On September 25 from 11:30 to 12:30, STAIRSTEP was invited to present information about the group, information about general undergraduate research, advice to incoming freshman majoring in computer science, and information about joining STAIRSTEP and other research opportunities. Dr. Sujing Wang, Diego Fernandez and Robert Monarch presented this information to one of the department’s four cardinal communities, supporting the initiatives of the department’s First Year Success program. There were 9 students in attendance for Mr. Frank Sun’s Cardinal community, along with Dr. Jiangjiang Liu and Dr. Sujing Wang. After speaking, the presenters stayed for the duration of the meeting and answered questions from the freshmen students following the meeting.
