Engineering in Spain

May 22 - June 2, 2017
ENGR 4301 - Engineering Management
Activities

The program is hosted by Universitat Rovira i Virgili in beautiful Tarragona, a lively city on the Mediterranean coast in the Spanish region of Catalonia. Students will earn three credits for a course in Engineering Management. Activities include excursions to Barcelona, the Ebre Delta, an afternoon among Roman ruins to learn about engineering innovations dating back to 25 B.C., and visits to local industry and port facilities.

Engineering in Spain is open to ALL undergraduate College of Engineering students with a minimum of Junior status by the end of Spring 2017 semester.

Only 15 spots available - apply early!

Program Fee
