

# MATH PATHWAY

**MATH 1314** (College Algebra)

**MATH 1316** (Trigonometry)

*MATH 1314 and MATH 1316 are for non-STEM students who need the fundamentals of algebra and trigonometry. These courses are frequently part of your pre-professional plan of study and required for graduate school. These courses, therefore, provide you with the foundation needed for entrance exams into those programs as well as the foundational math needed for your plan of study at LU.*
