Harmony STEM Education Conference
On November 14, 2011, Professor Peggy Doerschuk participated in the STEM Education Conference hosted by Harmony Science Academy in Houston. Several hundred individuals were present, including educators, administrators, parents, and high school students. Events included a science fair where Harmony students presented their science projects and parallel tracks of presentations on STEM education. Prof. Doerschuk made a presentation on STAIRSTEP to an audience of approximately 20. The presentation included an overview of the STAIRSTEP program and focused on opportunities for STAIRSTEP to partner with high schools to increase STEM participation. Harmony administrators expressed an interest in pursuing such a partnership.
