DRUG-FREE SCHOOLS AND COMMUNITIES ACT

Annual Notification

The Drug-Free Schools and Communities Act and the Education Department General Administration Regulations policy requires Lamar University to adopt and implement programs “to prevent the unlawful possession, use, or distribution of illicit drugs and alcohol by all students and employees on school premises or as part of any of its activities” (EDGAR Part 86, Subpart A 86.3).

The Annual Notification includes the required reporting of:

- Standards of conduct regarding the use and prohibition of alcohol and drugs for students and employees.
- Disciplinary sanctions and penalties for the violations of illicit behavior concerning alcohol and drugs at the school, state, and federal levels.
- The health risks associated with the use of alcohol and drugs.
- Campus resources to assist current students and employees.

STANDARDS OF CONDUCT

EMPLOYEE:

Human Resources Policy Manual

- The unlawful manufacture, distribution, dispensing, possession or use of a controlled substance and the abuse of alcohol in the work place is expressly prohibited.
- All department chairs and supervisors of the institution are responsible for ensuring that the work place is free from illicit drug use and alcohol abuse.
- All department chairs and supervisors of the institution shall also be responsible for the conformance by all employees with the provisions of this policy and all required procedures hereto.

STUDENT:

Code of Student Conduct

- Committing an act that would constitute an offense under appropriate federal, state, or municipal law.
- Violating any published university policy, including policies or contracts relating to residential living in university-owned or operated facilities.
• Failing to comply with the direction of a university official acting in the performance of his or her duties, including an official summons to the office of an administrative official at a designated time.
• Violating published university policies on the possession or use of alcoholic beverages.
  o Underage drinking of alcoholic beverages, driving under the influence of alcohol, and/or public intoxication is prohibited.
  o The consumption of any alcoholic beverage in public places on the campus is prohibited except where specifically authorized by the University. All buildings, lobbies, walkways, and grounds of the campus are, for this rule, considered to be public places. Alcoholic beverages are not permitted in any residence hall.
  o Any violation of published university policies regarding the possession and/or use of alcoholic beverages will result in disciplinary actions.
• Possessing, using, selling, or distributing any illegal drug, a controlled substance, and/or drug paraphernalia as defined by Texas Law.
• Possessing and/or using, without authorization according to university policy, intoxicating beverages in a classroom building, laboratory, auditorium, library building, faculty or administrative office, residence hall or apartment, intercollegiate and intramural athletic facility, or any other public campus area, or being intoxicated in any public area of the campus.

Residence Life Handbook:
• Alcoholic beverages are not permitted in any residence hall, regardless of the age of the student.
• Alcohol bottles and containers may not be kept in any resident’s room for any reason.
• If alcohol is found in the common area of the residential unit both residents will be held responsible.
• Possession of drugs and drug paraphernalia are prohibited.
• Residents found in possession of alcoholic beverages are subject to student conduct action and a $100 fine.

Medical Amnesty Protocol (Code of Student Conduct: 2.01)
To ensure that student’s safety and health come first in cases of underage possession and/or consumption of alcohol and/or illicit drugs use conduct action will not be pursued if:
• the intoxicated student reports the incident and/or
• the intoxicated student or other students involved seek medical and/or health assistance from a university official or medical provider.

CAMPUS-WIDE:
Lamar University is a smoke-free and tobacco-free campus. This pertains to all tobacco products including electronic cigarettes and vaping.
CAMPUS RESOURCES

Employee Assistance Program:
Any employee of Lamar University who has a drug or alcohol problem is invited to contact the Interface Employee Assistance Program (EAP) to obtain confidential information about assistance. Assistance includes referrals for assessment, comprehensive inpatient and outpatient treatment programs, and follow-up programs, including self-help groups. Offices are located throughout the Beaumont and Golden Triangle area. Counselors are available 24 hours a day, seven days a week. Call toll-free 800-324-4327 to speak with a counselor or log-on to www.4eap.com. For the user name and password for the EAP website, visit the Lamar University Human Resources Department Additional Benefits webpage.

Resources For Students
Lamar University Student Health Center:
Confidential mental health counseling, including substance use and abuse counseling, is available to the students at Lamar University. The Student Health Center is located behind the library and next to the dining hall at 857 E. Virginia Street, Beaumont, Texas 77705. Appointments are available by calling 409.880.8466. For additional information, visit the Lamar University Student Health Center web page at http://lamar.edu/healthcenter.

HEALTH RISKS

Source: “Commonly Used Drugs.” National Institute on Drug Abuse, National Institutes of Health.

Alcohol (Ethyl Alcohol)

- Other names: Booze, juice, sauce, brew.
- Administration: Swallowed.
- Short-term effects: Injuries and risky behavior, including drunk driving and inappropriate sexual behavior; impaired judgment, coordination, and reflexes; slurred speech, memory problems.
- Long-term effects: Irregular heartbeat, stroke, high blood pressure; cirrhosis and fibrosis of the liver; mouth, throat, liver, breast cancer.

Tobacco

- Other names: Cigarettes, cigars, bidis, hookahs, smokeless tobacco (snuff, spit tobacco, chew).
- Administration: Smoked, snorted, chewed, vaporized.
- Short-term effects: Increased blood pressure, breathing, and heart rate.
- Long-term effects: Greatly increased risk of cancer, especially lung cancer when smoked and oral cancers when chewed; chronic bronchitis; emphysema, heart disease; leukemia; cataracts; pneumonia.
Inhalants

- Other names: Solvents, aerosols, and gases found in household products such as spray paints, markers, glues, and cleaning fluids; also, nitrites (e.g., amyl nitrite), which are prescription medications for chest pain. Poppers, snappers, whippets, laughing gas.
- Administration: Inhaled through the nose or mouth.
- Short term effects: Confusion; nausea; slurred speech; lack of coordination; euphoria; dizziness; drowsiness; disinhibition, lightheadedness, hallucinations/delusions; headaches; sudden sniffing death due to heart failure (from butane, propane, and other chemicals in aerosols); death from asphyxiation, suffocation, convulsions or seizures, coma, or choking. Nitrites: enlarged blood vessels, enhanced sexual pleasure, increased heart rate, a brief sensation of heat and excitement, dizziness, headache.
- Long term effects: Liver and kidney damage; bone marrow damage; limb spasms due to nerve damage; brain damage from lack of oxygen that can cause problems with thinking, movement, vision, and hearing. Nitrites: increased risk of pneumonia.

Marijuana

- Other names: Blunt, bud, dope, ganja, grass, green, herb, joint, Mary Jane, pot, reefer, sinsemilla, skunk, smoke, trees, weed. hashish: boom, gangster, hash, hemp.
- Administration: Smoked, eaten (mixed in food or brewed as tea).
- Short-term effects: Enhanced sensory perception and euphoria followed by drowsiness/relaxation; slowed reaction time; problems with balance and coordination; increased heart rate and appetite; problems with learning and memory; anxiety.
- Long-term effects: Mental health problems, chronic cough, frequent respiratory infections. In rare cases, risk of recurrent episodes of severe nausea and vomiting.

Synthetic Cannabinoids

- Other names: Black Mamba, Bliss, Bombay Blue, Fake Weed, Fire, Genie, K-2, Moon Rocks, Solar Flare, Skunk, Smacked, Spice, Yucatan, Zohai.
- Administration: Smoked, swallowed (brewed as tea).
- Short-term effects: Increased heart rate; vomiting; agitation; confusion; hallucinations, anxiety, paranoia; increased blood pressure.
- Long-term effects: The use of synthetic cannabinoids has led to an increase in emergency room visits in certain areas.

Methamphetamine

- Other names: Crank, chalk, crystal, fire, glass, go fast, ice, meth, speed.
- Administration: Swallowed, snorted, smoked, injected.
- Short-term effects: Increased wakefulness and physical activity; decreased appetite; increased breathing, heart rate, blood pressure, and temperature; irregular heartbeat.
- Long-term effects: Anxiety, confusion, insomnia, mood problems, violent behavior, paranoia, hallucinations, delusions, weight loss, severe dental problems (“meth mouth”), intense itching leading to skin sores from scratching.
Heroin

- Other names: Brown sugar, China white, dope, H, horse, junk, skag, skunk, smack, white horse, cheese (when mixed with OTC cold medicine and antihistamine).
- Administration: Injected, smoked, snorted. Short-term effects: Euphoria, dry mouth, itching, nausea, vomiting, analgesia, slowed breathing and heart rate.
- Long-term effects: Collapsed veins, abscesses (swollen tissue with pus), infection of the lining and valves in the heart, constipation and stomach cramps, liver and/or kidney disease.

Cocaine

- Other names: Blow, bump, C, candy, Charlie, coke, crack, flake, rock, snow, toot.
- Administration: Snorted, smoked, injected.
- Short-term effects: Narrowed blood vessels; enlarged pupils; increased body temperature, heart rate, and blood pressure; headache; abdominal pain and nausea; euphoria; increased energy, alertness; insomnia, restlessness; anxiety; erratic and violent behavior, panic attacks, paranoia, psychosis; heart rhythm problems, heart attack; stroke, seizure, coma.
- Long-term effects: Loss of sense of smell, nosebleeds, nasal damage, and trouble swallowing from snorting; infection and death of bowel tissue from decreased blood flow; poor nutrition and weight loss; lung damage from smoking.

MDMA/Ecstasy/Molly

- Other names: Adam, Clarity, Eve, Lover’s Speed, Peace, uppers.
- Administration: Swallowed, snorted.
- Short-term effects: Lowered inhibition; enhanced sensory perception; increased heart rate and blood pressure; muscle tension; nausea; faintness; chills or sweating; sharp rise in body temperature leading to kidney failure or death.
- Long-term effects: Long-lasting confusion, depression, problems with attention, memory, and sleep; increased anxiety, impulsiveness, less interest in sex.

Synthetic Cathinones ("Bath Salts")

- Administration: Swallowed, snorted, injected.
- Short-term effects: Increased heart rate and blood pressure; euphoria; increased sociability and sex drive; paranoia, agitation, and hallucinations; violent behavior; sweating; nausea, vomiting; insomnia; irritability; dizziness; depression, panic attacks; reduced motor control; cloudy thinking.
- Long-term effects: Death.
PENALTIES

UNIVERSITY EMPLOYEES:

- Drug testing
- Referral for drug counseling, rehabilitation, or employee assistance program
- Probation
- Termination

UNIVERSITY STUDENTS:

Any student who is found to have illegally possessed, used, sold, or distributed any drug, narcotic, or controlled substance, whether it occurred on or off-campus, shall be subject to discipline, ranging from a written warning to expulsion. Violators are also subject to criminal sanctions provided by federal, state, and local law.

- Written warning
- Restricted privileges
- The requirement to complete a special project
- Restitution: Paying for physical or property damage, losses, or misappropriation, either monetarily or by the performance of specific duties.
- Cancellation of residence hall contract.
- Disciplinary probation
- Withholding an official transcript or degree.
- Cancellation of pre-registered courses, the prohibition against readmission, or restriction from pre-registration.
- Denial or non-recognition of a degree.
- Loss of or ineligibility for a student grant or loan.
- Suspension: Separation from the university for a specific period
- Expulsion: Permanent separation from the university

FEDERAL AND STATE PENALTIES

These penalties may apply to employees and students

Federal Trafficking Penalties

The minimum sentence for a violation after two or more prior convictions for a felony drug offense have become final is a mandatory term of life imprisonment without release and a fine up to $20 million if an individual and $75 million if other than an individual.

Methamphetamine (Sched. II), 5–49 grams pure or 50–499 grams mixture. PCP (Sched. II), 10–99 grams pure or 100–999 grams mixture.

**Penalties:** First Offense: 5 to 40 years. If death or serious injury, 20 years to life. Fine of not more than $5 million if an individual, $25 million if not an individual. Second Offense: 10 years to life. If death or serious injury, life imprisonment. Fine of not more than $8 million if an individual, $50 million if not an individual.

**Drug and Quantity:** Cocaine (Sched. II), 5 kgs or more mixture. Cocaine base (Sched. II), 280 grams or more mixture. Fentanyl (Sched. II), 400 grams or more mixture. Fentanyl Analogue (Sched. I), 100 grams or more mixture. Heroin (Sched. I), 1 kg or more mixture. LSD (Sched. I), 10 grams or more mixture. Methamphetamine (Sched. II), 50 grams or more pure or 500 grams or more mixture. PCP (Sched. II), 100 gm or more pure or 1 kg or more mixture.

**Penalties:** First Offense: 10 years to life. If death or serious injury, 20 years to life. Fine of not more than $10 million if an individual, $50 million if not an individual. Second Offense: 20 years to life. If death or serious injury, life imprisonment. Fine of not more than $20 million if an individual, $75 million if not an individual.

**Drug and Quantity:** Other Sched. I & II drugs (and any drug product containing Gamma Hydroxybutyric Acid), Any amount. Flunitrazepam (Sched. IV), 1 gram.

**Penalties:** First Offense: Not more than 20 years. If death or serious injury, not less than 20 years, or more than life. Fine $1 million if an individual, $5 million if not an individual. Second Offense: Not more than 30 years. If death or serious bodily injury, life imprisonment. Fine $2 million if an individual, $10 million if not an individual.

**Drug and Quantity:** Other Sched. III drugs, Any amount.

**Penalties:** First Offense: Not more than 10 years. If death or serious injury, not more than 15 years. Fine not more than $500,000 if an individual, $2.5 million if not an individual. Second Offense: Not more than 20 years. If death or serious injury, not more than 30 years. Fine not more than $1 million if an individual, $5 million if not an individual.

**Drug and Quantity:** All other Sched. IV drugs, Any amount. Flunitrazepam (Sched. IV), Other than 1 gram or more.

**Penalties:** First Offense: Not more than 5 years. Fine not more than $250,000 if an individual, $1 million if not an individual. Second Offense: Not more than 10 years. Fine not more than $500,000 if an individual, $2 million if other than an individual.

**Drug and Quantity:** All Sched. V drugs, Any amount.

**Penalties:** First Offense: Not more than 1 year. Fine not more than $100,000 if an individual, $250,000 if not an individual. Second Offense: Not more than 4 years. Fine not more than $200,000 if an individual, $500,000 if not an individual.

**Drug and Quantity:** Marijuana (Sched. I), 1,000 kg or more marijuana mixture; or 1,000 or more marijuana plants.

**Penalties:** First Offense: Not less than 10 years or more than life. If death or serious bodily injury, not less than 20 years, or more than life. Fine not more than life. Fine not more than $10 million if an individual, $50 million if other than an individual. Second Offense: Not less than 20 years or more than life. If death or serious bodily injury, life imprisonment. Fine not more than $20 million if an individual, $75 million if other than an individual.
Drug and Quantity: Marijuana (Sched. I), 100 kg to 999 kg marijuana mixture; or 100 to 999 marijuana plants.
Penalties: First Offense: Not less than 5 years or more than 40 years. If death or serious bodily injury, not less than 20 years, or more than life. Fine not more than life. Fine not more than $5 million if an individual, $25 million if other than an individual. Second Offense: Not less than 10 years or more than life. If death or serious bodily injury, life imprisonment. Fine not more than $20 million if an individual, $75 million if other than an individual.

Drug and Quantity: Marijuana (Sched. I), More than 10 kgs hashish; 50 to 99 kg marijuana mixture More than 1 kg of hashish oil; 50 to 99 marijuana plants.
Penalties: First Offense: Not less than 20 years. If death or serious bodily injury, not less than 20 years, or more than life. Fine $1 million if an individual, $5 million if other than an individual. Second Offense: Not less than 30 years. If death or serious bodily injury, life imprisonment. Fine $2 million if an individual, $10 million if other than an individual.

Drug and Quantity: Marijuana (Sched. I), Less than 50 kilograms marijuana (but does not include 50 or more marijuana plants regardless of weight) 1 to 49 marijuana plants; Hashish (Sched. I), 10 kg or less; Hashish Oil (Sched. I), 1 kg or less
Penalties: First Offense: Not less than 5 years. Fine not more than $250,000, $1 million if other than an individual. Second Offense: Not less than 10 years. Fine $500,000 if an individual, $2 million if other than individual.

Penalties Under Texas Law

Source 1: Texas Controlled Substances Act, Tx. Stat. §§ 481.112-481.121.

Offense: Manufacture or delivery of controlled substances (drugs) in penalty group 1
