

### Persistence Rates (OneYear)

**One year persistence rates for first-time, degree-seeking undergraduates enrolled in at least 12 semester credit hours in the fall.**

Percentage point change from first to last year displayed. Movement towards the target of a 75% one-year persistence rate has been positive, with a 3.0-point change between 2021 to 2023. As of the most recent reporting year, LU had a 71.4% one-year persistence rate

	2021			2022			2023			% Change
	Entering Fall Cohort	Count	Percent	Entering Fall Cohort	Count	Percent	Entering Fall Cohort	Count	Percent	
1-Year Persistence Rates	2020	1,217	68.4%	2021	1,366	70.6%	2022	1,432	71.4%	3.00

### Persistence Rates (Two Year)

**Two-year persistence rates for first-time, degree-seeking undergraduates enrolled in at least 12 semester credit hours in the fall.**

Percentage point change from first to last year displayed. Lamar had met the 60% two-year persistence rate in 2021 but has seen a decrease in that metric over the last two reporting years, but the current 59.2% two-year persistence rate is still very close to the target.

	2021			2022			2023			% Change
	Entering Fall Cohort	Count	Percent	Entering Fall Cohort	Count	Percent	Entering Fall Cohort	Count	Percent	
2-Year Persistence Rates	2019	1,190	67.9%	2020	1,215	59.8%	2021	1,362	59.2%	-8.7
