Your Future

The Bachelor of Science in Nutrition – Dietetics program is accredited through the Accreditation Council for Education in Nutrition and Dietetics (ACEND). Courses for this degree cover general and advanced nutrition, community nutrition, nutrition through the life cycle, food science, medical nutrition therapy, and foodservice management. Science courses are a major part of the curriculum providing the graduate with a strong foundation. These include nutritional biochemistry, anatomy and physiology, microbiology, pathophysiology and chemistry.

This four-year program prepares and qualifies the graduate to apply for, and complete, an ACEND-accredited dietetic internship program which is one requirement toward becoming a Registered Dietitian Nutritionist (RDN). The RDN can work in a variety of clinical settings including hospitals, long-term care facilities, home-health care, and out-patient clinics. RDNs also work as food service directors for school districts and hospitals.
