The 2017 Mini Cast, held on February 18, offered STAIRSTEP a great opportunity to reach out to high school and middle school teachers to discuss STEM education. We had the opportunity to not only talk about STEM as a whole but got to talk about our outreach programs, of which many of the teachers seemed interested. Throughout the course of the day, the STAIRSTEP booth had approximately 40 teachers come by and some seemed interested in our outreach programs.
