## Notes:

Lamar University's BS University Studies Multidisciplinary program accepts technical credit. Please see the technical credit policy below:
The University Studies program allows students to use technical credit to satisfy degree requirements under the following conditions:

- Technical credit may not be substituted for upper division courses.
- Technical credit must be from a regionally accredited institution.
- Technical credit must be applied en bloc to the relevant degree program.
- Students must have satisfactorily completed technical courses with at least a grade of C or demonstrated satisfactory performance.
- Students may not apply for credit for the same technical skills through the narrative course process; in addition, students may not use both technical credit and prior experiential credit to satisfy degree requirements.
- Students may not apply more than 36-42 hours of technical credit to a degree. However, the specific number of technical hours applicable to each University Studies track varies to account for required coursework. Students should discuss technical credit with an academic advisor in the Department of University Studies.

\*LU University Studies degree requires students to take ENGL 1302 Composition II or ENGL 2311 Business and Technical Writing. We strongly recommend students take that course at LIT before transferring to LU.
