There is no better moment to be at Lamar University than right now, because we are focused, first and foremost, on your success. We facilitate one-on-one advising and offer tutoring and mentoring programs. We have coaches who help you with everything from navigating course schedules to learning more efficient time management techniques. Additionally, your learning moments here at LU can be enhanced by study abroad opportunities, undergraduate research and co-operative work programs. Because our faculty-to-student ratio is one of the lowest in the state, 1 to 19, you will never be a number. At Lamar University, we’re going to know you and help you achieve your distinct goal.

College is more than academics, it’s an experience to be enjoyed. We’re committed to providing a collegial environment. I like Starbucks as much as you, so we have one in the first level of our library, which is a short walk to the hub of student life, the newly renovated Setzer Student Center. Here you’ll discover hundreds of student clubs and organizations. At our state-of-the-art recreation center, you’ll find all sorts of intramural sports with everything from cricket to dodgeball. Experience college life by tailgating before football games. Football is just one of our 17 NCAA Division I men’s and women’s sports competing in the Southland Conference. Join a sorority or fraternity. The opportunities for college moments, experiences you’ll never forget and friendships you make for a lifetime await you at LU.

We look forward to helping you make the most of your college moments here at Lamar University.

Best wishes,

President Ken Evans
Lamar University has offered me an overwhelming amount of opportunities. At LU, I am able to excel in my classes, get involved in many organizations and gain valuable skills from my learning experiences. The 19:1 student-to-faculty ratio is one of the best qualities that LU has to offer because I can easily communicate with my professors and collaborate with my classmates. Ultimately, it has helped me gain a research position on campus! Conducting research has allowed me to develop a background in the research process, gain critical thinking and analytic skills, and enhance my career choice of becoming a dentist.”

Lamar University has not only provided me with the academic tools I need to succeed, but it also has allowed me to gain a network of friends and faculty that care about my success. The people I have met at LU have made this school a place I enjoy being at and can’t wait to return to after each break. I have experienced growth here that I did not expect and doubt I would have experienced at a large and impersonal university. I am proud to be an LU Cardinal!
