

BS Art Education
Annual Program Report Template

Year:	2021-2022
Program:	BS Art Education
Contact Person (include email & phone#)	Chris Troutman ctroutman@lamar.edu 309-472-5137-Rep.; Stephanie Chadwick schadwick2@lamar.edu 409-880-8140, chair

Summary of Continuous Improvement Efforts since Last Report: *Provide a brief description of how assessment results have been used for program improvement. Point to a specific example of how an assessment provided the program with data it could use for improvement and what that improvement was, if possible, also show evidence of the improvement. You may look at data from the two previous academic years to support this case.*

Respond here: The BS in Art Education has Targets set for each of four Outcomes that 70% or more of the students should complete work rated as “Above Average” (scoring an average of 3 or higher for each of the Outcomes on the attached rubric). From 2020-2021 in all four Outcomes students Exceeded their Targets. The resulting Action Plan was that faculty would observe student results for one year to determine if there was a pattern of success that would warrant increasing the Target percentage. From 2021-2022, students again Exceeded their Targets and discussion was initiated for changing the Targets for all Outcomes. As a result, Targets were increased to 72% of students will complete work that is rated as “Above Average” within each of four Outcomes. Although no significant new courses or course changes were warranted, the assessment data was used to make outcome adjustments to add one component to Outcome 3, the teaching philosophy. Assessment data was used to make this decision as the teaching philosophy should be its own document based on the students’ research of educational theories and philosophies. Additionally, the teaching portfolio is now digital instead of a hard copy.

Program Highlights Since Last Report

Although no significant new courses or course changes were warranted, the assessment data was used to make outcome adjustments to add one component to Outcome 3, the teaching philosophy. Assessment data was used to make this decision as the teaching philosophy should be its own document based on the students' research of educational theories and philosophies. Additionally, the teaching portfolio is now digital instead of a hard copy.

Identify and briefly discuss any programmatic curriculum changes made since the last report (e.g. new courses, course changes, SLO changes, course deletions).

Respond here:

There were no other significant changes made from 2020 to 2021 that affected BS in Art Education Degree.

Table 1. Assessment Results and Analyses for Current Cycle.

STAGE 1: PLAN				STAGE 2: DO		STAGE 3: STUDY
Departmental Student Learning Goal	Program Student Learning Outcome	Assessment	Assessment Method/Location	Benchmark Expectations	Data Results	Actions/Goals Based on Data Results* What do the data tell you? How will you use this data? How were data from the last cycle used to make changes during this cycle, and What were the results of those changes?
<p>Goal 1 Producing Lesson Plans for K-12 Students:</p> <p>It is expected that students preparing to complete the BS in Art Education will be able to effectively initiate and produce age and level appropriate lessons.</p> <p>Rationale:</p> <p>This goal is to assure the student's readiness to teach and the department's ability to maintain the rigorous Department and Professional Standards expected of a student</p>	<p>Outcome 1 Demonstrate the Ability to Produce Lesson Plans for K-12 Students:</p> <p>Upon completing the program, students will demonstrate their ability to effectively initiate and produce age and level appropriate lessons in Art for grades K-5 (demonstrated in work produced for ARTS 4371) and middle school and secondary school art classes (demonstrated in work produced for ARTS 4381).</p>	<p>All outcomes for the BS in Art Education are assessed as part of their Clinical teaching and related capstone projects that include creating age appropriate lesson plans and curricula, as well as original art and an art teaching portfolio (now digital) containing original designs that explore a variety of art media appropriate to elementary or secondary and middle school art instructors. The majority of work is</p>	<p>This outcome is assessed as part of students' Clinical teaching and related capstone project to create effective, age-appropriate lesson plans in the formats specified for each of the studio projects completed to teach K-12 students.</p> <p>The lesson plans are developed through a series of art projects assigned by the instructor</p>	<p>70% or more of the students completing this lesson plan assessment will do so with above average work (an average score of 3 or above on our rubric of 1-4).</p>	<p>(2021-2022) Exceeded: The target for this outcome was met by 100% with 3 of 3 students producing work that was rated at above average (an average score of 3 or above on our rubric of 1-4) in this category.</p>	<p>In 2021-2022 the majority of students again Exceeded their Targets and discussion was initiated about raising the Targets for all Outcomes. As a result, Targets have been increased to 72% of students will complete work that is rated as "Above Average" (an average score of 3 or higher on our rubric of 1-4) for each of four Outcomes in the 2022-2023 assessment.</p> <p>Since the assessments from 2020 on have been on work by students learning and conducting their clinical teaching in challenging pandemic and post-pandemic circumstances, discussion of raising the benchmark to a percentage higher than 72% will be revisited in future cycles.</p>
