aid is available for eligible students (see Financial Aid and Awards section of this bulletin).

Liability insurance and health examinations must be renewed each year of Nursing programs. Students may be assigned to clinical experiences during day, evening, night or weekend hours. Clinical agencies may require additional health examinations, dress codes or conformity with other policies. Students will be informed in advance of such requirements.

Official transcript evaluation by Lamar University is required for all transfer credits. Transfer credits which are not equivalent to Lamar credits must be evaluated on an individual basis by the appropriate department chair.

For progression in the Program, a minimum grade of " C " must be maintained in Énglish composition, nursing and science courses, and an overall GPA of 2.0 must be maintained in all course work. A student who fails to perform satisfactorily in clinical practice will receive a failing grade in the nursing course regardless of the theory grade.

Under no circumstances may a nursing course be repeated more than once. The student may repeat no more than two different nursing courses. A third failure will constitute program failure.

Due to the required sequencing of the Nursing program courses, students who fail a nursing course will not be allowed to progress to the next semester courses. In addition, they will not be able to re-enter the program until the following year when the appropriate course sequence is offered. Re-admission to the program is not guaranteed and is based upon space availability and assessment of previous grades.

Students requesting readmission or transfer must submit an application for readmission to the Admissions Committee by October 1 for Spring admission and March 1 for Summer and Fall admission.

## Eligibility for Graduation

In addition to the University graduation requirements and compliance with the written degree plan, students must pass a nationally standardized examination in order to graduate from the respective program. Further explanation is provided in the Student Information Guide.

## Bachelor of Science - Nursing

Coordinator of Undergraduate Programs: Iva Hall
226 Health Sciences Building
Completion of the program leads to a Bachelor of Science in Nursing degree. Recipients of the degree are eligible to make application to take the NCLEX-RN exam to become a Registered Nurse (RN).

The baccalaureate program also provides an opportunity for Registered Nurses who wish to pursue a Bachelor of Science Degree in Nursing. This special tract is called the RN-BSN Articulation Curriculum. Please refer to separate admission requirements.

To be considered for admission the student must:

1. Have completed all prerequisite courses with a minimum grade of " C "
2. Have an overall grade point average (GPA) of 2.00
3. Have a minimum grade of " C " with an overall grade point average (GPA) of 2.00 in the sciences (Biology and Chemistry courses)
4. Also see Admission to Department of Nursing criteria.

Introduction to nursing skills and procedures which provide therapeutic interventions necessary to support the nursing process in the clinical setting. Focuses on development of basic primary care skills necessary for the provider of care role in non-acute settings across the lifespan.
Prerequisites: Preadmission courses, admission to BSN program or departmental consent.
Corequisites: NURS 1671, 1373, 1174

## 1276 Tech/Psychomotor Skills II

Continues development of skills presented in Technical/Psychomotor Skills I with skill progression necessary to support the nursing process in acute and non-acute care settings. Focuses on development of more complex technical/psychomotor skills needed to carry out the provider of care role with cilients across the lifespan in various stages of health.
Prerequisites: NURS 1272, 1373, 1174, 1671 or departmental consent.
Corequisites: NURS 1675, 1378, 2177.
1373 Basic Pathophysiology
Study of basic pathophysiology with emphasis on mechanisms of disease processes. Focus is on basic understanding of alterations in health related to selected disease processes across the lifespan.
Prerequisites: Preadmission courses, admission to BSN program or departmental consent.

- Corequisites: NURS 1671, 1272, 1174.

## 1378. Pharmacology

Introduction to pharmacology, principles of therapeutics, and clinical applications with clients across the life span.
Prerequisites: NURS 1671, 1272, 1373, 1174 or departmental consent.
Corequisites: NURS 1675, 1276, 2177.
1671 Provider of Care I
Focuses on health promotion and disease prevention in individuals and families'across the life span. Concepts introduced include critical thinking, nursing process, adaptation, caring, relationship skills, scientific problern solving skills, basic primary care skills, cultural diversity, and teaching-learning techniques.
Prerequisites: Preadmission courses, admission to BSN program or departmental consent.
Corequisites: NURS 1272, 1373, 1174.

## 1675 - Provider of Care II

Continues to build on and integrate the concepts introduced in. Provider of Care I. Major Emphasis is given to application of the systematic use of scientific problem solving skills, evaluation of health care outcomes, and development of relationship skills in caring for clients across the life span with acute and chronic illness.
Prerequisites: NURS 1671, 1272, 1373, 1174 or departmental consent.
Corequiisites: NURS 1276, 2177, 1378.

## 2172 Tech/Psychomotor Skills III

Analysis of informatics as it relates to the three major roles of the nurse: provider of care, coordinator of care, and member of the profession: Provides the nurse with technological/psychomotor skills necessary to access and utilize informatics to support clinical and consumer decision making, including research oriented literature searches.
Prerequisites: NURS 1671, 1272, 1276, 1373, 1174 or departmental consent.
2571 Community Focus I
Emphasizes nursing care of individuals and families utilizing health promotion and disease prevention theory.
Focuses on'developing the ability to determine health status and health needs. Clinical opportunities will include care for childbearing families and newborn infants, in structured, acute care, and community settings.
Prerequisites: NURS 1675, 1276, 2177, 1378 or departmental consent.
Corequisites: NURS 2172, 3273, 3374.

## 2579 . Provider of Care III

Continues to build on and integrate the concepts from Provider of Care I and Provider of Care II. Emphasis is given to continued application of the systematic use of scientific problem skills, evaluation of health care outcomes, and development of relationship skills in caring for clients across the life span with acute and chronic illness; including mental illness.
Prerequisites: NURS 1675, 1276, 2177, 1378 or departmental consent.

## RN-BSN Articulation Curriculum

Coordinator: Sandra Brannan 232 Ward Health Sciences Bldg., Phone 880-8822
This flexible program is designed for the career-oriented nurse seeking a Baccalaureate Degree in Nursing. The nurse must be registered in the State of Texas. Progression through the program is dependent upon the nurse's initial nursing preparation. Admission to Lamar University is required as well as admission to the RN-BSN Articulation Program. Transcripts are evaluated by Lamar University and the RN-BSN program coordinator. Attendance may be full or part-time.

There is no testing of prior nursing knowledge. Certain courses are held in an escrow account until the student has validated prior knowledge. Upon completion of NURS 1671, 2172, 3374, 3475, and 3576, the student will apply for "Application For Credit by Validation". to receive credit for these courses. A fee is required for each course. Credit by validation may not exceed 32 hours. The nurse will complete only the courses required to receive a baccalaureate degree. It is imperative to work closely with the coordinator of the program. Applications for the program are accepted throughout the year.

## Associate of Science - Nursing

## Coordinator of Undergraduate Programs: Iva Hall.

Completion of the program leads to an Associate of Science in Nursing degree. Recipients of the degree are eligible to make application to take the NCLEX-RN exam to become a Registered Nurse (RN).

The Associate Degree Program also provides àn opportunity for Licensed Vocational Nurses who wish to pursue an Associate of Science in Nursing. This special tract is called the LVN-ADN Mobility Curriculum. Please refer to separate admission requirements.

To be considered for admission, the student must:

1. Have completed all preadmission courses with a minimum grade of "C"
2. Have an overall grade point average (GPA) of 2.00
3. Have a minimum grade of " C " with an overall grade point average (GPA) of 2.00

## LVN/ADN Mobility Curriculum

Coordinator: Sandy Brannan<br>232 McFaddin Ward Health Sciences Bldg. Phone 880-8829

The LVN/ADN Mobility Curriculum is an alternate track leading to an Associate of Science degree in nursing. This track facilitates upward educational mobility for the experienced licensed vocational nurse (LVN). Students enrolling in this special track are required to be currently licensed in Texas as an LVN and have had recent employment in nursing. All preadmission courses must be completed with a grade of C or better. The student must be accepted as a student by the university and the Associate Degree Nursing Program. Applications to the nursing program are due October 1 each year.-Early academic advisement by the coordinator of the program is required.

# Department of Political Science 

Department Chair: Glenn H. Utter

56 Maes Building, Phone 880-8526
Professors: Castle, Drury, Utter, Vanderleeuw
Fax 880-8710
Associate Professors: Dubose, Lanier

## Assistant Professors: Davis, True

The Political Science curriculum provides all university students with knowledge and appreciation of national and state political processes and equips majors with a broad understanding of the various areas of the discipline to prepare them for graduate school and careers in law, government service, teaching, journalism, and business.

To accomplish these objectives, the Department offers courses of study which introduce students to the discipline and methods of Political Science and its subfields: American government and politics, political philosophy, international relations, comparative politics, and public administration and policy.

The Political Science faculty members have earned doctorates in a wide range of specializations within the broad areas of the discipline. The faculty's expertise is complemented by active involvement in scholarly research.

The Department of Political Science offers the following undergraduate degrees: Bachelor of Arts in Political Science, Bachelor of Science in Political Science, Bachelor of Arts in Political Science with Teacher Certification, and Bachelor of Science in Political Science with Teacher Certification. Additionally, the Department offers a PreLaw Program leading to Bachelor of Arts or Science degrees with intern credit.

## Minimum Academic Standards for Political Science Majors

The following minimum academic standards apply to students enrolled as a major in the Department of Political Science:

1. A grade of C or better in English composition courses is required.
2. A grade of C or better in all Political Science courses is required.
3. A 2.0 grade point average in the major is required for graduation.
4. An overall grade point average of 2.0 is required for graduation.
5. A student with a grade point deficiency of 10 or more will not be allowed to register as a Political Science major or transfer into Political Science programs.

## Political Science - Pre-Law

One of the traditional routes to law school is a four-year undergraduate degree in Political Science. Students may pursue either the Bachelor of Arts degree in Political Science or Bachelor of Science degree in Political Science as candidates for admission to a school of law. Both degrees retain the values of a liberal education (such as instruction in history, English, and foreign language) and the enhancement of technical skills (including computer science, accounting, and mathematics). With a large number of free electives and an 18 -hour minor, the Bachelor of Arts or Science in Political Science affords, considerable flexibility in meeting each student's unique educational and career needs.

Pre-Law Counselors in the Political Science Department specialize in advice to PreLaw students, maximizing the chance for success on the Law School Admission Test and assisting in the process of application to law school.

Juniors and seniors may also take part in thè State Attorney General's Internship Program and various legislative and local government internships.

## Legal Internships - Pre-Law

Exceptional students may qualify for a cooperative education program available in the legal profession. They earn up to six semester hours of elective internship credit in their junior and senior years while working half-days in local law firms. Law office experience is combined with academic assignments to develop skills useful to the potential lawyer. Admission to the program is by permission of the chair of the Department of Political Science.

# Department of Sociology, Social Work and Criminal Justice 

Department Chair: Lorene H. Stone
55 Maes Building, Phone 880-8538
Professors: Altemose, Birdwell-Sykes, Frazier, Ma, Smith, Stone, Wright
Associate Professors: Monroe
Assistant Professors: Daskalos, Frisbie, Gonzales, Love, Saur
Sociology, social work, and criminal justice share some common knowledge bases and are similar in many of their approaches to human behavior. The department strongly emphasizes personal academic counseling for all of its majors and encourages career-oriented education. In addition, the department offers courses in anthropology.

The degrees offered by the department are: the Bachelor of Science in Sociology, the Bachelor of Arts in Sociology, the Bachelor of Social Work, the Bachelor of Science in Criminal Justice and the Bachelor of Arts in Criminal Justice. Each bachelor's degree requires at least 121 semester hours. Students exempted from the physical activity requirement must submit elective hours approved by the major department in lieu of this requirement. The Social Work Program is fully accredited by the Council on-Social Work Education. A major in social work will entitle the graduate to apply for Texas Certification as a social worker.

## Departmental Academic Policies

1. A grade of " C " or higher for each course in the major field (including transfer courses) is required for graduation.
2. Each student's use of English is subject to review up to and including the semester in which he or she is scheduled to graduate. Any faculty member who identifies a departmental major having poor English skills will notify the student and the department chair in writing. The department chair will then review writing samples and consult with the Director of Freshman English. Based on the recommendations of the Director of Freshman English and the department chair, additional diagnostic procedures and course work may be required before the student is recommended for graduation.
3. Students who wish to transfer into the department as sociology, criminal justice, or social work majors must have a minimum 2.00 grade point average. All department majors must maintain a 2.00 or better G. P. A. to remain in their respective programs.
4. The departmental academic probation and suspension policy is identical to that of the College of Arts and Sciences and is available from the office of the dean or department chair:
5. Students who are majoring in this department and who are on academic probation or returning from academic suspension may not enroll in more than 12 semester hours (13-15 hours if a laboratory course and P.E: are taken) in any semester.
6. All departmental majors (full-time and part-time) must have satisfied both the University's and the College of Arts and Sciences' requirements for English composition and mathematics before registering for 300 - and 400 -level courses offered by the department.

## Pre-Law

As prospective candidates for admission to a school of law, students may pursue one of the bachelor's degrees offered by the department. The degree plan should include the following courses as electives or a minor:

> Criminal Justice 1306 - Courts and Criminal Procedures
> Criminal Justice 3300 - Criminal Law
> Criminal Justice 3310 - Criminal Procedure and Evidence
> Criminal Justice 3380 - Correctional Law
> Criminal Justice 4300 - Legal Research, Brief. Writing and Oral Advocacy
> Political Science 4370 - American Constitutional Law and Development
> Business Law 3310 - Business Law
> Business Law 4340 - Advanced Legal Principles

## Sociology

Program Director: Lorene H. Stone
55 Maes Building, Phone 880-8542
Sociology is the study of social life and the social causes and consequences of human behavior. Sociology's subject matter ranges from the intimate family to the hostile mob, from crime to religion, from the division of race and social class to the shared beliefs of a common culture, from the sociology of sport to the sociology of work. Sociology is a popular major for students planning futures in such professions as law, business, education, politics, public administration, and even medicine. The research interests of Lamar's sociology faculty include social stratification; criminology, alienation, gender roles, sociology of sport, sociology of religion, and family structure and functioning. The Bachelor of Science degree is designed for students whose interests are more quantitative, while the Bachelor of Arts offers a traditional liberal arts education.

## Teacher Certification - Sociology

Students wishing to secure the Bachelor of Arts or Bachelor of Science degree in sociology and at the same time certify for a secondary teaching certificate with a teaching field in sociology should consult with the department chair.

For details concerning requirements for teacher certification and information on professional education courses, consult the College of Education and Human Development section in this bulletin.

## Social Work

## Program Director: Vernice M. Monroe

53 Maes Building, Phone 880-8552
Social Work, an action-oriented profession, helps people improve their social functioning. Problems of personal and social adjustment are brought to the social worker whose work is devoted to helping individuals, families, groups, organizations and communities face difficulties and find solutions to problems. Social work practice is an art and a science. It is the creative blending of the cognitive, affective, and behavioral abilities of the worker. Lamar University's Social Work Program prepares graduates for generalist social work practice. The program is accredited by the Council on Social Work Education which entitles the BSW graduate to apply for licensure in Texas as a Licensed Social Worker (LSW). The research/training interests of Lamar's social work faculty are in the areas of family violence, multicultural practice, developmental disabilities, social work education, and social policy.

## Anthropology

Faculty Advisor: Donna Birdwell-Sykes

54 Maes Building, Phone 880-8551
Anthropology is the study of mankind at its most inclusive. The human experience in all parts of the world and throughout the millennia of human existence serves as the subject matter of anthropology. The discipline maintains an appreciation of humans as biological creatures as well as social beings and bearers of culture. Course offerings encourage a fuller appreciation of human diversity while allowing students to compare our way of life with lifeways in other times and places.

Anthropology 2346 or 2351 satisfies the social science requirement of the University Core Curriculum. A minor in anthropology is a useful complement to majors in sociology, social work, criminal justice, history, psychology, and other fields. Interested students are invited to consult with the faculty advisor in anthropology.

The University established the College of Business in 1972. Prior to this time, degrees in business and economics were granted by the Division of Business, which was established in 1951, and the School of Business, established in 1954. All undergraduate and graduate degree programs of the College of Business are accredited by AACSB - the International Association for Management Education.

Four departments-Accounting and Business Law; Economics and Finance; Information Systems and Analysis; and Management and Marketing-make up the College of Business. The Bachelor of Business Administration degree is granted in all areas. A Bachelor of Science degree is granted in Economics.

The Master of Business Administration degree program also:is offered. Details may be found in the Graduate Bulletin.

## Mission

The mission of the College of Business at Lamar University is to provide quality undergraduate and graduate business education in Southeast Texas to a diverse student population and thereby meet the needs of employers operating in a global environment characterized by rapid technological change.

The primary responsibility of the College is undergraduate education, wherein we prepare students for entry and mid-level managerial/professional positions, entrepreneurial roles and lifelong learning:

The College also offers a quality M.B.A: program designed primarily for working professionals. The M.B.A. program produces managers/professionals capable of innovative problem solving, decision-making and leadership.

## Degrees Offered

The Bachelor of Business Administration curriculum consists of three distinct phases: business core, major specialization, and electives.

The business core requirements are patterned to develop an understanding of the social, legal, political, economic and global frameworks within which business organizations exist and operate. A common body of fundamental business and economic theory and principles is also represented in the business core. These theories and principles are developed along with certain basic quantitative tools of analysis and communication skills as preparation for the specialized major courses. Understanding of the interaction of all areas and functions of business operations is the objective of the core courses required of all business graduates.

The major specialization provides opportunities for study in a particular field of interest. This specialized study should enable a graduate to assume a position of responsibility in business, public service or education.

Finally, the student may choose electives that complement and supplement the specialization area.

The Bachelor of Business Administration degree will be awarded upon completion of the University core curriculum (p. 15) plus

## Admission to the College of Business

All newly entering Freshmen who meet the University's general entrance requirements will be admitted to the College of Business.

## Minor Program in Business

Non-business students may minor in business but without any specialized field of study. Such students should complete BULW 1370, ECON 2301, 2302, ACCT 2301, 2302, MGMT 3310, MKTG 3310, and FINC 3310. In keeping with the spirit of a Minor, the students must have less than 25 percent of their total curriculum in Business subjects. This 25 percent restriction also applies to all students who are not registered for a major in the College of Business, but who wish to have any kind of a business emphasis or concentration.

## Prerequisite Policy - College of Business

Students registering for business courses must meet all course prerequisites, including the implicit prerequisite indicated by the course level. The chair of the department offering the course must approve any exceptions.

2000 level courses - Student must have 30 hours*
3000 level courses - Student must have 60 hours*
4000 level courses - Student must have 90 hours*

## Objectives

The principal objective of the department is to develop in the student the knowledge, intellectual abilities, values, attitudes, skills and leadership qualities needed:

1. to perform effectively in an entry-level position on an accounting track in business, government, education, or other fields and to advance to levels of increasing responsibility.
2. to grow and to develop as an individual both professionally and personally.
3. to become a contributing member of society.

The attainment of this objective requires successful teaching, research and service from the accounting faculty.

## Requirements for Becoming an Accounting Major

1. Present an SAT Score.
2. Completion of ACCT 2301 (minimum grade of " $B$ "] and Acct 3470 [minimum grade of "C"]. Transfer students must meet the equivalent of the above requirements.

## Requirements for Graduation

In addition to the College of Business degree requirements, the accounting major must earn a minimun grade of " C " in each accounting course attempted. Students pursuing this degree program must take all professional courses at Lamar University.

## 150-Hour Program

Beginning with the May 1998 CPA Exam, a candidate in Texas, is required to have completed 150 semester hours of coursework. The BBA degree in this catalog will not meet this requirement. Students wishing to sit for the CPA Exam should plan to take additional hours to satisfy this exam requirement. One way to satisfy the requirement and receive a graduate degree is to complete the MBA degree with Accounting Emphasis (refer to the Graduate Catalog for additional information).

Assistant Professors: K. Bandyopadhyay, Chen, Flosi
The Department of Information Systems and Analysis offers degrees in General Business and Management Information Systems. All students receiving degrees must meet the general education degree requirements of the University described under the Academic Policies and Procedures section of this catalog. In addition students must meet the requirements for the Bachelor of Business Administration degree outlined by the College of Business.

## General Business

The academic major in General Business provides students an opportunity to study the fundamentals of a business enterprise. The program allows students to take courses in General Business only or to concentrate their coursework in one of the following areas: Advertising Communication, Industrial Engineering and Retail Merchandising.

## Management Information Systems

Information Systems, as an academic field, encompasses two broad areas: (1) acquisition, deployment, and management of information technology resources and services (the information systems function) and (2) development and evolution of infrastructure and systems for use in organization processes (system development).

The information systems function has a broad responsibility to develop, implement, and manage an infrastructure of information technology (computers and communications), data (both internal and external), and organization-wide systems. Information technology is pervasive in all organization functions. Accounting, finance, marketing and production, among other areas, use it. This pervasive use increases the need for information systems professionals with systems management and system development expertise.

The program prepares students to communicate effectively both orally and in writing. It requires students to develop interpersonal skills and to apply both quantitative and qualitative techniques to solve business problems in group and team settings. It prepares individuals for positions such as: information systems (IS) manager, telecommunications manager, network administrator, LAN client/server developer, systems analyst, database analyst or administrator, software project manager, and technical support manager.

The following requirements are effective for all students entering or transferring into the MIS program: A minimum GPA of 2.5 is required to enter and remain in this program. Students who drop below 2.5 GPA will be placed on probation and will not be allowed to enroll in MISY 3370, MISY 4350, or MISY 4380. Additionally, MIS majors who make a grade of " D " or " $F$ " in any MIS course must repeat the course, earning a grade of "C" or higher.

## Degree Programs

## ; Management

Management involves the coordination of resources - both human resources (people) and non-human resources (machine, materials, etc.) - to achieve organizational objectives efficiently. The curriculum in Management, therefore, provides the student with an understanding of the specialized functional areas and with a broad, integrated view of the firm as a whole. Men and women with university degrees in Management are equipped to advance more rapidly into positions of increasing responsibility in private business firms, in not-for-profit organizations, and in government.

## Human Resources Management

Human Resources Management involves the recruitment, selection, maintenance, and development of human resources by organizations. It includes such diverse functional areas as interviewing, training, compensation and benefits, health and safety, and labor relations. University graduates in Human Resources Management are found in all types of business firms, larger service organizations, and governmental agencies.

## Marketing

Marketing, as a professional field, is concerned with the whole range of activities that facilitate the movement of goods and services from the producer to the ultimate consumer. The Marketing curriculum provides the student with a fundamental understanding of each of the specialties involved in the process as well as with the management of the marketing function generally. Typical kinds of careers open to Marketing graduates include advertising, market research, sales and sales management, purchasing, services marketing, busiņess to business marketing, brand management, consumer behavior, and retail management.

## Academic Counseling

Management, Marketing and Human Resources Management majors are assigned an academic advisor, who is a full-time faculty member, when they first enter the program. Students who are seniors are advised by the Department Chair.

Services and Admissions
Preparing prospective teachers is a tradition of the University. Non-teaching specialties in food service management, interior design, fáshion merchandising, home economics, health and physical education are more recent offerings representing diversification and growth of the College of Education and Human Development since its establishment in 1959.

Graduate programs in the College are described in the Graduate Studies Catalog of the University.

Degree and certification programs are described in separate departmental sections of this bulletin.
Lamar University reserves the right to modify degree requirements and teaching certificate requirements in keeping with legislative acts and rules established by the Texas Higher Education Coordinating Board and the State Board for Educator Certification.

## Mission and Objectives

The College of Education and Human Development is dedicated to promoting, the achievement of the University's mission. Toward that goal and in the belief that educational problems are best through partnerships with elementary and secondary education, higher education, state-level education agencies and other appropriate groups, the College is committed to a collaborative approach in addressing educational issues. Emphasis is placed on the preparation of personnel for educational and human service careers through professional programs, which are current and relevant in theory and practice, Collaborative participation by the faculty in state, regional and national professional organizations, public schools and human service agency activities is practiced and encouraged.

The College of Education and Human Development has as its major function the professional preparation of elementary and secondary school personnel and preparation of personnel for specific human services positions and professional careers. The College has an oversight role for the development of academic competencies of the prospective teacher pursuing a major within the many departments of Lamar University.

The College is composed of four departments: Professional Pedagogy, Educational Leadership, Family and Consumer Sciences, and Health and Kinesiology. The Division of Professional Services includes early field experiences, student teaching and certification. The Early Childhood Development Center is located adjacent to the University campus and provides a site for University students to observe and work with children as part of the professional preparation of teachers and other school personnel.

## Degrees Offered

Bachelor of Science Degree with majors in the following fields: Interdisciplinary Studies Family and Consumer Sciences

.Health

## Teacher Education - A Shared Responsibility

The preparation of teachers is a responsibility shared by virtually all of the colleges of the University. Policies concerning teacher education programs are coordinated by the Teacher Education Council. This Council is composed of faculty members from the various colleges of the University offering teacher education programs. Within the framework of the policies established, the College of Education and Human Development provides oversight for all teacher education programs throughout the University.

## Teacher Education Programs

Lamar University provides undergraduate teacher education programs that fulfill the curriculum requirements for the following certificates in the State of Texas: elementary education, secondary education, generic special education, vocational home economics, education of the deaf, driver education, all-levels music, all-levels art, all-levels 'physical education, early childhood education, and English as a second language.

Information concerning graduate teacher education programs and professional certification may be found in the Graduate Studies Bulletin.

## Early Childhood Development Center

The Lamar University Early Childhood Development Center is an educationally oriented model program for children between the ages of 18 months and five years. The Center, under the direction of The College of Education and Human Development, is an integral part of professional development for undergraduate and graduate students on the Lamar University campus.

The center is used extensively by the Department of Family and Consumer Sciences, the Department of Pedagogy, the Department of Health and Kinesiology, and the Department of Educational Leadership. The Center provides opportunities for University students to direct learning of young children who exhibit both typical and atypical development as well as investigate effective teaching strategies for promoting optimal development among young children. Students have the opportunity to observe and interact with children, which enhances the understanding of child growth and development. In addition the students are able to relate understanding about the family, nutrition, prenatal care and community interaction to child behavior.

The Center provides interdisciplinary research opportunities for faculty and graduate students. The center is also used for strengthening. leadership skills in the field of child development through seminars, workshops and other educational events. The Center is accredited by the National Academy of Early Childhood Programs.

## Alternative Certification Program

The College of Education and Human Development offers an Alternative Teacher Certification Program in Special Education (K-12, Composite Science (6-12), and Elementary Bilingual. ## Certification for Persons with Bachelor's Degree (or higher) Who Are Not Certified To Teach in Texas

1. Information concerning these certification plans is available in the College of Education and Human Development Professional Services Office.
2. Persons with degrees from Texas colleges and persons with degrees from out-ofstate colleges apply in the College of Education and Human Development, Professional Services Office for certification in Texas.

## Certification for Persons with Texas Teaching Certificates Who Desire Additional Endorsements

Those persons with elementary certificates who desire secondary certification; those with secondary certificates who desire elementary certification, and those with elementary or secondary certificates who desire additional endorsements obtain information from the Professional Services Office.

## Professional Certificates

Requirements for Professional Certificațes are described in the Graduate Catalog.

## Department of Professional Pedagogy

Department Chair: Ravic Ringlaben
Professors: Burke, Hargrove, Haven, Karlin, Ringlaben, Sisk, Watts
Associate Professors: Henry, McCaskill
Assistant Professors: Farrow, Goulas, Griffith, Matheny, Weeks, Zhang
Instructor: Coryell, Gober, McCutcheon

## Bachelor of Science Degree in Interdisciplinary Studies

The Bachelor of Science degree in Interdisciplinary Studies is designed to meet the requirements for a Teaching Certificate in the State of Texas. Persons may receive a certificate endorsement to teach driver education by meeting the additional curriculum requirements as described in other sections of this bulletin. Students must be admitted to Teacher Education to enroll in advanced Professional Pedagogy courses (3000 or higher).

In addition to completing the required academic foundations core curriculum described on page 15, program students must fulfill the requirements in the area of specialization, professional education and the advanced interdisciplinary core. This plan may allow an overlap of six semester hours between the academic core curriculum and
the area of specialization. If the area of specialization is in a discipline other than English, mathematics, science or social science the student will be required to take 18 hours in one of.the four previously stated academic disciplines. Six semester hours from the academic core curriculum may be used to meet the 18 hour requirement.

## Academic Foundations Core Curriculum

## Interior Design

Advisor: Sarajane Eisen

126 FCS Bldg.
The Interior Design specialization provides professional training for a wide range of design problems extending from personal to public environments. The program provides the student with a well rounded education in the needs of individuals and families in addition to an in-depth study of interior design. The program also provides the student with a minor in art. Supporting courses, such as architectural graphics and computer aided design (CAD) develop skills in areas that are essential in today's market. Lamar interior design students have an active student chapter of the American Society of Interior Design (ASID), involving members in field experiences, fund-raising activities, student design exhibitions, and design competitions.

# Department of Health and Kinesiology 

Department Chair: E. Harold Blackwell
Director of Academic Programs: Doug Boatwright
Coordinator of Graduate Programs: Carol Plugge-Foust
Coordinator of Health Programs: Joel Barton
Professors: Barton, Blackwell, Boatwright, Jolly, Westerfield Associate Profesor: Plugge-Foust
Assistant Professors: Park, Payton, Strickland, Worsham
Instructors: Gilligan, Moore, Wesbrooks
Lecturers: Barnes, Clark, Ricklefsen, Amo, Knoblauch
The Department of Health and Kinesiology provides several career options for students. Two teacher education certification programs are offered: health and kinesiology. One program of study, in community health, is available that does not lead to teacher certification. Undergraduate programs lead to a Bachelor of Science degree in Health or Kinesiology and thejGraduate programs lead to a Master of Science degree.

All university students are required to complete a minimum of 1 credit hour of physical education general activity (PEGA) in order to satisfy the university core curriculum requirements. Students may select from a wide variety of PEGA offerings or from DANC 2172 or DANC 2272. Note: KINA classes will not satisfy the university physical education general áctivity program credit hour réquirement. The physical education general activity program is designed to develop life-long. activity skills, as well as, enhance the general education objectives of the university.

## Health

The health program of study offers two options for a career in health education. The Health Teacher Education Program leads to certification to teach health plus an approved additional teaching field at the secondary level. The Community Health program is a non-teacher certification program prepares students for a career in public, government and private health agencies. A student must have completed the English, Math, Biology, Political Science and History General Education Requirements prior to enrolling in the 3000 and 4000 level health professional courses. A grade of " C " must be earned in each of the health professional courses.

## Kinesiology

The kinesiology program of study prepares the student for a teaching career in kinesiology. The kinesiology teaching certification program leads to All-Level (K-12) Teaching Certification.

The course of study leading to a baccalaureate degree and teacher certification in kinesiology encompasses three areas of work:. (1) the required block of professional theory courses (HLTH \& KINT), (2) the required block of professional development courses (PEDG) and (3) the required block of professional activity courses (DANC \& KINA). A grade of "C" must be earned in each of the kinesiology professional theory courses (HLTH \& KINT). A student must have completed the English, Math, Biology, Political Science, and History General Education Requirements prior to enrolling in the 3000 and 4000 level professional theory courses (KINT).

The required blocks of professional development courses are PEDG 3310, 3320, 3326, 3380, 4340 and 4630 . A student must be admitted to the College of Education and Human Development's teacher education program before enrolling in professional development courses.

Physical Education General Activity (PEGA)

The PEGA program offers physical activities designed for the student to learn and develop skills in a variety of lifespan sports. PEGA courses maybe repeated for academic credit.

## Activity Courses (PEGA)

Students enrolled in physical education activity classes may be required to wear regulation uniforms suggested by the instructor. The student may provide equipment for class.

KINA 2255 Water Safety Instructor ${ }^{4}$
$\dagger$ This course also satisfies university PEGA requirement

## Athletic Training Specialization

Certification by the National:Athletic Trainer's Association and licensure by the State of Texas as an athletic trainer is available through meeting the following requirements:

1: Admission to the Athletic Training Program at Lamar University. *
2. Completion of a minimum of 600 clock hours per academic year for a minimum of 3 years ( 1800 hours total).
3. Completion of an undergraduate degree in addition to certain course requirements.
4. Successful completion of NATABOC exam for certification. (ATC).
5. Successful completion of Texas board exam for licensure.

* Number of students is limited. Application must be made through the head athletic trainer.

## Driver Certification Requirements

Certification to teach driver education is available as a special designation on an existing Texas teaching certificate based on a baccalaureate degree. The specific course requirements are KINT 2376, 2377 and 2378.

Engineering, mathematics and computer science programs prepare students to meet the challenges of real-world applications.

## Cooperative Education Program

A Cooperative (Co-op) Education Program, in which the student spends alternate terms at work and at study, is offered to qualified students in the College of Engineering. Programs are available for computer science, engineering, industrial technology and mathematics students.

To meet the minimum quallifications for the Co-op program a student must

1. Complete all the work in the first two semesters of the degree program.
2. Maintain a 2.5 over-all grade point average for engineering and mathematics or 2.75 over-all GPA for computer science.

To remain in the program, the student must maintain a grade point average above a 2.5 and perform in a manner satisfactory to the employer and Lamar University.

A co-op is considered to be a full-time student during any work term in which the co-op is registered for Career Development. By participating in the Co-op program throughout the sophomore and junior years, a student extends the time required to obtain a degree to five years. However, in doing so, he gains the equivalent of almost two years experience in industry.

A student may apply for admission to the Co-op program through the Engineering Cooperative Education Office.

## Engineering Programs

The five undergraduate' curricula in engineering are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology. The Accreditation Board for Engineering and Technology defines engineering as "the profession in which a knowledge of the mathematical and natural sciences gained by study, experience and practice is applied with judgment to develop ways to use economically the materials and forces of nature for the benefit of mankind." Clearly, from this definition, engineers are to form the interface between science and society as they apply, in realistic terms, the findings of science.

## Entrance Requirements

Entering freshmen and new transfer students are considered provisional majors. The College of Engineering Advisement Center is responsible for the academic advisement of provisional engineering majors.

The entrance requirements from high school for engineering degree programs are

1. English ............................................................................... 4 units
2. Mathematics : Algebra............................................................................. 2 units

Geometry ........................................................................... 1 unit
Pre-calculus or Equivalent .................................................. 1 unit
3. Natural Sciences

Chemistry ........................................................................... 1 unit
Physics............................................................................... 1 unit
4. Foreign Language ............................................................... 1 unit

Students who meet the general entrance requirements of the University, but lack in specific requirements for the engineering curricula may, upon approval of the dean, be permitted to enroll in the College of Engineering; however, all deficiencies must be removed before the end of the second academic year. Students having entrance deficiencies or weaknesses are urged to use the summer terms proceeding the Freshman year in college to remove them. Students attaining a sufficiently high grade in the CEEB Mathematics Level I exam may be eligible for advanced placement in the Calculus and Analytic Geometry sequence. These tests are administered during the freshmen orientation periods and during the regular registration periods.

Transfer students are required to have a minimum 2.0 GPA on all work attempted before entering the College of Engineering: Normally transfer credit is considered for course work with a grade of " $C$ " or better.

## Standards

In addition to the University requirements, the College of Engineering enforces the following standards:

1. Students are required to take courses in the sequence shown in the University Bulletin for each degree program.
2. Engineering students are expected to maintain a GPA of 2.25 to remain in a program. Students who drop below 2.25 GPA will be placed on probation (maximum load of 13 semester hours). Students who drop below a 2.0 GPA will be suspended from the College of Engineering for one long term. Students returning from suspension must prepare a performance contract in consultation with their academic advisor. A minimum term of the contract requires the student to remove deficiencies every semester of enrollment. Students who fail to meet the terms of their contract will be permanently suspended.
3. Engineering students are expected to maintain a minimum GPA of 2.0 in their major courses (Any course with an Engineering prefix.) A performance contract with the student's department head is required for continued enrollment.
4. Degree credit is normally allowed only for courses in which a grade of "C" or better is earned. A course may be repeated for additional credit toward a degree only as specified by the official course description in the University Bulletin. Excluding courses that may be taken for additional credit toward a degree, a student may not register, for any course more than four times. Any student who wishes to repeat a course must do so before completing a more advanced course in the same subject matter field.
5. Upon the completion of at least 51 semester hours of the Common Program with a GPA of 2.25 or more on all required courses, a student will be considered for admission to an engineering program. For all engineering programs, it is required that 45 . semester hours (at least 25 semester hours in engineering at the 3000 and 4000 level) be earned after admission to the professional program.
6. The student's advisor must approve all electives.

The Dean of Engineering may require students to meet the current degree requirements or program standards.

## Engineering Core Program

## Engineering Courses (ENGR)

1101 Introduction to Engineering ..... 1:1:0History of engineering, philosophy of engineering practice, the electronic calculator and analysis of the problemsof being an engineering student.
1174 Engineering Graphics I ..... 1:0:3
Principles of orthographic projection combined with descriptive geometry to solve space problems graphically.Lettering and drafting techniques emphasized.
1301 - Introduction to Computers and Programming ..... 3:3:0
Flow charting, digital computers, program organization, Quick BASIC, Quick BASIC programming. Prerequisite: MATH 1316 or higher.
2273 Engineering Economics ..... 2:3:0The time value of economic resources, engineering project investment analysis, effect of taxes on engineeringproject decisions.Prerequisite: MATH 2413
2301 Statics ..... 3:3:0Statics of particles and rigid bodies. Use is made of basic physics, calculus and vector algebra.Prerequisite: PHYS 2425.
2302 Dynamics ..... 3:3:0
Kinematics of rigid bodies, kinetics of rigid bodies, work and energy, impulse and momentum.
Prerequisite: ENGR 2301 or equivalent, MATH 2415 or concurrent.
2311 Circuits I ..... 3:3:0Linear network analysis. Fundamental network laws and methods. Transient response. Sinusoidal steady stateanalysis and response.Prerequisite: MATH 2414, PHYS 2426, ENGR 1301.
2360 Career Development I ..... 3:3:0
Comprehensive treatment of career-related special assignments and projects.
Prerequisite: Approval of academic dean.
2370 Career Development II ..... 3:3:0Comprehensive treatment of career-related special assignments and projects.Prerequisite: ENGR 2360.
2374 Thermodynamics ..... 3:3:0The fundamental laws of thermodynamics; properties of systems solids, gases and liquids and thermodynamic'tables.Prerequisite: ENGR 1301, PHYS 2425, MATH 2415 or concurrent.
3350 . Computer Aided Design ..... 3:3:0Course ṣtresses two- and three-dimensional applications on the CAD system. Elementary two-dimensional geo-metric design: Advanced two-dimensional geometric design and application. Three-dimensional curve, surfaceand solid design with three-dimensional geometric analysis: Design optimization and interfacing computer aideddesign and computer aided manufacturing.Prerequisite: Junior standing (admitted into a professional engineering program).
3360 Career Development III ..... 3:3:0
Comprehensive treatment of career-related special assignments and projects.Prerequisite: ENGR 2370.
3370 Career Development IV3:3:0Comprehensive treatment of career-related special assignments and projects.
Prerequisite: ENGR 3360.
4101, 4201, 4301 Special Topics ..... 1-4:A:0An invéstigation into specialized areas of engineering under the guidance of a faculty member. This course maybe repeated for credit when topics of investigation differ.
4360 Career Development V ..... 3:3:0Comprehensive treatment of career-related special assignments and projects.Prerequisite: ENGR 3370.

## Department of Chemical Engineering

Program accredited bythe Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology.

Department Chair: Carl L. Yaws<br>Professors: Hopper, Yaws, Li, Chen, Ho<br>Assistant Professor: Gossage

Research Professor: Cocke

## Laboratory Technician: Thomison

Chemical engineering is the profession in which a knowledge of mathematics, chemistry and other natural sciences gained by study, experience and practice is applied with judgment to develop economic ways of using materials and energy for the benefit of mankind. The chemical engineer enters into almost every modern industry. From petroleum to synthetic rubber, from steel to medicines, the chemical engineer engages in design, research, development, production, sales and management. Among the fields in which the chemical engineer is of prime importance are petroleum, petrochemicals, metals, plastics, paints, foods, paper, glass, dyes, synthetic fibers and a host of others.

The Department of Chemical Engineering will permit transfer of up to 78 semester hours from a junior college or a community college, if appropriate courses were taken at the junior (community) college level. The appropriate list of courses for a particular college can be made available upon request.

## Bachelor of Science - Chemical Engineering

## Suggested Program of Study

First and Second Year (See Engineering Core Program)

## Chemical Engineering Courses (CHEN)

3311 Momentum Transfer ..... 3:3:0Fluid-flow concepts are presented through the derivation of the basic equations of continuity, energy andmomentum. Engineering aspects of flow measurement, pressure-drop calculations and pumping requirementsare considered. Same as MEEN 3311. CHEN 3311 and MEEN 3311
may not both be counted for credit.
Prerequisite: ENGR 2374, CHEN 3340.

## 3320 Heat Transfer

Principles of conduction, convection and radiation, and their application to the design of heat transfer equipment and systems.
Prerequisite: CHEN 3311, CHEN 3330.
3330 Thermodynamics II
Application of the First and Second Laws to chemical processes. Thermodynamic properties of pure fluids and mixtures. Physical equilibrium.
Prerequisite: CHEN 3340, ENGR 2374. CHEM 3411 or concurrent, CHEM 2401 or concurrent.
Application of mathematics, physics and chemistry to the solution of problems in industrial chemistry. Material and energy balance calculations on processes undergoing physical and chemical changes.
Prerequisite: ENGR 2374 or concurrent.
4140 Seminar . . . . . . . . . . .
Oral and written presentatioṇ of selected topics in chemical engineering from recent technical publications. Prerequisite: Senior standing in Chemical Engineering.
4150 Process Control Laboratory 0:3:1
Experiments in level, flow and temperature control; computer-based adaptive control; PID tutorial program; control valve selection and sizing; interactive process control using the Honeywell TDC-3000 keyboard with a process control simulator.
Experimients in heat transfer, mass transfer, fluid flow, reaction kinetics and thermodynamics. Prerequisite: CHEN 4420 or concurrent.
4330 Process Control 3:3:0
Selection of equipment to measure and control process variables. Analysis of process response to variations in process parameters.
Prerequisite: CHEN 4370, 4410, 4420, MATH 3401.
4340 Plant Design $\amalg$
A continuation of CHEN 4360, with emphasis on a major design project.
Prerequisite: CHEN 4360.
4350 Advanced Analysis $\quad$ 3:3:0
Development of mathematical equations for chemical engineering applications. Solution of ordinary and partial differential equations.
Prerequisite: CHEN 3330, 3311, 3320, 4570, 4410, MATH 3401.
4360 Plant Design I 3:3:0
Application of chemical engineering principles to the design of chemical processes and plants. Equipment design and specifications. Economic evaluation of processes and equipment.
Prerequisite: CHEN 4410: CHEN 4420 or concurrent.
4370 Computer Applications 3:3:0
Use of the digital computer in performing process calculations. Advanced techniques of numerical programming.
Prerequisite: ENGR 1301, CHEN 3340, CHEN 3330 or concurrent.
4410 Reaction Kinetics
4:3:3
Chemical equilibrium. Analysis of experimental data to determine reaction rate parameters in homogeneous, heterogeneous, catalytić and non-catalytic reactions. Development of equations for batch, stirred-tank and tubular flow reactors. Application of differential equations to process and reactor design.
Prerequisite: MATH 3401, CHEM 2401, CHEN 3320 or concurrent, CHEN 3330 or concurrent, CHEM 3412 or concurrent, CHEM 43.12 or concurrent.
4420 Mass Transfer
Principles of diffusion. Simultaneous mass, energy and momentum transfer. Analysis of absorption; extraction and distillation processes.
Prerequisite: CHEN 3330, 3320, CHEM 2401, 3411, 3412, 4312.

## Department of Civil Engineering

Program accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology.
Department Chair: Enno Koehn

2010 Cherry Building, Phone 880-8759

Professor: Koehn
Assistant Professors: Fang, Jäo, Lin
Instructor: Tohme
Laboratory Technician: McClelland
Administrative Assistant: Graves
Civil Engineering is a people serving profession and as such is vital to the world's economic, political, and social well being. The many areas to which civil engineers make substantial contributions include bridges, dams and levees, harbors; waterways and irrigation facilities, buildings, airports, highways, pipelines, railroads, power lines, water supply systems and waste treatment facilities. Civil engineers engage in a wide range of activities such as research, design, development, management, and the control of engineering systems and their components. With today's fast-paced technological changes, civil engineering provides unique and unlimited career opportunities that can only be met by professionally educated people.

The civil engineering program is designed with a broad base to prepare men and women for careers in various phases of civil engineering and to enable them to perform other managerial and technical functions that require scientific and engineering backgrounds. The curriculum embraces a sound core of humanities and social studies courses in addition to those in physics, chemistry and mathematics. To this is added a substructure of engineering sciences. Areas of study include geo-technical, structural; hydraulic, environmental, surveying, and construction engineering. Electives are available to fit the individual interest of the civil engineering student.

Because of the wide scope of activities in which the civil engineer is engaged, and the broad spectrum of student interest, civil engineering graduates may choose either to enter the profession immediately after receiving their bachelor's degree or go directly to graduate school. No matter what the student chooses, the curriculum provides a firm foundation for today's world

To encourage and assist scholars in civil engineering, the Katherine E. and William C. Mundt endowment was established in 1983. In addition, the Tony Paine Memorial Scholarship was established in 1988 and the David Bernsen Endowed Scholarship in 1997. These funds provide scholarships for qualified students. Application forms are available in the civil engineering department office.

## Bachelor of Science - Civil Engineering

## Additional Degree Requirements:

Candidates for degrees in this program are strongly encouraged to consider sitting for the National Council of Engineering Examiners Examination on "Fundamentals of Engineering" as administered by the Texas Board of Professional Engineers.

# Suggested Program of Study 

# First and Second Years (See Engineering Core Program) (b) Third Year 

## Notes:

(a) All electives must be approved by the Chair of the C.E. Dept. CVEN Electives must include design content of an amount to satisfy ABET criteria.
(b) It is vital that CVEN 2372 and ENGR 2302 be completed before the start of the third year.

## Civil Engineering Courses (CVEN)

| 2270 | Surveying 2:1:3 |
| :---: | :---: |
|  | Introduction to the basic principles of surveying. Use of equipment for measurement of horizontal and vertical distances and angles. Field practice and calculations associated with design and layout of highway curves including vertical and horizontal alignments. Transition spirals. Error Analysis. Computer used in calculations. |

Analysis of loading for bridges and buildings. Effects of moving loads using influence lines. Shear and bending moment diagrams. Analysis of indeterminate structures. Introduction to structural design. Investigation of frames, girders and bents.
Corequisite: MATH 3401.
Prerequisite: CVEN 2372.
Hydraulics I
Basic principles of fluid flow. Friction and drag studies. Calibration and design of flow measuring devices. Flow characteristics of open and closed conduits. Presentation of oral and written design reports.
Prerequisite: ENGR 2302.
3360 Hydrology of the Environment
Precipitation, surface water, infiltration, and sub-surface water. Analyșis of rainfall and runoff data. Collection studies. Hydraulics of wells. Net storm rain; peak discharge and flood runoff.
Corequisite: ENGR,2302.

## 3370 Environmental Engineering Systems I

3:3:0
General survey of environmental engineering covering water supply and sanitary sewerage systems. Design of water distribution and wastewater collection systems.
Prerequisite: CVEN 3310, CVEN3350.
3390 Geo-technical Engineering
3:2:3
Basic principles of soil behavior under load. Soil properties and classification. Study of hydraulics as applied to soil mechanics.
Prerequisite: ENGR 1174. Corequisite: CVEN 2372, ENGR 2302:

## 4110 Seminar.

1:1:0
Discussion of ethical, professional, and technical topics related to the practice of civil engineering. Presentation of oral and written reports.
Prerequisite: Senior standing.
4212 Civil Engineering Systems Design Project
2:0:6
Planning, design, and analysis of a civil engineering system or project; an integrated and realistic group project is utilized which involves numerous major aspects of the civil engineering profession. Presentation of oral and written design reports. Prerequisite: CVEN 3370, CVEN 3390. Corequisite: CVEN 4380, CVEN 4390.
Civil Engincering Systems II
2:2:0
Principles of systems analysis utilized for solving civil engineering problems. Application of probability and statistics, numerical methods, linear programming, dynamic programming, optimization, finite elements and finite differences to the engineering design process.
Prerequisite: CVEN 3290 or Statistics. Corequisite: CVEN 3340, CVEN 3370, CVEN 3390.
$4300 \quad$ Structural Analysis/Graphical Design 3:3:0
A consideration of graphical computer-aided techniques utilized to design various systems or a study of matrix methods and the application of strain energy, slope deflection and moment distribution procedures for the design and analysis of frames, trusses and beams. May be repeated for credit when topics vary.
Prerequisite: CVEN 3340.
4310 Building Design/Construction
Advanced topics in Building and/or Construction Systems. Topics may include the treatment of contaminated soils, and the effects of various static, dynamic, hydraulic, and wind loads on structural frames and foundations. Environmental, social, and safety requirements may he taken under consideration. Presentation of oral and written design reports. May be repeated for credit when topics vary.
Prerequisite: Senior standing.
4320 Engineering Project Management 3:3:0
Principles governing the effective and efficient management of engineering projects including the application of comprehensive planning, scheduling, and cost estimation procedures. Presentation of oral and written design reports.
Prerequisite: Senior standing.
4340 Foundation Engineering
The practice of geotechnical engineering: subsurface explorations; geotechnical analysis and design of shallow footings, deep foundations, and retaining structures; stability of earth slopes, and soil improvement.
Prerequisite: CVEN 3390.
Corequisite: CVEN 4380.

Continuation of CVEN 3350-Hydraulics I emphasizing practical design applications of basic fluid mechanics principles in fluid measurement, machinery, closed conduit flow, open channel flow and hydraulic transients. Presentation of oral and written design reports.
Prerequisite: CVEN 3350.
4355 Environmental Engineeting Systems II
Advanced topics in environmental engineering. Typical topics may include the management of solid waste, flood control systems, and the hydraulic or hiological design of municipal and/or industrial treatment facilities. The effects of safety during construction and operations may also be considered. Presentation of oral and written design reports. May be repeated for credit when topics vary.
'Prerequisite: Senior stonding.
Transportation \& Urban Engineering
3:3:0
History, development and design of transportation and/or urban facilities including the utilization of GIS and/or CAD computer systems. Fundamentals of urban systems, including, if applicable, drainage requirements and the location, design, construction and maintenance of highways and pavements. May be repeated for creddit when subject matter varies.
Prerequisite: Senior Standing.
4380 Reinforced Concrete Design
The design of structural concrete members based upon working stress and strength design methods. Study of standard specifications. Introduction to pre-stressed concrete.
Prerequisite: CVEN 3340.
4390 Structural Steel Design
The design of buildings and bridge components according to standard specifications. Application of load and resistance factor and allowable stress design methods. Introduction to plastic design of steel structures.
Prerequisite: CVEN 3340.

## Department of Electrical Engineering

The Bachelor of Science - Electrical Engineering (BSEE) program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET). This accreditation has been continuously maintained since it was first acquired in the 1950s.

Department Chair: Bernard J. Maxum
Professors: Bean, Maxum
Associate Professors: Carlin, Reddy
Assistant Professor:
Visiting Professors: Drazenovic, Watt

## Laboratory Technician:

From the design of microprocessors smaller than the pupil of an eye to major power distribution systems, the electrical engineer plays an ever-increasing role in today's society. Career opportunities open to electrical engineers encompass diverse areas including advanced computer design, microprocessor-based instrumentation, comput-er-aided diagnostic and information systems, computer network engineering, automatic control systems, communications and fiber-optic systems.

Lamar University's electrical engineering program prepares graduates for a wide range of opportunities by providing a curriculum strongly based in mathematics and science. Electrical engineering content is presented through diverse coursework in all
of the major electrical engineering areas including electronics, digital logic design, power systems, control systems and communications. An alternative curriculum with a concentration in Computer Engineering has also been developed specifically to prepare the graduating engineer for a career in 'computer architecture and software design. The interested student can also participate in a variety of faculty research programs in the areas of communications, instrumentation and signal processing.

The Department of Electrical Engineering will permit transfer of up to 72 semester hours of appropriate courses from a junior college or a community college. If the necessary pre-engineering requirements are satisfied, transfer students may finish their degree in four or five semesters.

## Degrees Offered

The Department of Industrial Engineering offers the Bachelor of Science degree inIndustrial Engineering and in Industrial Technology.

## Industrial Engineering

Industrial engineering serves vital functions in today's world and provides a wide range of career opportunities. It is particularly well positioned to develop individuals who provide solutions for the fields of re-engineering and right-sizing of organizations, economic analysis and associated solutions, quality assurance management, plant operation control/design and managerial problem solving that require a knowledge of fundamental science and engineering practices including human engineering.

Industrial engineering deals not only with technology but also with people. It especially deals with managerial problems requiring knowledge of fundamental science and engineering practice for their solutions. The Department of Industrial Engineering at Lamar University is one of the leaders in integrating computer applications including computer-aided design and computer-aided manufacturing into the curriculum.

Industrial engineers combine advanced study in management systems, economics and decision-making to answer such questions as: "What products or services should we offer? What materials and methods should we use? How can we best motivate and reward people? How can we improve quality, productivity and service?"

Typical responsibilities of the industrial engineer involve design, operation and management. While manufacturing industry demands many graduates, increasing numbers are finding satisfying employment in other kinds of businesses. Airlines, banks, restaurant chains, department stores and hospitals-all use industrial engineers. Governmental agencies of all sorts are attracting graduates.

An advisory committee of successful alumni from industry supports the department's academic staff. The Lamar University Industrial Engineering Department provides a campus home and friendly team atmosphere with a focus on preparation of students for career leadership.

# Suggested Program of Study 

## First and Second Year (See Engineering Core Program)

Notes:
(a) COMM 1315, 1360, 2335, 2373, 3310, 3340, or Modern Language including CMDS 2305, American Sign Language.
(b) CHEM 1412 or another course approved by the INEN Chair.
(c) Any course in Sophomore Literature (ENGL 2322-2377) will satisfy this requirement.
(d) ECON 1301. PSYC 2301, SOCI 1301, ANTH 2346 or (ECON 2301 and ECON 2302).
(e) ARTS 1301, DANC 1370, HUMA 1315, MUSI 1306 or THEA 1310.

## Industrial Technology

The Department of Industrial Engineering also offers a Bachelor of Science degree in Industrial Technology. This curriculum is especially designed to prepare two-year technology graduates to work effectively in the engineer-technologist team and to assume management responsibilities.

The first two years of thi's program are administered by the Lamar University Institute of Technology or Lamar University at Drange or Port Arthur. Students are also accepted from other technical two-year programs throughout the state and nation. This degree requires successful completion of an Associate of Applied Science degree-or equivalent-composed of a minimum of 36 semester hours of related and sequential courses. Technology courses beyond those specified in a major field must be approved by the Industrial Engineering Department.

Admission to the Industrial Technology Program will be granted, upon application, after completion of a minimum of 40 semester hours toward the Associate of Applied Science Degree or the Engineering common program with a grade point average of at least 2.00.

Technology students who intend to continue their education to obtain this degree should substitute six hours of Freshman English for Business Communication and MATH 1314 for Technical Math with their advisor's approval.

Any student in the Industrial Technology program considering working toward an Industrial Engineering degree at any time in the future should so inform his or her advisor.

3390 Manufacturing Materials and Process
Functional and economic selection of materials and processes in manufacturing.
Not open to students majoring in engineering.
Prerequisite: CHEM 1405 or equivalent, INEN 3322.
4300 : Quality Assurance and Control 3:3:0
Assurance that products perform as intended. Reducing or eliminating defective output.
Prerequisite: INEN 4320, Senior standing in engineering.
4301 Quality Control Applications $\quad$ 3:3:0
Quality assurance and the application of statistics to the control of quality. Control charts, acceptance sampling reliability and the role of standards in the quality function.
Not open to students majoring in engineering.
${ }^{\prime} 4310$ Computer Aided Manufacturing $\quad$ 3:3:0
Design problems in the areas of computer numerical control, robotics and computer vision are presented. Manufacturing Control Systems are discussed as they relate to a Computer Integrated Manufacturing (CIM) environment.
Prerequisite: BASIC programming, INEN 3322 or equivalent, and Junior standing.
4315 Organization and Management
The theory of organization and management. How the executive functions to achieve the organization's goals.
Prerequisite: Junior standing.
4316 Industrial and Product Safety : $\quad$ 3:3:0
Loss control engineering. Mandatory and voluntary standards. Product liability.
Prerequisite: Senior standing.
4320 Statistical Decision Making for Engineers
Analysis of data to help the engineer/executive make decisions. Evaluations of performance claims.

## Department of Mechanical Engineering

Program accredited by the Engineering. Accreditation Commission of the Accreditation Board of Engineering and Technology.
Department Chair: Malur Srinivasan
2008 Cherry Building, Phone 880-8769
Professors: Corder, Young
Associate Professor: Srinivasan
Assistant Professors: Gonthier, Cox
Laboratory Technician: Colville
Mechanical engineers are men and women who design, develop and manufacture machines that produce, transmit or use power. There is hardly an area in modern life that has not been influenced by a mechanical engineer at some point along the path from invention to installation. Mechanical engineering knowledge is essential to build automobiles, airplanes, ships, satellites and health care equipment, to name a few. Mechanical engineering occupies this unique position as it effectively utilizes basic sciences, mathematical sciences and engineering science and technology.

- The Department of Mechanical Engineering of Lamar University prepares undergraduate students for challenging and rewarding careers in the industry or for the pursuit of graduate studies. There are three major disciplines forming the core, namely, thermal sciences, mechanical systems and design, and materials and manufacturing. Application of the sciences is initiated in the junior year. In the senior year, the students are trained and encouraged to develop skills to use such knowledge in practical mechanical engineering applications.

Mechanical Engineering Courses (MEEN)
3210 Measurements Laboratory ..... 2:1:3
Theory and application of measurements with various instruments are treated. Topics include technical report writing, statistics, and data acquisition. Experiments involving pressure, temperature, speed, power, torque, fre- quency and flow measurements are conducted, documented and reported.
3300 Mechanical Design I ..... 3:3:0
Introduction to the concepts associated with the design of machine elements. Kinematics in the analysis of mechanisms: centroids, velocities and accelerations in plane mechanisms; rolling and sliding in belts, chains and cams; gears in plane or epicyclic trains.
Prerequisite: ENGR 2302 and CVEN 2372.
3310 Heat Transfer ..... 3:3:0
Theory of conduction, convection, radiation and heat transfer with engineering techniques and applications. Prerequisite: MATH 3401. Pre or corequisite: MEEN 3311 .
3311 Fluid Mechanics ..... 3:3:0
Fluid-flow concepts are presented through the derivation and application of the basic equations of continuity, energy and momentum. Engineering aspects of flow measurement; pressure-drop calculations and pumping requirements are considered.
Prerequisites: ENGR 2302,2374. CVEN 2372 and MATH 3401. ..... 3:2:3
The design of machine components considering loads, stress, deflection and stiffness, material properties; failure theories; designing for static strength and fatigue life. A written and oral presentation of the conceptual design of a machine to meet a specified societal need is required.
Prerequisites: CVEN 2372, MEEN 3350.
3340 - Engineering Analysis3:3:0Physical and mathematical aspects of mechanical, hydraulic, pneumatic, thermal, and electrical systems areintroduced. Analysis techniques for modeling the dynamic performance of lumped mass systems are presentedand applied using a unified state-space representation. Both formal analytical and extensive computer methodsare utilized for the determination of model response.Prerequisite: MATH 3401. Pre or corequisite: MEEN 3311.
3350 Computer-Aided Engineering (CAE)3:2:3An overview of simulation-based design, including 3-D parametric solids models and finite element analysis,and its applications in mechanical engineering. Course focuses on the modeling aspects of mechanical systemssimulation in static stress and deflection analysis.
Prerequisitees: ENGR 2302, CVEN 2372.
3380 Thermodynamics II ..... 3:3:0A continuation of ENGR 2374 including availability, vapor and gas cycles, mixtures of gases, thermodynamics ofchemical systems and psychrometrics.
Prerequisite: MATH 3401 and ENGR 2374.
4110 Seminar . ..... 1:1:0
Instruction in effective public speaking. Oral and written presentation and discussion of selected topics includ-ing those from current literature of fields related to mechanical engineering. Professional activities are encour-aged.
4310 . Integrated Systems Design3:2:3
1 The techniques of integrated systems design are treated. The student is required to utilize these techniques byperforming a system design. The formation of teams is facilitated. Instruction in team dynamics is provided.Presentation of intermediate and final results by each team to the class is required followed by peer response.Prerequisites: MEEN courses through third year and Senior stonding.
4313 Thermal Systems Design3:3:0Heat transfer study with emphasis on heat exchanger design, optimization of energy exchange, economics anddesign feasibility. A formal oral presentation of a written report is made'by the individual to the class followedby questions and answers.
Prerequisites: MEEN 3310, 3340, 33803:1:6Student research projects are planned, scheduled, designed and evaluated. Experience is gained in the executionof an engineering project and a formal technical report is required.
Prerequisite: MEEN courses through third year and senior standing.3:3:0A continuation of MEEN 3340 with emphasis on simulation methods and computer techniques in solving engi-neering problems.
Prerequisite: MEEN 3340, MEEN 3350.
4319 Materials Science ..... 3:2:3Atomic and crystallographic structures of materials, mechanical properties of materials, elastic and plasticbehavior as well as stress and strain measurement, yield phenomena, hardness and laboratory téchniques areconsidered. Criteria for selection of engineering materials are discussed.
Prerequisites: CVEN 2372.
4320 Mechanical Vibrations ..... 3:3:0
Topics in mechanical vibrations including an introduction to the theory of vibrations, mechanical vibration analysis methods including finite element modeling, mechanical vibration measurement and monitoring, interpretation of vibration measurements data and other mechanical vibration topics as appropriate.
Prerequisites: MEEN 3320, MEEN 3340.

## 4323 Mechanical Design III

Continuation of the design of machine components including the design of threaded fasteners and power screws, welded joints, mechanical springs, lubrication and sliding bearings, rolling-element bearings, spur gears, shafts, clutches and brakes, and miscellaneous power transmission components. Completion of the conceptual design begun in MEEN 3320 to include the addition of a power source, greater design detail in the elements, economic aspects of the design, and other matters as appropriate. Both a repori and a presentation are required. Team formation and the use of various engineering software packages are encouraged.
Prerequisites: MEEN 3320.

4350 Turbomachinery . . . . . .3:0
Flow problems encountered in the design of water, gas and steam turbines, contrifugal and axial-flow pumps and compressors, aerothérmodynamic design of gas turbines.
Prerequisite: MEEN 3311 and MEEN 3380.
4380
Environmental Systems Engineering 3:2:3
Design of refrigeration and air-conditioning systems including selection of mechanical equipment, controls, piping and duct layout.
Prerequisite: MEEN 3310, MEEN 3380 and MEEN 3311.

## Computing Laboratories

The Department has six laboratories as well as one room of terminals remotely attached to the campus mainframe computers (two DEC Alpha machines running OPENVMS and UNIX) housed in the Cherry Building. The labs operate on Ethernet networks. Included in the equipment are 90 Pentiums, four multimedia Pentium IIIs, a network of SUN workstations, three Intergraph machines for video editing and four Silicon Graphics workstations. The Péntiums are attached to two NT servers, and two switches provide $10 \mathrm{Megabit} /$ second transmissions to each desktop and to the server on the campus backbone. Direct access to the Internet and the World Wide Web is available from nearly all of the machines. Equipment and facilities offer students experience using OPENVMS, UNIX and Windows NT as well as several programming languages. A rich variety of application software packages such as Maple, Matlab and Oracle are located on our servers for student use in classes and research. The labs are open to all students on campus.

## Cooperative Education Program

The Department has had long standing cooperative (COOP) programs with many companies and industries, both in southeast Texas and around the state. This has proved to be an excellent program for both the students and the companies involved. The minimum requirements to be considered for a COOP position are a GPA of at least 2.75, 30 hours college credit, and 9 hours credit in Computer Science.

Some cooperative employers are American Petrofina, Southwestern Bell; Dow Chemical, DuPont, Houston Lighting and Power, NASA, Texas Instruments, IBM, Texaco Research, and Digital Switch. Students should apply after their sophomore year.

## Bachelor of Science - Computer Science

The Computer Science program at Lamar is a broad-based program in Computer Science emphasizing the areas of programming languages, data structures, information systems, theory of programming languages, software engineering, networking, database, multimedia, applications of computer science, and computer architecture. The program requires 42 hours in computer science, 17 hours in mathematics, 12 hours in laboratory science, 6 hours in free electives, 9 họurs in advanced electives as well as the general University requirements for a bachelor's degree.

The student who completes this four-year academic program is awarded a Bachelor of Science degree in Computer Science and is well prepared to pursue a professional career as a Computer Scientist, or to pursue graduate work in computer science or in an area of related specialization.

Students may also work on a dual B.S. degree in both Computer Science and Electrical Engineering. These students must take the following course list for the 12 restricted hours and the 9 elective hours: COSC 3306, COSC 4302, COSC 4307, COSC 4310, ELEN 4386, ELEN 4387, ELEN 4391 or ELEN 4392. The mathematics requirement is also slightly modified for the double degree. A complete list of courses for the double degree is described later in this document. This course list satisfies all requirements for a BS in electrical engineering, all the ABET requirements for an approved EE degree, and all the requirements for a BS in computer science. A student interested in this program must enroll in both departments.

## Entrance Requirements and Academic Standards of the Department of Computer Science

The entrance requirements and academic standards of the computer science department are the same as the College of Engineering with the following exceptions:

1. A student must have an overall GPA of at least 2.25 in all courses that count towards the degree to graduate.
2. A single "D". grade in a non-major course may be accepted at the discretion of the department chair. It is the department policy, however, that the student must retake any course in which they earn a grade of "D." The Chair will make an exception only under exceptional circumstances.
3. Pursuant to university policy, full time students must take English Composition each long semester until the minimum requirements in those areas are satisfied. In addition, full time students must also take Mathematics each long semester until at least twelve (12) hours towards the degree are completed. Students are expected to have taken mathematics at least through Pre-calculus or equivalent in high school.

## Requirements for a Minor in Computer Science

COSC 1373, COSC 1374, COSC 2371, COSC 2372, COSC 3340, and 6 additional hours taken from 3000 and/or 4000 level courses.

## Comments:

1. At least 6 of the 12 hours of electives must be upper-level courses. The student is encouraged to use these electives to specialize in a computer related area: COSC/CPSC courses may be taken as academic electives.
2. ĆOSC/CPSC/ELEN electives must be chosen from a list of designated academic electives that is available from the Computer Science Department and the College of Engineering Office of Advisement.
3. Entering students with no computer background should begin by taking COSC 1371 as an academic elective.
4. The four hours of lab science may be chosen from the following: CHEM 1411 or 1412 , BIOL 1406 or 1407 , or GEOL 1403 or 1404.
5. The current Fine Arts electives are ARTS 1301, DANC 1370, HUMA 1315 and THEA 1310. The current Social Science electives are ECON 1301, PSYC 2301, SOCI 1301, ANTH 2346, or both ECON 2302 and ECON 2301.
6. The current communication electives are COMM 1315, 2373, 2335, 3310 and 3340. CMOS 1375 is also allowed.

## Bachelor of Science - Computer Information Science Program

The Computer Information Science program has an overall emphasis on information networking and technology. An interplay of knowledge from areas such as distributed computing, software engineering, expert systems, information retrieval and database management systems define the information technology concept. Information networks are becoming an integral and strategic component of such industries as petrochemicals, transportation, space technology, education, banking and finance, medical applications, manufacturing and retailing. Graduates of this program will possess an integrated set of skills from the fields of engineering, computer science and business.

The program requires 42 hours in computer science and computer and information sciences, 13 hours in mathematics, 18 hours in business and communications, 8 hours in laboratory science, and 9 hours of electives, as well as the general bachelor's degree requirements.

Graduates of this program will be prepared to respond to the varied and changing needs of an information society. Such positions as Database Administrator, Network Manager, and Chief Information Officer are among the careers that are open to graduates in this field.

The study of the theory and applications of specialized computer languages and language packages. This course may be repeated for different languages and language packages. This course is an academic elective and will not be counted as a COSC/CPSC elective.
Prerequisite: Consent of instructor.
3302 Introduction to Computation Theory 3:3:0
Preliminary review/introduction of the mathematics and logic for the course. Programs and computable functions, primitive recursive functions, the universal program, Turing machines and regular languages.
Prerequisite: COSC 1374, MATH 2414 and MATH 2318.
3304 Introduction to User Interfaces and Object Oriented Design 3:3:0 This course will include user interfaces and elementary topics in computer-human interaction. Software such as Motif, X-Windows, and Java GUIs will be presented. In addition, interfaces in communications and alternative architectures will be discussed.
Prerequisites: COSC 2371.
$3306{ }^{\prime}$ UNDX/C++
Programming in $\mathrm{C}++$ in a UNIX environment.
Prerequisite: Approval of department chair.
3308 Survey of Programming Languages . 3:3:0
The organization of programming languages, especially run-time behavior of programs; the formal study of programming language specification and analysis, and the continued development of problem solution and programming skills.
Prerequisite: $\operatorname{COSC} 2371$.
3321 Advanced Microcomputer Applications 3:3:0
Hardware components, languages, operating systems, date file systems, utilities and software development for micro-computers.
Prerequisite: COSC 1371.
3325 Computer Law/Ethics 3:3:0
Ethical considerations for computer educators and computer scientists, and computer-related security and privacy issues. Copyright, patent, trademark and trade secret issues, venture capitalists, tax issues, computer torts, deceptive trade practices. computer crime, contract issues, constitutional issues and international trade considerations.
Prerequisite: COSC 1373 or COSC 1371 or another pragramming course.
3340 File Structure Design
3:3:0
Introduction to concepts and techniques for manipulating data on bulk storage devices. Topics include secondary storage devices, buffer and rec̣overy management storage structures, query processing and query optimization algorithms.
Prerequisites: $\operatorname{COSC} 2371, \operatorname{COSC} 2372$.
4101, 4201, 4301 Special Topics
An investigation into specialized areas of computer science under the guidance of a faculty member. This course may he repeated for credit when topics of investigation differ.
4302 Introduction to Operating Systems 3:3:0
To introduce the major concept areas of operating systems principles develop an understanding of the organization and architecture of computer systems at the register-transfer and programming levels of system description and the inter-relationships between the operating system and the architecture of computer systems.
Prerequisite: COSC 2371.
4307 Compiler Construction
3:3:0
Formal definition of programming languages, including specifications of syntax, semantics, statements and notations used in the construction of compilers; structure of translators and compilers.
Prerequisite: COSC 2371 and MATH 2314.
4309 Introduction to Simulation Techniques
3:3:0
Modeling of business and scientific discrete-even processes. Random number generation techniques, MonteCarlo simulation, discrete-event and unit time advance algorithms, queuing theory and stochastic models. Introduction to systems simulation and industrial dynamics. Programming assignments in $\dot{\mathrm{C}}++$ and specialized programming languages for simulation (GPSS, SIMSCRPPT, SIMULA).
Prerequisite: COSC 2371, MATH 2413 and MATH 1342 or MATH 3370.

The inacro structure and instruction set of computer systems. Survey of characteristic architectures of central processors and systems. Topics selected from mini-micro-mainframe and highly parallel computers. Micro-programmed control; I/O control; associative memories; characteristics of storage devices; paging; multi-processors; terminals.
Prerequisite: ELEN 3305 or ELEN 2300 or CPSC 3310 or permission of instructor.
4319. Computer Graphics

3:3:0
Basic principles for the design, use and understanding of graphics systems. Design and implementation of graphics software packages, applications and algorithms for creating and manipulating graphic displays.
Prerequisite: COSC 2371, MATH 2318 and MATH 2414.

# Computer Information Sciences Courses (CPSC) 

2371 Electronic Documents on the Internet
Hypermedia is the nonlinear viewing and presentation of information (text, images, sound, animation). Current
hardware and software used in the electronic production of documents containing multiple fonts, mathematical
equations, and hypermedia. Authoring systems, user interfaces, and navigation will be discussed.
Prerequisite: COSC 1373 and COSC 1374 or the equivalent.

3310 Computer Architecture and System Software 3:3:0
A functional system level in-depth study of computing equipment, organization of components and devices into architectural configurations, the principles of system software and data flow through hardware/software configuration.
Prerequisite: COSC 2371.
3320 Data Comm./Computer Networks
3:3:0
Study of problems and limitations associated with interconnecting computers by communication networks. Network architecture, signals, message and packet switching networks, network topology, routing, flow control, capacity assignment, protocols, çoding and multiplexing. Prerequisite: COSC 2371, MATH 2413.
4315 NETWORK SYSTEMS ADMINISTRATION
3:3:0
Topics include system security, shell programming, setting up user accounts, system configuration, system startup, management of file systems and disks, and backup and restore operations.
Prerequisite: COSC 2371.
4315 Network Systems Administration $\quad$ 3:3:0
Topics include system security, shell programming, setting up user accounts, system configuration, system startup, management of file systems and disks, and backup and réstore operations.
Prerequisite: COSC 2371.
4320 Advanced Topics in Networks
3:3:0
Topics will change to keep pace with changes in the field. The course will include topics from personal communication systems, mobile computing, gigabit network protocols, routing, optical computing, and multimedia. Prerequisite: CPSC 3320.
'4330 Multimedia Processing
3:3:0
Television style viewing and sound interfacing to computer systems. Software and architectural interconnection requirements of digital interactive video and audio technology, graphical user interface. Definition, examples, application, review of major implementations, and arčhitecture of hypertext systems. Voice technology: synthesis, recognition and response. Student projects.
Prerequisite: $\operatorname{COSC} 2371$, and $\operatorname{COSC} 3340$.
4340 Database Design 3:3:0
Logical and physical database system organization; logical models; design issues; secondary storage considerations. Design issues emphasizing the normal decomposition theory of the n-ary relational data model, the RM/T model and an introduction to logical implementations of databases.
'Prerequisite: $\operatorname{COSC}$ 3340, $\operatorname{COSC} 2371$ and MATH 2318.

Systems analysis, software requirements analysis and definition, specification techniques, software design methodologies, performance measurement, validation and verification and quality assurance techniques. Programming in Ada.
Prerequisite: COSC 2371 or CPSC 3320.
4370 Introduction to Artificial Intelligence
Introduction to concepts and ideas in artificial intelligence. Topics include search techniques, knowledge representation, control strategies and advanced problem-solving architecture. Programming in LISP and PROLOG.
Prerequisite: COSC 2371.

Assistant Professors: Andreev, Baker, Daniel, Dawkins, Harvill, Lauffer, Peterson, Read, Winfield

The Department of Mathematics offers courses in applied and pure mathematics, mathematics education for elementary and secondary school certification and statistics. These programs permit students to select courses suited to a variety of interests and career goals. Advising plays an integral role in achieving these objectives. Consequently each student is assigned an advisor to assist with scheduling and career planning.

The department offers the following Baccalaureate degrees:
Bachelor of Arts in Mathematics
Bachelor of Science in Mathematics
These two degree programs emphasize the traditional aspects of mathematics, both as a basic science and as the major tool in solving problems. They provide depth in analytical reasoning, abstraction and structure. Students graduating with these degrees are equipped to enter secondary teaching or to. pursue graduate programs. They also pursue careers in a variety of fields, including positions in industry, business and government.

The importance of the mathematical sciences to the scientist and engineer cannot be overemphasized. Many phenomena of nature can best be understood when translated into the language of mathematics. A student majoring in science or engineering at the university should become acquainted with the basic tools of mathematics.

Undergraduate education in mathematics has, and will continue, to undergo substantial changes during this decade. The computer is primarily responsible for this. High-speed computing machines have for many years been an important mathematical applications tool in business, industry and government. This has created new demands for professional applied mathematicians. Such people optimally have a solid background in basic mathematics, an understanding of algorithm design and analysis, a pro-
gramming skill in at least one programming language, and finally, a mastery of important techniques in applied mathematics, such as operations research and statistics.

People with such qualifications may secure positions in industrial management, market forecasting, high-technology fabrication plants and other comparable positions.

Finally, those with an interest in statistics are quite valuable to firms-for example, banking and insurance who deal with a large amount of data and thus need professional mathematicians to develop and maintain the associated computer software.

## Placement

Entrance, into all mathematics courses is determined by the advisor in the student's major department, consistent with course prerequisites and possible SAT and TASP (Texas Academic Skills Program - Certification Test for Entrance into College) requirements for entry level courses. Students who fail the mathematics portion of TASP must begin their mathematics with DMTH 0371. Students who have passed the mathematics portion of TASP but do not have an adequate SAT score are to initiate their mathematics with DMTH 0372 or possibly MATH 1335 depending upon the mathematics requirements in their major degree plan.

## Teacher Certification Mathematics

Those wishing to secure a provisional certificate-secondary with a teaching field in mathematics-need to consult the College of Education section in this bulletin for details concerning certification.

## Suggested Programs of Study

## Requirements Common to B.A. and B.S. Programs:

1. General requirements:
See core curriculum, $p$.

2. Major requirements: 52 hours
a. MATH $2305,2413,2414,2415,2318,3311,3330,3350,3370,3380,3401$, 4310, 4315
b. MATH Electives - One advanced course.
c. Two computer courses approved by the Department of Mathematics
3. Minor requirements (seeB.A., B.S. programs below)
4. Electives (see B.A., B.S. programs below)
5. Degree credit for Mathematics courses is allowed only for courses in which a grade of "C". or better is earned.
6. Students graduating with a Baccalaureate Degree in Mathematics are required to take a national standardized examination. The exam presently being used is the Educational Testing Service and College Board Achievement Test. The test results should be sent directly from the testing service to the Mathematics Department of Lamar University. Students taking the exam must have completed 90 semester hours and should have credit for or be enrolled in MATH 3350.
Bachelor of Arts - Mathematics Major
7. Additional General Requirements: Complete the course numbered 2312 in a for-eign language.
8. Additional Major Requirements: None

Mathematics Courses (MATH)1314 College Algebrà3:3:0Linear and quadratic equations and inequalities, determinants, matrices, systems of equations, binomial theo-rem, exponential and logarithmic functions, theory of equations.Prerequisite: Two years of high school algebra, 480 Math SAT or DMTH 0372 and 260 TASP.
1316 Trigonometry ..... 3:3:0Ștudy of trigonometric functions, graphs, identities, inverse trigonometric functions, trigonométric equations,and applications of trigonometry. Recommended for students who have not had high school trigonometry.Prerequisite: Two years' of high school algebra, MATH 1314 or concurrent, and 260 TASP.
1324 Mathematics for Business Applications ..... 3:3:0
Review of basic algebraic techniques, linear equations and inequalities, the mathematics of finance, matrices, linear programming and an iniroduction to probability and statistics.
Prerequisite: Two years of high school algebra, 480 Math SAT or MATH 0372 and 260 TASP.
1325 Elements of Analysis for Business Applications ..... 3:3:0
An introduction to calculus. The derivative, applications of the derivative, techniques of differentiation, expo- nential and natural logarithmic functions, an introduction to integral calculus. Prerequisite: MATH 1324 or 1314, or their equivalent.1335 - Math for Elementary Teachers I3:3:0Sets, elementary logic, the system of whole numbers, the system of integers, elementary number theory, the sys-tem of rationals and the system of real numbers.Prerequisite: Two years of high school algebra and 260 TASP or MATH 0372.
1336 Math for Elementary Teachers II ..... 3:3:0Equations, inequalities, graphs, functions, geometry, counting methods, probability and statistics,Prerequisite: MATH 1335.
1342 Elementary Statistics ..... 3:3:0Non-calculus based introduction to statistics. Statistical measures of data, statistical description of data, elemen-tary probability, random variables, binomial and normal distribution, estimation, testing hypotheses.Prerequisite: MATH 1314 or its equivalent.
2305 Discrete Mathematics ..... 3:3:0An introduction to combinatorial and finite mathematics required in the study of computer science. Topicsinclude special functions such as truncation, floor and ceiling, number theory, matrix algebra, summation nota-tion, logic and Boolean algebra, probability, combinatorics, graph tbeory, difference equations and recurrencerelations.
Prerequisite: MATH 1314 or its equivalent.
2312 Precalculus Mathematics ..... 3:3:0Intensive review of algebra, trigonometry and analytic geometry. Prepares students for MATH 2413 and 2376.Prerequisite: Two years of high school algebra, trigonometry, 480 Math SAT and 260 TASP.

- , A first course in linear algebra, including vector and matrix arithmetic, solutions of linear systems and theEigenvalue-Eigenvector problem, elementary vector spaces, and linear transformation theory.Prerequisite: MATH 2413 (MATH 2376) or current enrollment in MATH 2413 (MATH 2376).
2376 Caiculus I ..... 3:3:0
Sets, functions, limits, derivatives and applications, introduction to integral calculus. Designed for studentsmajoring in business, social and life sciences.Prerequisite: MATH 2312 or its equivalent.
2377 Calculus II ..... 3:3:0Integral calculus and applications, functions of several variables, convergence and divergence of series andsequences. Designed for s̈tudents majoring in business, social and life sciences.Prerequisite: MATH 2376.
2413 Calculus and Analytic Geometry I ..... 4:4:0Functions, limits, derivatives of algebraic, trigonometric, exponential and logarithmic functions, curve sketch-ing, related rates, maximum and minimum problems, definite and indefinite integrals with applications.Prerequisite: MATH 2312 or its equivalent.
2414 Calculus and Analytic Geometry II ..... 4:4:0Methods of integration, polar co-ordinates, parametric equations, sequences and series, and vectors.Prerequisite: MATH 2413 or its equivalent.
2415 . Calculus and Analytic Geometry III ..... 4:4:0Functions of several variables, partial derivatives, vector analysis, multiple integrals and differential equations.Prerequisite: MATH 2414 or its equivalent.
3300 .History of Mathematics3:3:0Historical origin and development of mathematical concepts through the sixteenth century. Topics includeEgyptian and Babylonian mathematics, Greek mathematics, and early European mathematics.Prerequisite: junior standing and six̣ hours of mathematics.
3311 Foundations of Mathematics ..... 3:3:0Introduction to mathematical logic and set theory, cardinal and ordinal arithmetic, structure of the integers,rational number and real number systems.
Prerequisite: MATH 2414.
3313 Elementary Geometry ..... 3:3:0The development of Euclidean geometry, concepts of measurement and co-ordinate geometry.Prerequisite: MATH 1335.
3315 Elementary Number Theory ${ }^{\text {* }}$ ..... 3:3:0A development of the elementary theory of numbers, Diophantine equations, congruences, Fibonacci numbersand magic squares.Prerequisite: MATH 1314 and MATH 1335.
3317 Problem Solving ' ..... 3:3:0Study of heuristics and strategies used in solving problems, with extensive practice in solving word problemsinvolving skills in arithmetic, algebra, geometry, and logic.
Prerequisite: 9 semester hours of Mathematics.
3321 Discrete Structures3:3:0Combinatorics, graphs, Boolean algebra, algebraic structures, coding theory, finite state macbines, machinedesign and computability.Prerequisite: MATH 2414 and 2318, and COSC 1373.
3330 Higher Geometry ..... 3:3:0Axiomatic and set-theoretic treatment of geometry, analysis of the metric and synthetic approaches to Euclideangeometry, introduction to non-Euclidean geometries.
Prerequisite: MATH 2414 or consent of the instructor.
3350 Modern Algebra3:3:0An introduction to algebraic structures, groups, rings, integral domains and fields.Prerequisite: MATH 3311 and MATH 2414 (or 2377).
3370 - Introduction to the Theory of Statistical Inference ..... 3:3:0A calculus-based introduction to statistics. Probability, special probability distributions, nature of statisticalmethods, sampling theory, estimation, testing hypotheses.Prerequisites: MATH 2414 or 2377.
3380 Advanced Calculus ..... 3:3:0Sequences, series, Riemann integral, Weierstrass approximation theorem, Lebesgue integral.Prerequisite: Math 2415.3401 Differential Equations and Linear Algebra4:4:0Classical techniques for ordinary differential equations. linear algebra, linear systems of ordinary differentialequations, series solutions and Laplace transforms.Prerequisite: MATH 2415,

4202. Partial Differential Equations ..... 2:2:0
Boundary value problems for the heat equation, wave equation, and potential (Laplace) equation, Fourier methods.
Prerequisite: MATH 2415 and MATH 3401
4310 . Complex Variables
Complex numbers, analytic functions, complex line integrals, Cauchy integral formula and applications.
Prerequisite: MATH 2415.
4315 Numerical Analysis
Algorithms for solving linear and non-linear equations and systems thereof, interpolating polynomials, finite difference approximations of derivatives, techniques of numerical integration, one-step and multi-step methods for solving ordinary differential equations and systems thereof.
Prerequisite: MATH 2415 and COSC 1373, or their equivalents.
4316 Mathematical Programming 3:3:0
Linear programming, unconstrained and constrained optimization, Lagrange multipliers, Newton's method, steepest descent, convex programming.
Prerequisite: MATH 2414, MATH 2318 or MATH 3401
4330 Linear Algebra II . . . . . . . . . . . . . 0
Vector-spaces, linear transformations, matrices, determinants, Eigenvalues, Eigenvectors; canonical forms, bi-linear mappings and quadratic forms.
Prerequisite: MATH 2414 and MATH 2318.
4331 Special Problems $\quad$ 3:3:0
Special advanced problems in mathematics to suit the needs of individual students. Course may be repeated for credit when the topic varies.
Presequisite: Consent of instructor.
4203. Theory of Statistical Inference 3:3:0
A formal introduction to statistical inference, sampling theory, general principles of statistical inference, goodness of fit tests, regression and correlation, analysis of variance. .
Prerequisite: MATH 3370

Expert faculty and working artists who teach encourage students to develop professionalism as they explore their creativity.

# College of Fine Arts and Communication 

Departments: Art; Communication; Communication Disorders; and Music, Theatre and Dance

Russ A. Schultz, Dean

Art Building, Office 100, Phone 880-8137

## Aims and Purposes

Within the context of a philosophy that suggests that art and science may improve upon nature, the College of Fine Arts and Communication provides work on a professional level in several creative and practical disciplines. The College also assumes the role of contributing to the education of the "whole" person; therefore, with the possible exception of some of the upper-level courses, all of the work available in the College is open to and within the capabilities of most students enrolled in the University. It is the purpose of those courses in the fine arts to confront the unknown from a non-science oriented approach to knowledge, to encourage the development of aesthetic sensitivity and to provide for an enriching artistic experience. Several programs in Communication are available within the College. The goal of the coursework in these areas is to educate students for professional work within the fields of public speaking, the mass media, communication disorders and deaf education.

## Degrees Offered

The College of Fine Arts and Communication offers the following degree programs:

1. Department of Art

Bachelor of Fine Arts with emphasis in either Studio Art or Visual Design
Bachelor of Science in Visual Art (Leading to Teacher Certification)
2. Department of Communication

Bachelor of Science in Communication Studies
3. Department of Communication Disorders

Bachelor of Science in Communication Disorders
4. Department of Music, Theatre and Dance

Bachelor of Music in Performance
Bachelor of Music (Leading to Teacher Certification)
Bachelor of Science in Theatre (Leading to Teacher Certification)
Bachelor of Arts in Theatre
Bachelor of Science in Dance (Leading to Teacher Certification)
Bachelor of Science in Dance
Bachelor of Arts in Dance
Descriptions of graduate programs leading to the Master of Art in Visual Art (with either a Studio Art or Art History emphasis), Master of Music, Master of Music Education, Master of Science in Audiology, Master of Science in Speech-Language Pathology, Master of Science in Deaf Studies/Habilitation, and Doctor of Education in Deaf Education degrees are discussed in the Graduate Catalog.

## Humanities Courses (HUMA)

The Departments of Art; Communication; and Music, Theatre and Dance cooperate in the offering of an interdisciplinary course in fine arts appreciation.

## 1315

Understanding the Arts
3:3:0
Through the study of art, music and theatre this course intends to provide a medium of learning which broadens the cultural horizon, engenders respect for man's creative potential, and encourages emotional maturity through awareness and understanding of aesthetic responses.

# Department of Art 

Department Chair: Donna M. Meeks

Dishman Art Gallery, Phone 880-8141
Professors: Newman, Lokensgard
Associate Professors: Carter, Jack, Meeks
Assistant Professors: Hodges, Matlock, Thomas, Dyrhaug.
Walles Chair in Visual and Performing Arts: Carter
The Department of Art provides an environment designed to nurture artistic, ačademic and personal growth in our students. Through its curricula and community outreach the Department prepares the student for a professional career in the discipline with courses in both practice and theory. In a time when the visual arts are undergoing rapid change, the department maintains a balance between its own traditions and the unknown challenges of a post-modern future, between skill-building and theoretical insights. Educational, cultural, and academic opportunities are made available so that each student might reach his or her full potential and participate in those human experiences and qualities which are inherent in the fine arts. Building on a legacy of quality teaching, the faculty of the Department of Art is actively involved in scholarly and creative activities, and serves both as a purveyor of information and as a living example of commitment to excellence.

The Department of Art offers undergraduate instruction leading to the Bachelor of Fine Arts Degree in Visual Art with an emphasis in Visual Design or Studio Art. 'Students may elect courses that further professional development in the following areas: Visual Design, Illustration, Computer Graphics, Photography, Painting, Drawing, Printmaking, Sculpture, Ceramics, and Fibers. The Bachelor of Science degree is offered in visual art for students seeking all-levels certification. Art electives are available for non-majors who desire experiences in the visual arts as part of their general education.

All students entering a degree program in art must be counseled by the chair of the art department as to study options in the department and attend a freshman orientation presented by the department. Art majors are required to follow the prescribed sequence of courses. The letter grade " C " will be the minimum prerequisite grade for continuing studio courses in sequence.

Each art major will be required to submit 5 slides of his/her art projects per studio course, in order to document his/her progress.

After completing foundational studies (ARTS 1311, 1312, 1316 and 1317), all art majors must participate in Sophomore Review as conducted by the department.'

All graduating art majors must be counseled by the art department chairperson during the first semester of their senior year. During either the Fall or Spring semester. prior to graduation, a candidate for a Bachelor of Fine Arts degree in art will be required to take Senior Thesis and prepare an exhibition.

A non-major student may be admitted to an art course requiring prerequisites with the consent of the instructor. A minor in art is available to students in other programs or departments by earning 18 hours of credit approved by the department head.

Transfer credit of Freshman and Sophomore art courses is in compliance with the Transfer Curriculum for Visual Arts adopted by the Texas Higher Education Coordinating Board.

## Suggested Programs of Study

## Bachelor of Fine Arts - Visual Design Emphasis

Bachelor of Fine Arts in Visual Art with a visual design emphasis requires 48 hours of academic foundations with 78 credit hours of professional program.

## First Year

*ARTS 1303-1304 prerequisite to all Art 3000-4000 level courses for art majors.

## Bachelor of Fine Arts - Studio Art Emphasis

Bachelor of Fine Arts in Visual Art with a Studio Art emphasis requires 48 credit hours of academic foundations and 78 credit hours of professional program to include studio elective courses based on a student's selected major in one of the following areas:

Painting: 2316, 3316, 3317, 3326, 3327, 4316, 4326
Printmaking: 3355, 3365, 4355
Drawing: 2323, 2324, 3315, 3325, 4315, 4325
Sculpture: 2326, 3375, 4375
Ceramics: 3376, 3386, 4376

## Art Courses (ARTS)

1301 Art Appreciation ..... 3:3:0
An introductory course emphasiziarchitecture). Open to all students.
1303 Art History Survey I ..... 3:3:0
A survey of painting; sculpture, architecture and the minor arts from prehistoric times to the 14th Century.
1304 Art History Survey II ..... 3:3:0A survey of painting, sculpture, architecture and the minor arts from the 14th Century to 1789.
1311 Design I ..... 3:3:3
The study of the elements and concepts of two-dimensional design.
1312 Design II ..... 3:3:3Continuation of Design 1 with emphasis upon three-dimensional concept.Prerequisité: ARTS 1311.
1316 Drawing I ..... 3:3:3
A beginning course investigating a variety of drawing media, techniques and subjects, exploring perćeptual anddescriptive possibilities.
1317 Drawing $\boldsymbol{I}$ ..... 3:3:3Continuation of Drawing I stressing the expressive and conceptual aspects of drawing.Prerequisite: ARTS 1316.
2311 Design III ..... 3:3:3An advanced investigation into historical and contemporary color theories and systems.Prẹequisite: ARTS 1312.
2316 Painting I ..... 3:3:3A course exploring the potentials of painting media with emphasis on color and composition.Prerequisite: ARTS 1317 and ARTS 1312.
2323. Drawing III ..... 3:3:3A life-drawing course emphasizing structure and action of the human figure.Prerequisite: ARTS 1317.
2324 Drawing IV ..... 3:3:3A continuation of Drawing III with emphasis on individual expression.Prerequisite: ARTS 2323.
2326 Sculpture I ..... 3:3:3
An explorattećhniques.
Prerequisite: ARTS 1317 and 1312.
2331 Visual Design I ..... 3:3:3An introduction to typography, layout and design for print and media production.
2356 Photography I ..... 3:3:3
An introduction to basic photographic processes and techniques used as an art medium.
2379 Photography II ..... 3:3:3
Advanced study of black and white photography as an art medium.
Prerequisite: ARTS 2356.
3199 Studio Seminar ..... 1:1:0
Seminar for all junior and senior students. After passing Sophomore Review, this course must be taken threetimes before starting senior thesis. May be repeated for credit.
3303 Large Format Camera Photography ..... 3:3:3
Introduction to the use of both medium format and view cameras.Prerequisite: ARTS 2379.
3313 Illustration I ..... 3:3:3
A media course. The preparation and execution of graphic material for reproduction.
3315 Drawing V ..... 3:3:3Continuation of Drawing IV with emphasis on experimentation with various media for their adaptability todrawing principles.Prerequisite: ARTS 2324.
3316 Watércolor I

# Department of Communication 

Department Chair: W. Patrick Harrigan

201 Communication, Phone 880-8153
Professors: Brentlinger, Harrigan
Associate Professors: Baker, Roth
Assistant Professors: Elliott, Husselbee, Michalski, Stanley
Instructors: Perkins
The Department of Communication offers the Bachelor of Science degree in Communication for students interested in Corporate Communication or Public Communication and in the fields of Journalism or Media.

Teacher certification plans are offered in conjunction with the major study of Public Communication (for the teaching field of Speech) and of Journalism. Students interested in details concerning requirements for teacher certification and the professional education course requirements should consult the College of Education and Human Development section of this catalog.

A new student beginning study at Lamar University must meet all admission requirements of the University (See "ADMISSIONS" on page 24) and have a minimum score of 800 on the SAT or an equivalent composite ACT score to pursue a bachelor's degree in the Department of Communication. Transfer students or students who wish to enter Department of Communication programs by change of major must meet the same requirements or hold a minimum grade point average of 2.00 or better. Grades of "D" are not accepted as course completion for required classes in departmental majors, nor are they acceptable as course completions for classes to be used as professional electives by stupdent majors within the department.

## Programs of Study

All majors in the department must complete the basic Core Curriculum requirements of Lamar University as their academic foundation course work. The student's advisor will provide direction to the student concerning departmental requirements within the Core Curriculum when course choices are available to meet the University's Core Curriculum requirements. PSYC 2301 should be taken to meet the Social Science requirement. Other required courses are listed with the information about each major.

## Bachelor's Degree in Communication

The bachelor's degree programs in Communication prepare students for careers in corporate communication, journalism, media or public communication and require each student to complete a REQUIRED departmental core curriculum of ten courses ( 30 hours). In addition, students will complete advanced classes in communication for their specific career interests.

Required classes for the departmental core curriculum include COMM 1370, 1307, 1373, 1318, 4340; three of the following: COMM 4301, 4310, 4320, 4381,4383, OR 4390; and two of the following four classes: COMM 2373, 2341, 2335, OR 3340.

Students interested in careers in public relations and/or corporate communication (human resource development, personnel management), journalism, media or public communication should consult a faculty advisor for specific professional electives. This program serves as an appropriate curriculum for those who wish a career as a communication practitioner or for those that want to enter law school, a seminary or to pursue a graduate degree.

The Department of Communication Disorders (CMDS) supports instruction, research, and service, the primary mission areas of Lamar University, through the degree programs offered. The Department offers a Bachelor of Science Degree in Communication Disorders for students interested in pursuing work in the fields of Audiology, Deaf Education, and Speech-Language Pathology. The undergraduate major is a multi-disciplinary pre-professional program that provides a foundation for a graduate specialization, state license, and/or national certification within the professional fields of Audiology, Deaf Education, and Speech-Language Pathology. This program of study is accredited by the American Speech-Language-Hearing Association and by the Council on Education of the Deaf. Completion of the Master's Degree is mandated by Texas law for professional employment in Audiology and Speech-Language Pathology and strongly advised by our departmental faculty in Deaf Education (See Graduate Catalog for requirements).

Teacher certification plans are offered in conjunction with the major study of Deaf Education. Details concerning requirements for teacher certification and the professional education course requirements should be obtained from an undergraduate advisor in Deaf Education and/or from the College of.Education and Human Development section of this catalog.

A new student initiating study at Lamar University must meet all admission requirements of the University (See "Admissions" this catalog). Transfer students or students who wish to enter the Department of Communication Disorders programs by change of major must meet admission requirements or have a minimum grade point average of 2.50 or better. Grades of "D" are not acceptable as course completion for required classes in departmental majors, nor are they acceptable as course completion for classes to be used as professional electives by student majors within the department.

## Programs of Study

All majors in the department must complete the basic Core Curriculum requirements of Lamar University as their academic foundation course work. Faculty advisors will provide direction to the student concerning departmental requirements within the Core Curriculum when course choices are available to meet the University's Core Curriculum requirements. The Department of Communication Disorders requires all transfer, freshmen-level, and senior-level students to see a faculty advisor within the department. Further, this Department strongly encourages all students to seek academic advisement from the faculty for efficient matriculation through the undergraduate program. Advisors may be seen during the university posted time for each semester or by appointment. Required courses are listed with more information about each.

## Bachelor's Degree in Communication Disorders

The bachelor's degree program in Communication Disorders preparing students for graduate specialization in Audiology, Deaf Education, and Speech-Language Pathology requires each student to complete a REQUIRED departmental core of seven courses. In addition, each student will complete five advanced classes for the student's specific career interests for a total of 36 hours.

Required classes for the departmental core curriculum include CMDS 1374, 1375", 2371, 2372, 2373, 2374, 3302, and five of the following: CMDS 3301, 3304, 3305, 4301, 4302, 4303, 4304, 4305, 4306, 4326, 4350*. A special note: CMDS 2375, American Sign Language I, is taken by all Communication Disorders majors in lieu of one English Literature course.

## * CMDS 4350 may be taken with faculty advisor and department chair approval.

Three undergraduate degrees offered are 1) Bachelor of Music in Performance, 2) Bachelor of Music in Composition and 3) Bachelor of Music (leading to Teacher Certification). The Bachelor of Music (leading to Teacher Certification) offers specialization in either Band, Choir, or Orchestra. Two graduate degrees offered are 1) Master of Music in Performance and 2) Master of Music Education.

The Theatre unit is an accredited member of the Texas Educational Theatre Association. Four undergraduate degrees are offered: 1) Bachelor of Arts in Theatre, 2) Bachelor of Arts in Theatre (leading to Teacher Certification), 3) Bachelor of Science in Theatre and 4) Bachelor of Science in Theatre (leading to Teacher Certification). One graduate degree is offered: Master of Science in Theatre.

The Dance unit offers three undergraduate degrees: 1) Bachelor of Science in Dance (leading to Teacher certification), 2) Bachelor of Science in Dance and 3) Bachelor of Art in Dance.

## Requirements for Music Majors

1. Meet the basic.requirements for all degree programs.
2. Complete one of the programs of study listed below.
3. Complete seven semesters of MUSI 1170 (Recital Attendance) to be approved for graduation.
4. A music course with a grade of "D" will not apply toward graduation.
5. All students must continue to take secondary piano for as many consecutive long semesters as are required for the completion of the piano proficiency exam.
6. Piano majors will take secondary voice or secondary instruments, whichever applies to their intended course of study (vocal or instrumental), for as many consecutive long semesters as are required for the completion of the vocal or instrumental proficiency exam.

## Music Minor

Stúdents who elect music as a minor must complete a minimum of 18 hours in music theory, applied music, or music literature, six of which must be advanced courses. Two semesters of Recital Attendance (MỤSI 1170) will also be required. Music laboratory credit may be used at the discretion of the department chair. Music education certification is not available to students who minor in music.

## Audition Procedure

To be accepted as a music major at Lamar University, students, both new and transfer, must pass an audition in their major performance area (applied music). Audition dates may be obtained by contacting the Lamar. University Department of Music, Theatre and Dance. Special audition dates can be arranged if necessary.

## Theory Placement Examination

All music major applicants will be given a Theory Placement Examination to determine their level of theoretical knowledge. The examination will include key signatures, triads, treble and bass clefs, musical terms, and ear training.

## Applied Music Requirements

## General Requirements

Music majors must be enrolled in applied music each long semester until the applied music requirement is met. The required sequence of courses includes a minimum of four semesters of lower-level ( 1200 series) courses in applied music.

Students in the teacher certification program must complete three additional semesters of upper-level ( 3200 series) applied music courses. Students in the performance program must complete four semesters of upper-level ( 3400 series) applied music courses.

Completion of the applied music requirement signifies the attainment of a given level of artistic performance rather than the completion of a specific number of semester hours of credit. A student may, at the discretion of the applied music faculty, be required to repeat any course in the applied music sequence; in such a case, the course may be repeated for credit. The applied music requirement is not satisfied until approval of the faculty is obtained.

Any student registered for an applied music course (except 1101, 1176 or 1181) will be required to perform a jury examination each long semester. With permission from the private instructor, a student may be exempt from jury examination in the semester during which the Senior Recital is to be performed.

## Recital Performance Requirements

Bachelor of Music (leading to Teacher Certification): Each Bachelor of Music (leading to Teacher Certification) major will perform a senior recital 30 minutes in length. The recital may be performed jointly with another student and will take place during the senior year. The recital can be scheduled during the regular recital period or as an afternoon recital. The student must be enrolled in applied music during the semester in which the recital is to be performed. Bachelor of Music (in Performance): 1) Upon completion of four semesters of lower-level applied music, the student must pass a performance jury examination to be eligible to advance to upper-level ( 3400 series) applied music courses; 2) during the second semester of upper-level instruction, the performance major must play a junior audition recital. This recital must be 30 minutes in length and may be given jointly with another student; however, each performer must complete his or her portion of the recital in succession. The recital can be given during the regularly scheduled recital period or as an afternoon recital. A satisfactory Junior Audition Recital is a prerequisite for proceeding to a Senior Performance Recital; 3) during the fourth semester of upper-level study, a Senior Performance Recital will be given. This recital must be 60 minutes in length and may be scheduled during the regular recital time, at the afternoon recital time, or at an approved evening time. Recital requirements for Bachelor of Music in Composition: Junior year: Public presentation of at least one original composition for any medium. Minimum length: 5 minutes. The student is responsible for recruiting and rehearsing the performer(s). Senior year: Presentation of a recital of original compositions. Generally the requirement is for at least four compositions, for differing miedia, although if one or more compositions are unusually long, exceptions may be made. Minimum length: 25 minutes of music (excluding time between movements, set-up time between pieces, etc.). The student is responsible for recruiting and rehearsing the performers, as well as coordinating the performance. Part of the grade for the recital will be dependent on the success of these efforts. General policies for performance major auditions and recitals: 1) A performance major MUST make formal application for admission to upper-level applied music, junior audition recital and senior recital at least two weeks prior to the jury or recital. The application forms are available from the chair of the music department and should be submitted to the applied teacher; 2) to advance to upper-level applied music, the performance major must have two-thirds approval of the sophomore jury panel; 3) junior audition recitals and senior recitals will be graded on a pass/fail basis by a facul-
ty panel of three, chosen by the chair of the music department and the private teacher. Two-thirds approval of the faculty panel is necessary to pass. The student must be enrolled in applied music during the semester in which the recital is to be performed.

## Ensemble Participation

Participation in a major ensemble is required of full-time music students each long semester, except when student teaching. Major ensembles are as follows:

1) For vocal and keyboard (vocal emphasis) students: MULB 1170 (A Cappella Choir) or MULB 1172 (Grand Choir) (Placement by Audition)
2) For wind, keyboard (instrumental emphasis) and percussion students: MULB 1271 (Marching Band) and MULB 1177 (Symphonic Band)
3). For string students: MULB 1173 (Orchestra)

## Requirements for Theatre Majors:

This program provides a well-balanced curriculum that prepares students to enter either the professional theatre or the teaching profession on the secondary level. Students participate in all phases of scheduled theatre productions and are provided a background in both performance and technical theatre aspects.

New students and transfers should refer to the front of the catalog for admission requirements and must see the Director of Theatre immediately for purchase of a Theatre Manual of Procedures for other requirements of this field. New students and transfers must enroll in THEA 1370 for two consecutive semesters and follow that with two semesters of THEA 2370. Minors should enroll in one semester each of THEA 1370 and 2370. A theatre course with a grade of "D" or lower will not apply toward graduation.

## Suggested Programs of Study Dance

The dance division offers two programs of study. A student choosing a public school teaching career should follow the certification program which leads to certification to teach dance plus an approved additional teaching field at the secondary level. A student selecting the non-certification program prepares for a career in private studio teaching, administration, choreography, professional performance and other dancerelated fields. A student must have completed the English, Math, Biology, Political Science and History General Education Requirements before enrolling in the 300- and 400 -level dance theory courses. A grade of " C " must be earned in each of the dance theory courses; a grade of "B" must be earned in each of the dance studio courses.

## The Graduate Catalog

The Graduate Catalog contains a complete listing of courses, admission requirements and other information of value to graduate students. Requests for copies should be directed to the College of Graduate Studies, Lamar University, Box 10078, Lamar University Station, Beaumont, Texas 77710.

## Admission to Graduate Programs

All students seeking admission to a degree program 'must first meet the minimum standards of the College of Graduate Studies. Applicants must also have the approval of the department in which the degree program is offered. The admission standards of departments may exceed those of the College of Graduate Studies.

1. Application Deadlines: Domestic students (U.S. citizens and permanent residents) must submit all application materials at least 30 days before Fall, Spring or Summer registration. Deadlines for international students are May 15 for Fall semester, October 1 for Spring, and February 15 for Summer terms.
2. Application Submission by Domestic Students (U.S. citizens or permanent residents): Applicants for admission to the College of Graduate Studies must submit the following to the Graduate Admissions coordinator at least 30 days before registration:

## A. Completed Application Form

B. Transcripts. Submit an official transcript from each college or university attended. All transcripts submitted to Lamar University become the property of the University and are not returnable.
C. GRE and GMAT Test Scores: With two exceptions, all prospective graduate students are required to submit scores on the Graduate Records Examination '(GRE). Applicants should have the Educational Testing Service, which administers the GRE, send their test scores directly to Lamar University, Beaumont. The two exceptions to the GRE requirement are applicants for the Master of Business Administration (MBA) and deaf applicants. MBA applicants are not required to take the GRE, but must submit scores on the Graduate Management Test, GMAT. See the College of Business section of the Graduate Catalog for specific requirements. Deaf applicants may substitute performance intelligence and reading ability test scores for the GRE. GRE and GMAT scores more than five years old will be accepted only with permission of the Graduate Dean.
3. Deaf applicants who have a severe or a profound hearing loss acquired congenitally or prelingually will be considered on an individual basis and need not submit GRE or GMAT scores. In lieu of GRE/GMAT scores, deaf applicants must submit above-average performance intelligence scores (preferably the performance scale of the WAIS-R) and above-average university grades, pass an interview with an admission committee comprised of faculty from the receiving department, and demonstrate adequate literacy and communication skills for graduate training. Literacy in this case includes both the reading and writing of English, but not necessarily equivalent to hearing norms. Communication skill may be demonstrated in sign language an'd/or speech.
4. Admission Standards for Domestic Students:
A. Undergraduate Degree. A prospective student must have a bachelor's degree from an institution approved by a recognized accrediting agency.
B. GRE Scores and Grade Point Average (GPA). All applicants for full admission, except for deaf students and those seeking admission to the MBA program, must meet the institutional GRE and GPA standard according to the formula (GPA $\times 200+[G R E V+Q) \geq 1350$. The GPA used in the formula may
be either the overall or the last 60 semester hours, whichever is higher. The grade point average is calculated by dividing the total number of semester hours attempted or by the last sixty semester hours). For this computation, " $A$ " equals 4 grade points, " $B$ " equals 3 , " $C$ " equals 2 , " $D$ " equals 1 and " $F$ " equals 0. Individual departments may have GRE and GPA standards which exceed the institutional minimum. See the department sections of this cata$\log$ for admission standards which vary from the institutional minimum.
C. GMAT Scores. Admission to the Master of Business Administration (MBA) program is based in part on a formula that considers both the undergraduate GPA and the GMAT score. See the College of Business section of the Graduate Catalog for details.
D. Undergraduate Grade Point Average. Our admission standard of (GPA x $200)+(G R E \cdot V+Q) \geq 1350$ is such that lower GPAs require higher GREs. Similarly, for the College of Business, the admission formula considers the GPA in such a way that the GMAT and GPA are interdependent (the GPA minimum "floats" in relationship to the applicant's GMAT score). See the College of Business section of the Graduate Catalog for details.
E. Provisional Admission. In those departments or programs that have admission standards exceeding the institutional minimum, we allow, at departmental discretion, provisional admission. A•student admitted provisionally must complete the'first nine semester hours of graduate work with a GPA of at least 3.0. A student who does not meet the 3.0 GPA after nine semester hours is subject to dismissal.
F. Undergraduate Work in Intended Major Field, Prerequisites and Deficiencies. The applicant for graduate study ordinarily must have completed no fewer than 24 semester hours of undergraduate work in the intended major field, 12 of which must be at the junior and/or senior level. Applicants who do not meet this requirement may be required to make up such deficiencies as prescribed by the graduate major. A GPA of 3.0 for assigned deficiency/leveling courses must be maintained, and grades below "C" will not be accepted. Departments that wish to do so may establish more stringent requirements. MBA students with deficiencies will be required to complete first-year MBA courses as determined by the College of Business with a grade of "C" or better'and an overall GPA of "B" or better in all, course work taken.
5. Admission Procedures and Standards for International Students. International students are required to follow the procedures and meet the standards stated above. Additional requirements for international students include the following:
A. Transcripts. International students must submit official certified transcripts from all colleges and universities attended. If the transcripts are not in English, the student must provide certified translations.
B. TOEFL Score. Most international students whose first language is not English must take the Test of English as a Foreign Language (TOEFL) and score better than 525. Lamar University must receive the official TOEFL scores before admission can be granted. For information about testing dates and places, write to TOEFL, PO Box 899, Princeton, NJ 08540, USA. The TOEFL is not required of those international students who have received an
undergraduate or graduate degree from a university where English is the language of instruction (e.g., universities in the United States, Canada and England). As part of the orientation process, international students with relatively low but passing TOEFL scores will be required to take one or more additional English as a Second Language (ESL) proficiency examinations and may be required to participate in ESL coursework as part of their graduation requirements.
C. TWE Score. International students who are required to take th eTOEFL must also submit scores for the Test of Written English (TWE). The TWE is available at the same test centers that administer the TOEFL. The minimum TWE score required by Lamar University is 5 . Those scoring less than 5 may be admitted to Lamar University but will be required to enroll in English as a Second Language courses.
D. Proof of Financial Resources. International students must prove that they have enough financial resources to attend Lamar University: As part of the application process, international students must complete the Confirmation of Financial Resources form, which asks for personal, family, and/or sponsor financial information. and a bank verification of financial holdings. All international students are required to have health and accidentinsurance for themselves and all their dependent family members in the United States. Insurance may be purchased at the University during the registration period.
E. Proficiency in spoken English may be required by some graduate programs.
6. Admission Procedures and Standards for Doctoral Degrees. Prospective Doctor of Engineering (D.E.) students must send a letter to the Dean, College of Engineering, Box 10057 L.U.S., Beaumont, TX, 77710. The letter should give information on the applicant's engineering experience, current employment and major research interests. For details on GPA, GRE, TOEFL and background requirements, see the College of Engineering section of the Graduate Catalog.
Prospective Doctor of Education in Deaf Education (Ed.D.) students must send a letter to the Chair, Department of Communication Disorders (Speech and Hearing), Box 10076, Lamar University, Beaumont, TX 77710. The letter should give information on the applicant's deaf education experience, training, employment history, current employment, and major research interests. Deaf applicants are encouraged, and experience as a teacher of the deaf is required. For details on GPA, GRE, TOEFL and background/experience requirements, see the College of Fine Arts and Communication section of the Graduate Catalog.
Nondegree students interested in Post Baccalaureate or Pre Graduate admission should refer to the Graduate Catalog for details.
