Commented [JR1]: Same Comments as the MS Program:

Regarding All SLOs - More details needed. 90.75% % of what… 90.75% of students scored what over 75%? How many students?

If the indirect results take 9-12 months post graduation, should the indirect results be reported on a 1 year delay. For instance, for the upcoming 2024-2025 Academic year, should the indirect results for 2023-2024 be given for complete report?
