I came to LU with a vision, and that vision was to learn as much as possible, excel in my classes and be an editor at the University Press—and I have done that. I’m lucky to be able to say I love what I do. I love my classes, my professors and all the amazing people who have helped me along in my journey and have changed my life. Journalism has allowed me the freedom to explore my community, meet new people and broaden my horizons. I’m going to leave LU one day as a better writer and a better person.”

LU helped me find my passion in hearing sciences. I hope to one day do humanitarian work in audiology. The Speech and Hearing Sciences Department as well as the Deaf Studies and Deaf Education Department have been instrumental in my success at LU. Studying abroad has led me to develop a cultural background in deaf studies and a clinical background specific to hearing sciences and disability inclusion.”

In 2017-2018, LU awarded MORE THAN $142 million in financial assistance to eligible students.
Lamar University is the best choice for me because I can engage with my professors, classmates and administration in a way I could not at other universities. The LU political science program has truly surprised me. I thought to have a chance to go to law school I would need to go elsewhere, but after working with Dr. Terri Davis, Chair of Political Science, I know I'm at the right place. Lamar University has so many opportunities, take them!"
