

SLP Junior Clinician Application

- The LU Junior Clinician Program allows undergraduate students the opportunity to observe and serve in the Lamar Speech and Hearing Clinic under the mentorship of graduate students. Previous students report gaining valuable hands on experience, confidence and knowledge to carry into graduate school or other future endeavours. The program is highly competitive with only approximately 10 students selected for participation each semester. Junior clinicians must maintain a minimum 3.0 GPA to participate in this program. Participants must be in their junior or senior year and be enrolled in or have completed 2 disorder courses:
 - SPHS 3320 (Language and Phonological Disorders)
 - SPHS 4335 (Fluency Disorders)
 - SPHS 4337 (Voice Disorders)
 - SPHS 4338 (Organically Based Communication Disorders)
 - SPHS 4352 (Counseling in Communication Disorders)

Individuals accepted into the junior clinician program will be allowed to participate in the program only once during their undergraduate career.
